VOL. XXVII. PORTSMOUTH, N. H. THURSDAY, JAN. 18, 1866. No. 16.

The Chronicle.

☞ It is worthy of notice that at the Greenwich Hospital in England and the Hotel des Invalides in Paris, a change has recently been made, both nations without concert of action having arrived at the conclusion that it is far better to grant out-pensions, leaving sailors and soldiers to find homes among their own friends, than to bring them together under one roof, or create colonies of men dependent upon government. We may profit by the experience of England and France, for they have tested the system in a most thorough manner.

— The inventor of the polka, Anne Siczak, 60 years old, is still living in Bohemia.

— In describing the Iowa giantess, a paper gravely remarks:—"The bride did not falter or tremble upon being led to the altar."

— The young men at Christ Church, Oxford, quarrelled with their bread and butter, and it appearing that there was good and sufficient reason why they could not tell which side their bread was buttered on, the commissary department of the college has been thoroughly overhauled.

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, offers a *favorable resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with rooms, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in the choicest means of enjoying all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
CHAS. K. LANDIS, Vineland P. O.,
Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *In my opinion, no more desirable resort, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* a1—dawów

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These *Life-giving* remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a boon realized, that *Ponce-de-Leon* sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.
These Famous Remedies
Cannot stay the flight of years, but they can force back, and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once, and the usual time of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

Portsmouth, N. H.

THURSDAY, JANUARY 18, 1866.

☞ The great New Hampshire Musical Convention or Festival,—or, better, State Musical Mass Meeting, for "all the people" were there, "in the congregation"—at Concord last week, was literally an immense success—a big thing. A correspondent has already given some particulars. We were able to attend only on the last day; and found Eagle Hall, and in fact the whole city, full of music. Ten or twelve hundred singers took part in the choruses. Mr. L. O. Emerson was conductor, as heretofore; and besides the assistance of the managers, there were several hired soloists—but we don't think they added greatly to the interest or value of the occasion.

As we crowded and squeezed in among the eager multitude, we could but contrast the different receptions awarded to such gatherings in the two places. In Portsmouth, the people—even many of those who consider themselves musical—let the Conventions take care of themselves—*if* they could; which they did, to the tune of about $400 out of pocket, for the two or three musical individuals who had enterprise and public spirit enough to try the experiment for the good of the community. In Concord, year after year, the very first citizens not only join in the singing, or crowd the house as auditors, but also throw open their residences for the week, to accommodate some of the visitors, and this year the hotels charged musical guests but half fare, as also did the Railroads. This evinces not only the high esteem in which Messrs. Davis and Morey, the chief managers, are deservedly held, but also that the Concord folks are alive to the value and importance of such things.

Eagle Hall is one of the largest and most beautiful in the State; but it isn't near big enough for the State Musical Festival. And Nathaniel White, Esq., who owns not only Eagle Hall, but mainly the elegant Hotel of the same name, and part of the Merrimack Co. Fair Grounds, and half a great Express, and most of a fine church, and the whole of an aqueduct, and we don't know what not—and in whose unbounded success, everybody seems to rejoice—well, he says Eagle Hall shall be made considerably larger this summer, so the musical folks can all get in. But we tell him that the more room he makes, the more people will come; and next year there will be two thousand singers, rather than one. And we hope he will improve the entrance to the hall too, and the arrangement of seats—for we could but shudder, as we imagined the effect of a "fire" or other panic on that audience of two thousand people or so, packed into the movable settees, with the aisles also filled by seats running lengthwise; and but two narrow doors, and three flights of stairs to descend! Do better than that, Mr. White.

There was an immense amount of work, to get up this Convention, of course; and the arrangements were made in good shape. But the Concert was rather a drag, notwithstanding all its great merits. To begin with, you had to go at 6 o'clock, to be sure of getting in at all; and as the Concert was not appointed till half-past 7, the choir amused themselves by singing anything and everything, to while away the time—first the ladies making a selection, then the gentlemen, and sometimes both together—but all without a leader, and so long and so strong that all hands were pretty tired. Well, the Concert proper had better begun at 7, for choir and audience were all in about that time, except the three or four lady soloists, who actually had the impudence to keep those two thousand people waiting for more than a quarter of an hour. And it was past 10 o'clock before that pent-up audience of four mortal hours was released. Angels and ministers of grace defend us! but we wouldn't stand that siege again, to listen to seraphic warblings.—There was but little ventilation, and never is or will be, so long as audiences themselves can control the fixtures. Notwithstanding a little girl kept fainting for an hour or so, and that crowd must have breathed up the hall full of air every ten minutes, yet those near the windows kept shutting them all the while, and those others who *require* air to breathe (as all folks do *not*, by a great sight,) must have felt like an animal in an exhaust apparatus.

The programme consisted chiefly of sacred selections, from the "Creation"—several of the sublime choruses, which were very well given; and several of the long solos and recitatives, which mostly might better have been dispensed with. The whole entertainment was fully twice as long as it should have been—and it is passing strange that speakers and concert-givers, who always denounce long-winded sermons, lectures, &c., should so often fall into the same error themselves. It is rare, indeed, that any entertainment can venture to keep an audience more than an hour and a half, at most.

The latter part of the Concert was made up of varieties, and passed off to better satisfaction; though there was too much encoreing and repetition—which, strangely enough, mostly came from the choir itself! Mr. Ingalls, of Concord, sang a sweet new piece of Mr. Morey's, "My Sister Dear," and we didn't hear anybody sing any better than he did; and a song from Ben. Davis would have pleased us more than most they had. Some gentleman played a very long solo, most beautifully, on the clarionet—and he was actually encored till he had to give the same endless monotony over again!

We are not finding a bit of fault with the Convention—only giving a little criticism on the Concert. The Festival is bound to live and increase; and the Manchester people are to have one there in May. Good, so—the more music the better; but the Concord gatherings will be hard to beat, in this State or any other.

In the U. S. Senate, Jan. 16.—Mr. Chandler's resolution for the withdrawal of our Minister, and non-intercourse with Great Britain, was taken up and tabled, 25 against 12.

Mr. Howard's resolution for the trial of Jeff. Davis and C. C. Clay was ordered to be printed.

The bill for the establishment of a military and naval asylum for totally disabled officers and men of the volunteer force was amended to make it apply exclusively to the army, and passed.

The unfinished business of yesterday came up, viz: the District of Columbia suffrage bill. Mr. Morrill offered an amendment excluding from suffrage all who voluntarily left the District to aid and comfort the rebels.

Mr. Davis spoke against the bill, two hours and a half by the clock,—on negro suffrage in the District and on the aspect of affairs generally. The speech when printed will be a heavy contribution to the political literature of the day, but not half a dozen Senators listened to it.

In the House, Mr. Deming reported back from the Military Committee the bill to revive the grade of General.

The House concurred in the Senate's resolution authorizing the Reconstruction Committee to send for persons and papers.

The House then resumed consideration of the District of Columbia suffrage bill.

The Committee on the Judiciary reported with amendments the bill to incorporate the United States Protective Homestead Company, capital $3,000,000. One of the amendments omits the names of several Northern men and substitutes Southerners. The object of the bill is to encourage emigration to the South. The names of some of the corporators are omitted because the Committee was not satisfied of their loyalty. An amendment was offered that the corporation shall provide for the landless poor, without distinction of color, who apply for homesteads. The bill and amendments were ordered to be printed.

☞ A Washington dispatch says Com. Winslow, the principal witness against Semmes, has arrived. The pirate will be tried at an early day.

Gen. Grant expects to be settled in his new residence in about a week.

Hon. B. B. French, Commissioner of Public Buildings, is taking steps to refurnish the White House before the close of the month.

☞ In New York, the Jury on the inquest in the case of Mary Ann Gilroy, frozen on the passenger ship Neptune, reprimanded Capt. Peabody, and found Dr. Henrick guilty of neglect and incompetency, and considered his case the proper one to go before the Grand Jury. He was placed in charge of the police to await the action of the criminal authorities.

GOLD, Tuesday, 140 1-2.

— Most of the Richmond Journals applaud the recent cowardly attack of Pollard on the defenceless correspondent of the N. Y. Times, Mr. Brooks.

— The Vermont papers are trying to find out who is the oldest man in the State. Peter Nassaw, a negro pauper at Pomfret, takes the lead so far, being reported at 130 years old.

— It is said that a substance has at last been discovered which will take the place of cotton and rags in the manufacture of paper. It is found in the Southern provinces of Spain, and is known as as "esparto grass."

— A Washington dispatch says the Government is in receipt of information which tends to the belief that the recent destruction by fire of the Arsenal at Columbus, Miss., was caused by incendiaries, to cover a theft of Government cotton stored in the Arsenal.

— The estimated loss of steam boats, ferry boats, wharf boats, canal boats, barges, ferry docks, &c., at St. Louis since the first movement of the ice, is $800,000. The insurance is probably about one-half that amount. The ice is still running, but navigation is partly resumed with the South.

The Portsmouth Cornet Band.—*Editor Chronicle:*—We were gratified to see in the Journal of last week so favorable a notice of our Cornet Band. You have spoken on several occasions truthful words of praise concerning this organization. We have no organization in our city that is better entitled to the liberal patronage of our citizens. A Band is a public necessity. There are numerous occasions every year when its services are indispensable. Our Band is an honor to the city. The taste of their selections, and the mellow sweetness of their execution, is seldom equaled. The members take high rank in their profession, and in the city for intelligence, integrity, sobriety, and all the the attributes of genuine manliness. On all occasions they manifest a spirit of generous accommodation. "Long live the Cornet Band," is the united sentiment of our people.

And yet there are serious apprehensions that the Cornet Band will die, from lack of adequate support. However devoted men may be to a profession, they can hardly be expected to continue in it always, if it is a constant drain upon their pockets—more especially if they depend upon their labor for their daily bread. It costs a good deal, both of time and money, to keep up this organization. They must have a hall, light, fuel, music, uniform, &c. One or two evenings of each week must be devoted to rehearsals. The members necessarily lose a great deal of time from their business. Indeed they cannot accept the most lucrative positions at all, because they are unable to give constant attention to business. They are liable, any day, to be called from the shop or counting-room, and hence labor under disadvantages—either in conducting business of their own, or being employed by others. When they are engaged to play, they only receive compensation for their time at their usual avocations, or the ordinary pay of common mechanics. They gain nothing when they leave their business to meet the demands of the public. If they do not lose money, they are quite satisfied. Accordingly, all the time and expense of preparation are an entire pecuniary loss. And all their current expenses, which constitute a considerable sum every year, are a loss also. I am told that they are in arrears now, to an amount which they can illy afford to pay. Nor should they pay it at all. It should be paid by the public, for whose benefit the bills were contracted.

They gave, a few nights ago, a Concert at the Temple, hoping their receipts might meet, in part at least, their indebtedness. But owing to the extreme cold, the attendance was small, the avails scarcely covering expenses. Now should we expect them to bear all these burdens, and still be our willing servants? No! And if we neglect them too long, we shall regret it, when it will not be easy to organize another such Band. If we allow them to disband—and they will, unless we help them to bear these necessary burdens—we shall have to contribute what they need, four-fold and more, within the next five years, in calling poorer Bands from neighboring cities.

It has been proposed to circulate a subscription in their behalf. But they think this looks like begging, and are not quite willing. Would it not be well to get up a subscription for a repetition of their most excellent Concerts. Have we not hundreds of citizens who would take tickets to the amount of from one to five dollars, and thus fill the Temple, enjoy a most charming entertainment, do an act of simple justice, and encourage and save the Band? Let it be tried. We believe it will succeed. If it fails, then when it is announced that "the Portsmouth Cornet Band is no more," the denizens of our goodly city will have nobody to censure but themselves.

THE SECRET SERVICE, THE FIELD, THE DUNGEON, AND THE ESCAPE.

By ALBERT D. RICHARDSON,

N. Y. Tribune Correspondent.

1,000 COPIES SELLING PER DAY!

The most interesting and exciting book ever published, embracing Mr. Richardson's unparalleled experience for four years. Travelling through the South in the secret service of the Tribune at the outbreak of the war, with our armies and fleets, both East and West, during the first two years of the Rebellion, his thrilling capture; his confinement for twenty months in seven different Rebel prisons; his escape, and almost miraculous journey by night of nearly 400 miles. It abounds in stirring events, and contains more of the fact, incident and romance of the war than any other work yet published.—Horace Greeley says of it:

"A great many books will yet be written concerning this war, in addition to the many already in print; but not one of them will give, within a similar compass, a clearer, fuller, more readable account, entirely from personal observation, of the nature, animus, purposes, tendencies, and instrumentalities of the slaveholders' Rebellion, than does the unpretending narrative of Mr. Richardson."

Teachers, ladies, energetic young men, and especially returned and disabled officers and soldiers, in want of profitable employment, will find it particularly adapted to their condition.—Address forthwith, Address

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *free of charge.*

Please inclose a post paid envelope, addressed to yourself. Address,

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injury to the health or the skin*, is certainly a desideratum. Dr. B. C. Perry, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists, price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

ALLCOCK'S POROUS PLASTERS.—These plasters have the compactness of kid leather and the flexibity of a silk glove. They have cured varicose veins and external aneurisms. For all affections of the chest, weight about the diaphragm or upper portion of the bowels, in colds and coughs, for injuries of the back, for all strains or bruises, for a weak back, for nervous pains of the bowels, and other nervous affections and cramps, for heart affections,—in all these cases they have to be used to be properly appreciated.

DR. I. T. HENDERSON'S LETTER.

Farmville, Louisiana, March 8, 1850

DR. T. ALLCOCK,—*Sir:* I have been suffering under a severe attack of *neuralgic disease* of my bowels for years, with *hypertrophy of the heart* and have tried everything known to the practice of medicine from the very best M. D's: but truth prompts me to say that your plasters have given me more permanent relief than anything else I have used, and I believe will produce a perfect cure.

The counter-irritant effect of your plasters is produced in such a mild and gradual way, they so invigorate the circulation around the parts to which they are applied, and exert upon all nervous diseases such a great sedative influence, that I place them confidently at the head of every plaster now in use. Yours, very truly,

d28—dawlm I. T. HENDERSON, M. D.

TIDE WATER RESERVOIRS.

Messrs. Editors—Some of the suggestions put forth by your correspondent in regard to the extinguishment of fires in this city, appear plausible and well worthy the consideration of the city government, and if the experiment can be carried out in only a portion of the city, it might prove of incalculable advantage in case of an extensive conflagration.

We would call the attention of the city government, to the fact that Vaughan street to Hanover is but slightly elevated above high water mark, and as there is a continuous line of low ground extending to the North Mill Pond without in all probability any ledge or other obstacle to prevent the laying of a pipe or conduit, at a mere nominal expense compared with the cost of some of our scientifically constructive and expensive reservoirs, we would therefore propose that the North Pond be tapped near the engine house at the Eastern Railroad Depot, having the main branch running to the corner of High and Bridge streets where supply tank No. 1 might be sunk, then continuing on to the corner of Bridge and Hanover streets to supply tank No. 2, thence up Hanover to Vaughan street to supply No. 3, and then up Vaughan to Congress to supply No. 3, then there would be four (or more if wanted) of inexhaustible supplies, in localities where in all probability they may be of essential service, and that too with only one pipe, to which might be added branches running in other directions.

These supply tanks might be made of wood about three feet square and with the bottom not less than two feet below the inlet, which inlet should be at the lowest point of low water in the pond which never runs out as low as the main river by several feet; the tanks should be sufficiently tight to prevent the overflow of any cellar which should happen to be below high water mark, they should also come to the surface of the ground to prevent their being filled up by the dirt caving in. It will be seen that the water in these tanks would always be of the same height that it is in the pond.

These supply tanks could also be sunk with no great expense, extending from Richards Avenue around to the Universalist church, and filled from the South Mill Pond. And then, if instead of sinking a reservoir at the head of Puddle dock as recommended by the Chief Engineer of the Fire Department, we should put tide gates at Liberty Bridge,—we should be extending the area of its usefulness in a locality filled with wooden buildings, and where at low tide, no water is to be had within any reasonable distance, besides the sanitary advantages rendered the citizens of that neighborhood by having the flates covered with a fresh supply of water at every rise of the tide.

PRO BONO PUBLICO.

☞ The clerks in the various departments at the Navy Yard, to the number of about thirty, sat down to their first annual supper at the Franklin House on Wednesday evening. At the close of the bountiful repast measures were taken to render this pleasant occasion of annual occurrence. The body was organized under the name of "the Clerical Association," and Charles W. Gardner, Esq., was chosen President for the ensuing year; Wm. W. Palfrey, Secretary, and Geo. W. Towle, Treasurer. They know and do right.

☞ We learn that a lecture upon the subject of "Labor" is to be delivered at Rechab Hall this evening, to the workingmen of this city and vicinity, by one of the members of the Eight Hour League.

☞ At the inauguration of the Rooms of the United Service National Library Association (of which Gen. Scott is President) in Boston, on Monday evening last, Edw'd P. Nowell, of this city, delivered a fine poem on the siege and capture of Fort Fisher, which was enthusiastically received. All the Boston daily papers allude to Mr. N.'s poem in high commendatory terms.

COTTON PLANTATIONS FOR SALE.

We have for sale and ready for immediate occupancy some of the best cotton plantations in the very best cotton growing region of the south, with beautiful dwellings and all the buildings and machinery for cotton cultivation complete, and many with the laborers ready for work. They will be sold with perfect titles for less than it cost to clear the land and erect the buildings.

Any of these plantations will pay for themselves and all expenses by a single crop, and more double in value within a year. To raise a crop the coming year, operations must be begun in January. To facilitate investments at once the comp y are prepared to purchase, manage and cultivate plantations for Northern Owners without any charge to the purchaser, the expenses being paid from the net profits.

We also are prepared to negotiate for advances for growing cotton, giving a bottom mortgage with perfect title upon the entire plantation to secure the principal, and giving one-third net crop for the use of the money—the plantations being run under the supervision of our own agents, and cotton shipped to our order. These advances can be deposited with our agency in New York or Boston, and will be paid at maturity at the same place without exchange.

Cotton at present prices will pay from 2 to 300 per cent on these investments, amply secured and perfectly safe.

We assure Northern men of perfect security in their persons and property in any locality where these purchases and investments may be made by us.

We believe no more favorable opportunity for investment for Northern men ever presented itself, and at the same time it will supply the necessities of the freedmen by furnishing them with remunerative employment, and will help inaugurate the experiment of free labor in the cotton fields of the South under Northern auspices

Mortgages negotiated upon plantations for which 20 per cent interest per annum will be paid absolutely, or one third the net crop of cotton raised.

An agent of the Company will leave for the South on the 15th of January to make investments and attend to the selection and purchase of plantations; until which time he can be seen at the office of the New England Agency, No. 40 Washington St., Boston, Mass.

Send for list of plantations and prices, in any desired locality. Send for circulars. Call for letters of introduction to our agents in all parts of the south.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,

78 State Street, opposite Kilby Street,

BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and other decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in course of his large practice, has received twenty-eight applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after having under the tre tment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cubinis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,

S. D. C. HENRIQUER,
Merchant, Curacoa, S. A,

New York, June 28th, 1855.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

CHEROKEE PILLS,

Or Female Regulator,

Cure *Suppressed, Excessive and Painful Periods, Whites, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness*, and all diseases that spring from irregularity, by removing the cause and all the effects that follow. They are perfectly safe in all cases, *except when forbidden by directions*, and are easy to administer, as they are nicely *sugar coated*. They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an envelope, free from observation, by addressing the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

N.B.—Cherokee Pills No. 2 are prepared for *special cases*, when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S

REJUVENATING ELIXIR,

Or, Essence of Life,

"As the Phœnix rises from the ashes of its first, animated with new life"—so does this Elixir restore the youth to course the veins, eat the system and full vigor, thus proving a overcome disease.

Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, restoring the *organs of Generation, removing Impotency and Sterility* and *full vigor*, thus proving a perfect *"Elixir of Love,"* removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no better boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed vigor, filling the whole the entire system to thrill with joy and pleasure.

Price, one bottle $2; three bottles $5; sent by express free of charge.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some respectable dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free of observation. We are always ready to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted, addressed to us, and for medicines, pamphlets, or advice, to the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

NEW ENGLAND FREEDMEN'S AID COMMISSION.—A meeting of this charity was held in Boston, Monday afternoon, at which the change or modification of the name and a slight addition or amendment to the Constitution of the Society was discussed. It is proposed now to embrace in its workings the needy white as well as the blacks at the South. The meeting adjourned to Thursday evening, the 18th inst. [That is right. The whites need a mission as much as the blacks.]

ISRAEL MARDEN & CO.,
No. 39 Congress St., Portsmouth, N. H.,
—DEALERS IN—
S. Vance's Submerged Well PUMP.
This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.
ITS ADVANTAGES.
FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.
SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.
THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.
FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.
FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.
SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are required. It is very light, and thus the cost of transportation is very small.
☞ Manufactured by S. VANCE & CO., No. 51 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,
ISRAEL MARDEN & CO.,
39 Congress Street.
☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

AMERICAN AND FOREIGN PATENTS;
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857.
78 State Street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are unrivalled by any correspondent with the most eminent Physicians of the Old World, of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and sure cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsle and a Physician who has cured thousands, in the very prime of life in the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, containing hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Nichols' Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country*. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste*. It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of farms and vineyards lots and upward, $25 per acre. Five and ten acre and village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire a home, where a beautiful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges of the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an extensive region, in a suitable condition for pleasant farming that we know of this side of the Western Prairies.* n1—dawów

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged, they will prove more invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that must exist.
These Famous Remedies
Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, to seize the favorable opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally, alone, but penetrates with the most searching effects to the very root of the evil.

FRIDAY, JANUARY 19, 1866.

NORTHERN PACIFIC RAILROAD.—On the 2d of July, 1864, Congress passed an act, and President Lincoln approved it, for the construction of a railroad from Lake Superior to Puget Sound on the Pacific, under the name "Northern Pacific Railroad" By the terms of the charter, the road must run north of the 45th degree of latitude. To the efforts of Mr. Josiah Perham, the granting of the charter was mainly due. He early conceived the idea that the route explored by Gov. Stevens, and later by Lieuts. Donalson, Mullen and others, up Missouri river to the Rocky Mountains, through the Gate of the mountains and down the Columbia river to the Pacific—was the most feasible route across the continent, because it followed great navigable water courses, and could therefore be constructed with comparatively small cost. But Mr. Perham failed to impress capital with his ideas. Under the act, the charter would expire on the 1st day of July 1866, unless the work of construction was previously commenced. Col. W. S. Rowland, whom the close of the war, had set at liberty, undertook to re-vivify the expiring charter. He established himself in Boston and explained to its capitalists the advantages to be derived by them from the completion of this enterprise. He called to his aid Ex-Gov. Curry of Oregon, and Ex-Gov. Fuller of Utah, both of whom spoke upon the subject at the Merchants Exchange in Boston, and a great interest was at once manifested in the enterprise. Several of the most wealthy members of the Boston Board of Trade decided to assist the enterprise with money and other material aid. Among these were Hon. George C. Richardson, President of the Board of Trade, Hon. Edward S. Tobey and many others of great influence. A new Board of Directors was elected, in which the New England element was largely represented. Ex-Gov. Smith, of Vermont, is now the President of the Company, and the charter believed to be the most important and valuable ever given, is in New England hands, and the road will be managed in New England interest.

☞ The Memphis Avalanche proposes that the Southern States should hold a general convention "to determine what conditions the States are *willing* to accept on their return to the Union, and also to consult upon the disposition of the colored population, the rights and wants of freedmen, the status of the negro."

This proposition, besides being rebellious and treasonable in general, is exactly contrary to the U. S. Constitution, Art. I, Sec. 10, which says, "No State shall enter into any treaty, alliance or confederation,"—nor "without consent of the Congress—enter into any agreement or compact with another State!"

This is as plain as can be: but the stupid Bourbons do not yet see how completely their nonsense about "State Sovereignty" has been swept away by the tide of events.

GOLD, Thursday, 139 1-2.

— A man has become insane by working in the lake tunnel at Chicago.

☞ A Washington dispatch of Thursday says: "The President is considerably indisposed, but there is no fear of serious illness."

— The house of Orlando Garland, at Dixmont Centre, Me., was destroyed by fire early Tuesday morning. Mr. Garland was awakened by the smoke, and barely escaped with his wife and two children through a window.

— The order of the War Department mustering out of service one hundred and twenty-two General officers, does not muster out of service those officers who belong to the regular army. It simply reduces them to the rank which they held in the regular service. Several of them, who were Major Generals of volunteers, will, from the effect of this order, fall back to the positions of Captains and Majors.

— It is the custom of Rome for the cardinals to write every year to the Catholic emperors and kings, to offer the compliments and congratulations suggested by the return of Christmas and the opening of a new year. The Pope has forbidden the members of the Sacred College to pay this mark of respect to the Emperor of Mexico, so a London paper says.

— A fact highly honorable to types is disclosed by a late report of the New York Inspector of State Prisons; while all other occupations are represented in their large number of convicts, there is not a single printer. Printers have not time allowed them for the commission of crime.

— An almost incredible story is told of a telegraph operator in Washington, to the effect that he lately received two long dispatches by two different instruments simultaneously, interpreted them both by sound, and wrote them out simultaneously as received, one with his right and one with his left hand. That must be the chap who scratches his head with both hands, and eats his breakfast and dinner, at one sitting.

NEW HAMPSHIRE ITEMS.

—— Thirty-two persons over 90 years old died in the State last year. Mrs. Lucy Whitcomb of Fitzwilliam was the oldest—nearly 102.

—— A few days ago a son of Mr. Wm. Eastman, of Warner, who is somewhat weak-minded, while in the woods at work, was reprimanded by his father, whom he struck with a billet of wood, fractured his skull and otherwise injured him.

—— David L. Coggswell, of Henniker, committed suicide on Friday last, by hanging himself in a cider mill belonging to his brother, in whose family he had been residing for a few weeks past. He was 68 years old, and at times has suffered much from depression of spirits.

—— The two Cummings, in jail at Lancaster, for the Northumberland assault, and the two Libbys, charged with burglary at Milan, made their escape on Saturday night, by sawing off the iron bars of the window grate. The fugitives had nearly twelve hours' start before their hegira was discovered. If these wretched copperhead fools will quit the country, it will be for the country's good, save the expense of a trial, and lessen the gains of some eminent counsel for the defense.

—— Rev. Uzal Condict of Salisbury, preferred on Tuesday a charge before Mayor Hoffman of New York against the firm of "Hayard & Co.," of cheating his son out of fifty-six dollars. It appears that young Condict organized a club in Salisbury, and raised fifty-six dollars, which he forwarded to Messrs. Hayard & Co. in payment for certificates, which were to entitle the holders to valuable gold watches, &c. He did not get the watches, and heard no more of "Hayard & Co." The result of the interference of the police was the refunding of the money.

THE SITUATION.—The power of Congress to provide by suitable legislation the reorganization rendered necessary by the rebellion is gradually gaining ground among the Union Senators and Representatives, and but a corporal's guard in either House now bang back behind those whose long term of public service has been characterized by an immovable adherence to the principles of Freedom. These leading emancipationists, whose fixedness of purpose concentrates effort into the solemn energy of duty, are now full of confidence and energy. Indeed, they have never appeared faint-hearted, although some weaker brethren have asked them, as the Puritan Colonel Titus asked of Oliver Cromwell: "Are we, who would not submit to the Lion, to lie down and be quietly devoured by the Lamb."—*Perley.*

☞ In Boston, Wednesday evening, about 10 o'clock, as two ladies in a sleigh were attemping to turn the corner of School street, the horse fell down and threw one of the ladies out upon the sidewalk. She was picked up and found not much hurt. After they had got ready to start again the team was run into by one of the Neck cars and both shafts broken.

☞ On the 17th Jan., the House of Delegates of Maryland passed resolutions endorsing Gen. Grant's recent letter opposing the withdrawal of Federal troops from the late insurrectionary districts, and opposing the arming of the militia of those States.

☞ In the New Jersey Legislature, Jan. 17, a joint resolution in favor of the constitutional amendment, abolishing slavery, passed the House by a vote of 42 to 10.

— A railroad has been projected to cross the Isthmust of Tehauntepec.

— The latest news from Mexico appears favorable to the Republic, the Empire being rather shaky.

— Secretary McCulloch opposes the project of equalization of bounties on the ground of inability of the Treasury to meet the enormous drain contemplated.

— An earthquake occurred in Mexico on the 3d inst., doing considerable damage at Orujava, Maltrala and other places in the interior with loss of life.

— Rev. Mr. Quint of New Bedford desires the Standard to say that there is no foundation for the report in circulation that he has received a call to the pastorate of Park street church in Boston.

— In twenty-three of the most populous counties of Georgia, not more than one man has been found who could take the test oath required of federal office-holders! A good deal of reconstruction must be needed in that region.

— The Captain General of Cuba is still at variance with the Supreme Court of Cuba, he having countermanded a recent order of the latter for the production of 600 slaves from the estate of Zeulenta on the plea that they were free. The affair has been referred to Spain.

— The Washington Republican says "the regular monthly double-headed sensation editorial that appeared in last Friday's New York Herald, that the President is about to reorganize his Cabinet, is untrue. It is only necessary for us to state that we have the best authority for asserting that there is no truth whatever in the Herald's rumors. The Cabinet is a unit, and still exists."

MILITARY BOUNTIES AND EXPENSES. It appears from the official statement that the total number of men who received respectively $400, $300 or $100 bounty during the war was 1,730,340, amounting in the aggregate to nearly $301,500,000. The total enlistments during the war were 2,-461,000 men, of whom upward of 731,000 received no bounty.

In answer to an inquiry by Gen. Schenck, Chairman of the House Military Committee, respecting a proposed law equalizing the bounties of all soldiers who served during the war, the Paymaster General says the sum required to pay each soldier or his representative enough to bring up his bounty to $400, the largest sum paid, is nearly $683,000,000, and the sum required to pay each soldier such highest bounty in proportion to his time of service is $550,000,000. The Paymaster General says the sums estimated as necessary to accomplish the end proposed, even if reduced to one-half, give an amount of money sufficiently enormous and startling in its proportions to awaken the gravest consideration as to the expediency of the measure, if, indeed, it can be regarded at all practicable at the present crisis, without entailing financial ruin.

In a further argument against the measure, he says:

"It is certain that to a greater extent than is now apprehended such legislation will insure to the benefit of speculating adventurers all over the land, who have been buying soldiers discharges with a view to such anticipated legislation, and who are now, doubtless, covertly pressing its consummation. The large bounty allowance thus largely given, in spite of the careful vigilance and scrutiny of the officers of this department, have led to frauds incalculable. In cannot be doubted that such an extension of these allowances as is proposed will give new opportunity to evil doers in that line beyond anything known in the past."

—A considerable body of colored men in Alabama have remonstrated against arming the State militia, as proposed by Governor Patton and indorsed by Gen. Thomas. They cannot help thinking what the black horse cavalry are nightly doing in the neighborhood of Montgomery, where black men dare net buy mules or any other property that can be forcibly taken from them. They remember how lately the men of these militia companies were members of vigilance committees, and what was done by them in that capacity. They recall speeches made in the Legislature, in which it was asserted that negroes should be taught their places as soon as the State was restored to its relations in the Union, and they fear that the arming of the militia means nothing but wrong, violence and and oppression to their people.—*Washington Cor. Boston Daily Advertiser.*

SUFFRAGE IN THE DISTRICT OF COLUMBIA.—The present indications are that after the Connecticut election a bill will be passed, granting the right of suffrage in the District to all men, white or black, who can read and write their names, and who pay a poll tax for the support of public schools. Many would prefer universal suffrage, but I think that there will be a majority in favor of the educational qualification, especially as Judge Kelly has advocated making a law regulating the qualifications of voters in the States.—*Perley, Jan. 16.*

—"Thou shalt not steal," is an axiom which no one disputes, but which very many evade, and seem quite willing to forget its teachings. Unscrupulous persons have, and are still, imitating Herrick Allen's Gold Medal Saleratus. We make mention of this fact to put all persons who want the best article on their guard, and our advice is to buy no other, as that, in our judgment, is the only article that should enter the stomach of any one who cares for health and good Bread or Biscuit. Most of our Grocers have it for sale. The depot is 112 Liberty St., New York. 37

☞ At Washington, a clerk in the Quartermaster's Department, named Jones, said publicly on Monday, on hearing of the threats made to assassinate Senator Sumner: "I am not in favor of decapitation, but I would like to see Sumner sent to his long home." This was reported to the Secretary of War on Wednesday. Mr. J. was notified that his services were no longer required by the Government. Served him right.

☞ A Cincinnati dispatch says that a political fracas occurred at Richmond, Ky. Two families named Parish and Kavanagh were the principals. Some sixty partisans took part in the affray. One man was killed, three are supposed to be mortally wounded, and half a dozen others seriously injured.

Ex-Generals Heath, Pillow, Hood, Longstreet and other Southern leaders, have been in Cincinnati lately, and engaged sixteen hundred white laborers and purchased 800 cotton ploughs.

☞ The owners of a building in which is held a colored school at Wyattsville, Md., notified the teacher of the school a few days since that it would have to be closed, as the laws of Maryland prohibit the education of colored children. The teachers submitted the case to Major General Howard, Commissioner of Refugees, Freedmen, &c., who directed the teacher to continue the school as heretofore and says the U. S. will protect it.

☞ On Tuesday night, at Washington, two churches, one hotel, and one dwelling-house, all owned or occupied by colored people, were set on fire; but all were extinguished without much damage:—and as to the *incendiaries*,—are they worthy to be citizens? and their victims *not* worthy?

A SINGULAR CASE OF ELOPEMENT.—There was a new phase in the elopement line at Chicago last week. A fair young Milesian of 25 years, succeeded in winning the affections of two married men, and actually ran away with both, they leaving wives and families in destitute circumstances, having sold everything to raise money for the flight. One of them was a grocer, and succeeded, by borrowing and selling, in raising $10,000. How the three will get along together time will show.—*Exchange.*

Time will very *soon* show discord, wretchedness, and woe.

Special Insurance Notice.

To my Friends and the Public:

Twelve years ago I was appointed Agent of the HOME INSURANCE COMPANY of New York, and have faithfully performed every trust and duty for the Company. Last week I received a note from Mr. N. A. CLARK, Special Agent, stating a change was to be made and the Agency to be transfered to another party. I at once thought what was in the wind, and left for New York to learn the cause, but before my return the change was made. I inquired why the change was made, as not a word had been said that all transactions were not satisfactory—and all the charges they brought against me were that the Company was making no money in Portsmouth, that the rates of Insurance were too low, and I was blamed for the late fire—the burning of Congress Block and Locke's Stable,

This same Special Agent, N. A. CLARK, spent several weeks in Portsmouth, examined all my risks that he wished to see, and generally called them very good; approved the risks of Preston, Shores and Salem, in Congress Block. Mr. Clark, at my request, went with me to Woodbury Locke's Stable on State street, and examined the premises and stock, and fixed the rate at 1½ per ct., a half per cent. less than I had before insured him, and authorized me to take any reasonable amount Mr. Locke wanted insured. I acted under his instructions; and if insuring the Stable was the cause of the *fire*, the blame should be on Mr. Clark, and not on me—for I should not have taken it at that rate. Such is a true statement of the facts and all charges that have come to my knowledge.

I think the Home Insurance Co., or their Special Agent, N. A. Clark, has done me great injustice, after working for them for so many years; then, without any satisfactory reason or complaint, and without notice, give my hard earned labors to another man. I trust my friends and the public will withdraw their Insurance, and bestow it on me, where it rightfully belongs,—for I have several as good and responsible Insurance Companies as the Home, of New York.

THE SECRET SERVICE, THE FIELD, THE DUNGEON, AND THE ESCAPE.

By ALBERT D. RICHARDSON,

N. Y. Tribune Correspondent.

1,000 COPIES SELLING PER DAY!

The most interesting and exciting book ever published, embracing Mr. Richardson's personal adventures for four years. Traveling through the South in the secret service of The Tribune at the outbreak of the war, with our armies and fleets, both East and West, during the first two years of the Rebellion; his thrilling capture; his confinement for twenty months in seven different Rebel prisons; his escape, and almost miraculous journey by night of nearly 400 miles. It abounds in stirring events, and contains more of the fact, incident and romance of the war than any other work yet published.—Horace Greeley says of it:

"A great many books will yet be written concerning this war, in addition to the many already in print; but not one of them will give, within a similar compass, a clearer, fuller, more readable account, entirely from personal observation, of the nature, animus, purposes, tendencies, and intellectualities of the Slaveholders' Rebellion, than does the unpretending narrative of Mr. Richardson."

Teachers, ladies, energetic young men, and especially returned and disabled officers and soldiers, in want of profitable employment, will find it particularly adapted to their condition.—Send for Circulars. Address,

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liverspot, and Leitigo,) or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the tender or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

☞ A day or two since, we alluded to a case of copper-stealing from the Portsmouth Navy Yard by a man named Sanborn of Kittery, wherein it was suspected that a firm styled Fenton & Zara, who keep a boarding-house at the Foreside, were implicated in the arrangement. After Sanborn's arrival in Portland, he disclosed the whole matter, by relating the manner in which he was induced to commit his theft, the parties concerned with him, together with the amount of copper stolen on previous occasions, fully implicating these men alluded to—Fenton and Zara—and accordingly they were arrested on Thursday morning by U. S. Deputy Marshal Gould, and placed in confinement at the Marine Barracks until Thursday evening, when they were conveyed by the five o'clock train to Portland for examination before U. S. Commissioner Clifford.

Quite a sensation was created in this city and Kittery Foreside on Wednesday evening, by the announcement that Sanborn had escaped from Kent, who had him in charge. Some of Kent's friends (?) (lovers of good order) who fear he will be appointed City Marshal, took particular pains to relate the circumstance in such a manner as to reflect severely upon the character and competency of the above named gentleman as an officer. It turned out, however, that the story of the prisoner's escape was a ruse, concocted to prevent any suspicions on the part of Fenton or Zara, that would cause them to leave before a warrant could be procured for their arrest. Mr. Kent deserves great credit for the shrewd manner in which he performed his part in this affair.

IN THE BOARD OF ALDERMEN, on Thursday evening, Jan. 18, the annual report of the Chairman of the Board of Health was received and read.

A petition from A. W. Haven and 131 others for the re-appointment of Emery A. Dresser as City Marshal, was referred to the Committee on Police.

Foxwell C. Staples was appointed Lamplighter, and Chas. H. Marsh Night Watchman. Mark Pray was elected Surveyor of Highways for District One, in place of W. M. Philbrook, declined.

IN COMMON COUNCIL, the resignation of Foxwell C. Staples, a member of the board, was received and accepted.

U. S. COMMISSIONER'S COURT, Portland. Daniel Sanborn, of Kittery, was yesterday brought before the Commissioner, charged with larceny from the United States Navy Yard at Kittery. After the examination of one witness the examination was continued to Monday, the 22d, at 10 o'clock, and in default of sureties in the sum of $500 for his appearance, the prisoner was committed to jail. G. F. Talbot, U. S. Dist. Attorney, for Government. The prisoner had no counsel.

YOUNG THIEVES.—Frank Page and Albert Page, respectively 17 and 19 years of age, stole a watch and a quantity of clothing in Manchester last week. An officer came to this city upon their track, and after some search left for Portland in farther pursuit of them, accompanied by Marshal Dresser. Failing to secure them at that point, the officers returned to their several posts. On Thursday the offenders were arrested in this city, and placed in confinement until sent for by the authorities of Manchester.

☞ Rechab Hall was well-filled on Thursday evening on the occasion of the lecture on "Labor," by C. W. Gardner, Esq., of this city. He was frequently interrupted by applause, and evidently gave good satisfaction. We hope our young friend may be so encouraged by his maiden effort as to continue in the path where we predict he will win no unenviable reputation.

COTTON PLANTATIONS
FOR SALE.

We have for sale and ready for immediate occupancy some of the best cotton plantations in the very best cotton growing region of the south, with beautiful dwellings and all the buildings and machinery for cotton cultivation complete, and many with the laborers ready for work.—They will be sold with perfect titles for less than it cost to clear the land or erect the buildings. Many of these plantations will pay for themselves, and all expenses by a single crop, and must double in value within a year. To raise a crop the coming year, operations must be begun in the spring. To facilitate investments at once the company are prepared to purchase, manage and cultivate plantations for Northern owners without any charge to the purchaser, the expenses being paid from the net profits.

We also are prepared to negotiate for advances for growing cotton, giving a bottom mortgage with perfect title upon the entire plantation to secure the principal, and giving one-third net crop for the use of the money—the plantations being cultivated under the supervision of our own agents, and cotton shipped to our order. These advances can be deposited with our agency in New York or Boston, and will be paid at maturity at the same place without expense.

Cotton at present prices will pay from 2 to 300 per cent, on these investments, amply secured and perfectly safe.

We assure Northern men of perfect security in their persons and property in any locality where such purchases and investments may be made by us.

We believe no more favorable opportunity for investment for Northern men ever presented itself, and at the same time it will supply the necessities of the freedmen by furnishing them with remunerative employment, and will help inaugurate the experiment of free labor in the cotton fields of the South under Northern auspices.

Mortgages can be negotiated upon plantations for which 20 per cent. interest per annum will be paid absolutely, or one third the net crop of cotton raised.

A Manager of the Company will leave for the South on the 15th of January to make investments and attend to the selection and purchase of plantations; until which time he can be seen at the office of the New England Agency, No. 46 Washington St, Boston, Mass.

Send for lists of plantations and prices, in any desired locality. Send for circulars. Call for letters of introduction to our agents in all parts of the South

THE CHRONICLE OFFICE

Important to the Afflicted.

DR. DOW continues to be cured at his office, No. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience for unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions, by addressing a letter, describing one of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his close attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States

SUFFERERS
From Dyspepsia

READ! REFLECT!! ACT!!!

FARRANT & CO

Gentlemen. I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the care of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cubiais, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

I trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUER,
Merchant, Curacoa, S. A,

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

MONOPOLY OF COAL CARRYING.—Cheap coal may as well be set down as an impossibility in the future. It appears by the annual report of the Philadelphia and Reading Railroad Company, that they have absorbed a number of other railroad corporations by purchases of stock, and now own and manage more than 600 miles of railway, all in Pennsylvania, east of the Susquehanna river. By this absorption, they secure a monopoly of the coal carrying business, and what such a result means our readers have but abundant reason to understand in the high price of coal for the last three years, which has been brought about by the unscrupulous, grasping policy of this same railroad corporation. By its command of the lines of transportation, it has been able to impose the most exorbitant charges for freight, and an article of prime necessity to poor and rich alike has been trebled in price through its inhuman, selfish policy.—*Boston Journal.*

It would seem, though, that competition from some other coal-field might change the base of this speculation.

— Capt. Coleman, late of the rebel army, has been tried at New Orleans for steamboat burning, and banished the Country. He is a grandson of John J. Crittenden and nephew of Gen. Pillow.

—Capt. John H. Pease, of Edgartown, who has performed sixteen whaling voyages, and was proprietor of the Ocean House in that town for several years, never drank a glass of liquor, chewed tobacco, or smoked a pipe or cigar in his life.

No. 39 Congress St., Portsmouth, N. H.,
—DEALERS IN—
S. Vance's Submerged Well PUMP.
This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.
ITS ADVANTAGES.
FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.
SECOND, DURABILITY.—Its peculiar construction, and the fact that it is entirely submerged, combine to make it the most durable of all Pumps yet invented.
THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.
FOURTH, POWER.—For the amount of power applied, this Pump exceeds anything known. It throws one third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.
FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and those galvanized. It can in no way corroded, consequently it brings up pure water at every stroke.
SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.
☞ Manufactured by S. VANCE & CO., No. 81 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,
ISRAEL MARDEN & CO.,
39 Congress Street.
☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony of their excellence.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1837,
78 State Street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and papers in Interferences, Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but brings it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to procure late a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made no *twice rejected* applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually
DR. J. TELLER continues to be consulted and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such being in correspondence with the principal eminent Physicians of the Old World, of obtaining the safest as well as the latest remedies for these diseases, medicines adapted to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Chronic Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. This is the great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. To the single Married and the Married Happy. A lecture on Love, or how to choose a Father—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes established their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see circulars which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 12 A.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a description of their complaint, or cured from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and productive, varying from a clay to a sandy loam, suitable for Wheat, Grass, Corn, Tobacco, Fruits and Vegetables. This is a great fruit country. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers, and are now bearing, and produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste*. It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
Experience has proven that for winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent on application.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that I have seen of this side of the Western Prairies.* al—dawóm

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it real.
These Famous Remedies
Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. The tongue may be coated, but at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.
DR. MAGGIEL'S PILLS
Invariably Cure the Following Diseases:
Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Dyspepsia,

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JANUARY 20, 1866.

☞ Some fellow, who either is a fool himself or else hopes to find one in us—sends us a printed circular from Flatbrookville, New Jersey, enclosing two numbered tickets, for which he wants $2 apiece, and which he says will draw for us "a silver watch *marked* $35," and a "set of silver teaspoons marked $10." (Heaven save the mark!) He signs his very polite and disinterestedly friendly epistle, "Jason H. Tuttle;" and adds in a postscript, (the initial signature of which, J. H. T., is an insult to our long-time associate,) "Do not send money orders or registered letters; enclose the money carefully, say nothing about it to the Postmaster, or any one connected with the Post Office, and it will not fail to reach me. (Give me your Name, P. O. and State in a bold hand." Now we don't see how we can accommodate Mr. Tuttle. In the first place, we have always had great repugnance to "giving our name," or even lending it, to anybody, especially a stranger; and we are not "bold" enough to do it now. Then we do not feel sure that the numbers sent are really lucky ones, after all. And then we don't exactly like the location of the concern — *Flat*brookville. And finally, we have as many watches and silver spoons (we hope your hero don't regard us as a spooney) as we care to pay tax on—and, all things considered, we believe we shall pass our chance for somebody else.

☞ A coppery exchange speaks very highly of Henry Ward Beecher's lecture on Reconstruction, and says:

One thing is plain, that the radicals see that Henry Ward Beecher is lost to them, and no matter how radical he may heretofore have been, he can not now keep pace with them in their present plan of reconstruction. And the hearty support he gives President Johnson, must be a heavy blow to his former co-laborers, while his views in relation to the treatment of rebels cannot fail to meet the hearty approbation of all conservative men and well-wishers of the country's good.

The radicals "don't see" that they have lost Mr. Beecher, any more than the "orthodox" do. His radicalism, and his orthodoxy, are not exactly like those of any other person, and nobody expects they will be. But the copperhead papers need not give themselves one moment's uneasiness about the blows he may inflict on the radicals; as they are accustomed to give and take such things; and they are giving President Johnson all the support they can in his efforts to do justice. Their support of the preacher or president must not and will not be blind, but intelligent. They are not the men who say "Our party, or our country right or wrong." And as far as we see at present, the dreadful rupture, for which the copperheads are waiting,—between the president and the men who elected him, is not likely to occur very soon, if ever. D. T.

FROM TEXAS, *via New Orleans, Jan.* 18. A private letter from the Inspector of Customs at Clarksville, Texas, says the 118th colored Regiment of Infantry, under Col. Davis, took all the skiffs in his charge, crossed the river and captured Bagdad. They then began plundering the place and killing the people. The scene was indescribable. The negroes shot men down for refusing to give up money.

A letter from Brazos, of the 7th inst., says Bagdad was captured on the morning of the 5th. The attacking party consisted of 60 men. They captured 300 prisoners, half of whom turned Liberals, and formed a garrison of the town. The attacking party then disappeared. The Liberal loss was 4 killed and 8 wounded. The Imperialist loss was 11 killed and 27 wounded.

Gens. Crawford and Escobado, on receipt of the above intelligence, started for Bagdad. Gen. Weitzel ordered Col. Hall, Assistant Revenue Officer, not to allow any one to cross until the arrival of Escobado. Gen. Crawford arrived in advance of Escobado, and assumed command. Escobado requested of Gen. Weitzel 200 men to preserve order, which was agreed to.

A French corvette shelled the town on the 6th all day, without damage.

Col. Mejia, Escobada's post commander, has only about a dozen reliable men in Bagdad. The rest have joined Crawford, who has them on board a steamer tied up to the bank of the river at Bagdad.

MEXICO.—Toluca, the ancient capital of Mexico, a fine city of 12,000 inhabitants, has been captured by the Juarists under Munoz, and so critical is the emergency that Marshal Bazaine, with all the Imperial troops at hand, started from Mexico city to attempt to retake the position.

There is a rumor, apparently well founded, that a couple of valuable silver mines have fallen into the hands of the Juarists.

WASHINGTON ITEMS.—A special Washington dispatch says the new fifty cent note was issued Thursday by the printing bureau of the Treasury Department.

The Secretary of the Treasury will reduce his clerical force from 2700 to 2000, and divide the pay of the former among the latter.

NOTES OF FORMER DAYS.

Collected and Collated by UNCLE TOBY.

John Langdon, President of New Hampshire in 1788.

At the time when the *U. S.* Constitution was ratified by New Hampshire, thus securing the validity of that instrument, viz: in 1788, John Langdon was elected president of New Hampshire for the second time. John Langdon was a native of Portsmouth, and was born in 1740. His father, of the same name, was the sixth son of Tobias Langdon, and lived at Sagamore's creek in Portsmouth, where his house was burned, about the year 1740. Tobias is supposed to have been the son of Tobias Langdon, who lived in New Hampshire in 1662.

John received his education at the public grammar school, under the tuition of Samuel Hale. From school, he went into the counting house of the Honorable Daniel Rindge, where he became well acquainted with mercantile transactions. At the close of his apprenticeship, he entered upon a sea-faring life, which business he continued to follow, until the troubles between this country and Great Britain commenced. He took an early and active part in the opposition to the British government, and was one of the leaders of that party, which removed the powder and military stores from the fort at New Castle, in December, 1774. In 1775, he was appointed a delegate to the general congress, and in January, 1776, was re-appointed to the same office. Soon after the beginning of the revolutionary war, he had the command of an independent company of cadets, and at the time of the surrender of the British army under Burgoyne, went to Bennington as a volunteer. He was likewise at Rhode Island with a detachment of his company, at the time the British troops were in possession of the island, and when Gen. Sullivan brought off the American troops.

He was representative and speaker of the house of representatives in this State in 1776 and 1777, and in the former year, judge of the court of common pleas, which office he resigned in April, 1777. In 1778, he had the agency under congress of building several public ships of war, and was appointed continental agent in New Hampshire. In 1779, he was a member and president of the New Hampshire convention for regulating the currency; and from 1777 to 1782 member and speaker of the house of representatives of New Hampshire. In 1780, he was a commissioner to raise men and procure provisions for the army; and on the 13 June, 1783, was appointed delegate to the congress of the United States.

In 1784 and 1785, he was elected a member of the New Hampshire senate, and the latter year, president of the State, being the successor of Meshech Weare. In 1778, he was a delegate to the convention which formed the constitution of the United States. In March, the same year, was elected representative of the legislature, and speaker of the house in June, when on counting the votes for president, he was found to be elected. In November, the legislature elected him senator to the congress of the United States, and he was there elected the first president *pro tem.* of that body, they ever appointed. In 1794, he was re-elected for another term of six years.

From 1801 to 1805, inclusive, he was representative in the N. H. legislature, and in 1804 and 1805, was elected speaker of the house. From 1805 to 1808, and in 1810 and 1811, he was elected governor of the State. In 1805, the government of Dartmouth college conferred on him the degree of Doctor of Laws. Governor Langdon died at Portsmouth, 18 September, 1819, aged 79 years.

"BRISTOL BILL."—This notorious burglar who, if we remember right, was pardoned out of the State Prison at Windsor, Vt., several years ago, on the belief that he would shortly die of consumption, was captured in Hamilton, Canada, last week, and unless extraordinary good luck attends the rascal, he will probably spend the remainder of his days in a penitentiary. The crime of which he stands accused is bank robbing, committed at Galt, Canada. Several months since Bill's residence in Hamilton was elegantly furnished, and a large apartment of burglar's tools was found on the premises.

— We would again call attention to this indispensable article of Gold Medal Soap, for the laundries and the ladies. What the dear creatures will do when the manufacturer, in the course of human events, steps into another sphere of being, we are at a loss to imagine. Make the most of him while you have a chance to do so, for nature, art, or science can never produce a second J. Monroe Taylor Gold Medal Soap. We cannot say half enough in its favor. After using, you will say the same. 39

☞ Fowler & Wells, New York, have just published a pamphlet biography of Father Matthew, the Temperance Apostle. Price 10 cents. Also, "Notes on Beauty, Vigor and Development," by Wm. Niles of London.

NEW HAMPSHIRE ITEMS.

—— The Good Templars at Alton have closed the liquor shops at that place.

—— James Webster, of Amherst, a returned soldier, had his leg severely crushed and broken in two places, while logging, on Wednesday.

—— The 21st annual catalogue of the N. H. Conference Seminary and Female College, (Rev. Dr. Burrows, President,) shows that institution to be in a flourishing condition. For the year 1865 the summary shows a total of 380 ladies and gentlemen attending the institution.

—— The Keene Sentinel states that on Sunday morning, about 6 o'clock, the dead body of a young man named Timothy Hadley was found in the door-yard of his boarding house on Howard street. He had been down town the previous evening with a friend, and had drank rather freely of intoxicating liquors, and not having fully recovered from a severe illness, he probably became exhausted and fell upon the ice, unable to rise or make himself heard. The proper authorities were summoned, but an inquest was not deemed necessary. He was 17 years of age, and belonged in Sharon, where his remains were taken for interment.

—— The friends of the late Col. Edward E. Cross wish to erect the proposed monument to his memory the coming spring, and it is very desirable that all funds contributed heretofore for that purpose should be at once made available. There is reason to believe that contributions have been made for this purpose all over the State, which funds have not been forwarded, owing to some misunderstanding regarding who was the central depositary. Any funds in the hands of the collectors, or which may be collected during the winter, may be sent at once to the Hon. Wm. Burns, or to the Editor of the Republican at Lancaster, and their receipt will be promptly acknowledged.

CONGRESS is actively at work. On Thursday, Jan. 18, the House of Representatives passed the very important bill regulating suffrage in the District of Columbia. There were many distinguished gentlemen on the floor, and the galleries were literally packed, a decided majority of these spectators being colored people, many of them wearing the uniforms in which they had fought for the Union.

Sidney Clark of Kansas advocated universal suffrage, and then Philip Johnson, who represents a mineral district in Pennsylvania, denounced it in copperhead style. Boutwell of Massachusetts made a noble speech, and when he closed, voting commenced.

Mr. Niblack of Indiana moved to lay the subject upon the table, which was lost by a vote of 46 to 123.

Then Mr. Darling, a New York Raymond politician, moved to postpone the consideration of the bill until the first Tuesday of March: disagreed to by thirty-four against one hundred and thirty-four.

A vote was taken as to whether the bill should be recommitted to the Committee on the Judiciary, with instructions first, to include those irrespective of caste or color who can read; secondly, those who have served in and been honorably discharged from the service of the United States, and then to exclude from the right of suffrage those who have been in arms against the United States.

Many Republicans voted for these; but a number of Democrats voted against them, and they were lost by a vote of 53 against 117.

Then came the vote on the bill proposed, which provides that from all laws prescribing the qualifications of voters in the District of Columbia the word "white" is to be stricken out, and that hereafter no person shall be disqualified from voting at any election in the District on account of color.

The vote was taken, and New England voted solid for the bill, with nearly every other Union man. The Democratic party voted square against it. The vote as declared was one hundred and sixteen to fifty-four—more than a two-thirds vote.

Perley says:

It is not thought that the Senate will pass this bill, but will substitute that reported in that body by Senator Morrill, which is equally "unqualified," but has more of the requisit machinery of legislation. The House will unquestionably concur, and then it will be seen whether Andrew Johnson will sign or veto it. Those who should know say that he will sign it.

THE MISSISQUOI BANK.—The loss of the Missisquoi Bank, at Sheldon, Vt., by Hubbell, the missing cashier, is now stated to be between $300,000 and $400,000. The directors are liable for all the debts of the bank, and each or all of them will be ruined financially. Hubbell's father, Judge Hubbell, is one of the directors, and the richest man in Franklin county, but will lose every dollar he has. His personal effects have been attached by the bank, and will be sold on the 29th. Among them are choice sheep and horses, rare wines and brandies, and four gold watches.

— Robert Toombs is in Havana; not quite ready to call the roll of his slaves upon Bunker Hill.

ACCIDENT AT MANCHESTER, MASS.—A fatal accident occurred at the barrel factory of Mr. Daniel W. Friend in Manchester, Mass., on Tuesday, by which one of the workmen came to his death. A large lot of logs had been piled up inside the building, and secured by braces against the wall, when suddenly the props gave away, and the logs tumbling down, one of them struck a man named Frank Rowe, forcing him under a circular saw, which completely severed his body in two near the region of the heart, causing instant death. Mr. Rowe was nineteen years of age.

☞ At Fortress Monroe, Jan. 14, orders were received from the War Department to discharge all employees in the various government departments in the district, who have been in any way connected with the rebel service. The commanding general immediately dismissed all such, about 25. The agent of the National Express Company was also sent away. This order was undoubtedly caused by the rumor that an organization was being formed to rescue Jeff. Davis. Armed picket boats are on duty constantly to examine vessels arriving.

— There were several of the passengers who were rescued by the Fredonia from the wreck of the ship Gratitude on board the steamer Plymouth Rock when she was run ashore last Tuesday morning on Greenwich Beach, Long Island Sound. This is the third time some of the parties alluded to have been shipwrecked between Liverpool and New York.

— Jamaica dates to the 6th represent the island quiet. The Christmas holidays passed off without trouble.

THE SECRET SERVICE, THE FIELD, THE DUNGEON, AND THE ESCAPE.

By ALBERT D. RICHARDSON,

N. Y. Tribune Correspondent.

1,000 COPIES SELLING PER DAY!

The most interesting and exciting book ever published, embracing Mr. Richardson's unparalleled experience for four years. Travelling through the South in the secret service of The Tribune at the outbreak of the war, with our armies and fleets, both East and West, during the first two years of the Rebellion; his thrilling capture; his confinement for twenty months in seven different Rebel prisons; his escape, and almost miraculous journey by night of nearly 400 miles. It abounds in stirring events, and contains more of the fact, incident and romance of the war than any other work yet published.—Horace Greeley says of it:

"A great many books will yet be written concerning this war, in addition to the many already in print; but not one of them will give, within a similar compass, a clearer, fuller, more readable account, entirely from personal observation, of the nature, animus, purposes, tendencies, and instrumentalities of the Slaveholders' Rebellion, has does the unpretending narrative of Mr. Richardson."

Teachers, ladies, energetic young men, and especially returned and disabled officers and soldiers, in want of profitable employment, will find it particularly adapted to their condition.—Send for Circulars. Address

ALLCOCK,—*Sir;* I have been suffering under a severe attack of *neuralgic disease* of my bowels for years, with *Aggravation of the Heart* and have tried everything known to the practice of medicine from the very best M. D.'s: but truth prompts me to say that your plasters have given me more permanent relief than anything else I have used, and I believe will produce a perfect cure.

The counter-irritant effect of your plasters is produced in such a mild and gradual way, they so invigorate the circulation around the parts to which they are applied, and exert upon all nervous diseases such a great sedative influence, that I place them confidently at the head of every plaster now in use. Yours, very truly,

d28—dawlm I. T. HENDERSON, M. D.

Irritation of the Lungs, a Permanent Throat Affection, or an Incurable Lung Disease,

IS OFTEN THE RESULT.

BROWN'S BRONCHIAL TROCHES

HAVING A DIRECT INFLUENCE TO THE PARTS,

GIVE IMMEDIATE RELIEF.

For Bronchitis, Asthma, Catarrh, Consumptive and Throat Diseases,

TROCHES ARE USED WITH ALWAYS GOOD SUCCESS.

SINGERS AND PUBLIC SPEAKERS

will find *Troches* useful in clearing the voice when taken before Singing or Speaking, and relieving the throat after an unusual exertion of the vocal organs. The *Troches* are recommended and prescribed by Physicians, and have had testimonials from eminent men throughout the country. Being an article of true merit, and having *proved* their efficacy by a test of many years, each year finds them in new localities in various parts of the world, and the *Troches* are universally pronounced better than other articles.

OBTAIN ONLY "BROWN'S BRONCHIAL TROCHES" and do not take any of the *Worthless Imitations* that may be offered. oct24

Females 8—aged 2, 23, 25, 32, 34, 34, 37, 48

DECEMBER.

Males 4—aged 21, 51, 56, 66.
Females 9—aged 6, 6, 7, 18, 22, 24, 52, 77, 88.

Under 10 years of age, 16. From 10 to 20 years of age, 11. From 20 to 40 years of age, 46. From 40 to 60 years of age, 29. From 60 to 98 years of age, 38. Males, 50; females, 90. Total 140—being 16 less than for 1864, and 36 less than for 1863.

We are indebted to Mr. John H. Wendell, Superintendent of the City Hearse, for the above record. In addition thereto, there have been a number of burials, not recorded, of children under five years of age.

☞ On Monday night one of the soldiers stationed at Fort Constitution left this city for that post. While crossing the bridges he became utterly bewildered, probably from cold and the driving snow storm. There he remained for the rest of the night and when found, in the morning, had lost his hat and gloves and was in a very critical condition—his face and ears, his hands and feet, all being frozen. He would probably have perished had discovery delayed much longer. As it is, so badly was his left hand frozen that there is much doubt of the possibility of saving it.

☞ The cold term having terminated, our comic editor has thawed out sufficiently to propound the following, the first of which shows the effect of the weather:

Are ships built for the *Chili* trade intended to carry cargoes of ice?

What was the moral state of the community in general in former time, if bishop's stole?

What degree of comparision is expressed in the sentence—"A finer courser ne'er was seen?"

NOTICE.—Rev. Mr. DeNormandie will give the first of two lectures on the "Life and Theology" of Rev. Frederick W. Robertson, of Brighton, England, in the Stone Church, to-morrow (Sunday) evening, at 7 1-2 o'clock.

☞ Mr. Wendell offers a large variety of goods at auction this morning. Also, sales in the afternoon and evening.

☞ Auctioneer Morse will sell to day, at 10 o'clock, a new house on Woodbury St.

AMERICAN PENS.—From J. F. Shores, Jr., agent for this city, we are in receipt of samples of many different styles of steel pens from the manufactory of R. Esterbrook & Co., Philadelphia. All that we have tried have recommended themselves, and prove fully equal to those of foreign manufacture.

Correspondence of the Chronicle.

EXETER, Jan. 18.—In the Supreme Judicial Court, in No. 38, Rollins v. Town of Chester, a verdict for defendants was rendered.

Frank W. Hackett, Esq., of Portsmouth, from the Law School of the Harvard University was on Thursday admitted to practice as an Attorney-at-Law.

Jan. 19th.—No. 68, Hall v. Prescott, is now on trial.

☞ A man named Michael Murry, an employee on the Grand Trunk Railway, in Portland, was run over by an engine at the depot Thursday forenoon, and died in about an hour and a half. He was engaged in shoveling snow from between the rails, and saw the engine backing towards him, and attempted to step out of the way, but slipped and fell on the track. Two wheels of the tender passed across the body just above the hips, cutting him almost in two. The engineer quickly reversed the engine and the same wheels passed over him again, and he was taken out from between the track frames.

— The trial of Gonzales Feroandez, for the murder of Otero, was concluded in New York Thursday. He was found guilty of murder in the first degree, and remanded for sentence.

— At Columbus, Ohio, Jan. 18, John Sherman was elected U. S. Senator by the Legislature—the vote standing 94 to 41.

COTTON PLANTATIONS
FOR SALE.

We have for sale and ready for immediate occupancy some of the best cotton plantations in the very best cotton growing region of the south, with beautiful dwellings and all the buildings and machinery for cotton cultivation complete, and many with the laborers ready for work.—They will be sold with perfect titles for less than it cost to clear the land or erect the buildings.

Any of these plantations will pay for themselves, and all expenses by a single crop, and must double in value within a year. To raise a crop the coming year, operations must be begun in January. To facilitate investments at once the company are prepared to purchase, manage and cultivate plantations for Northern owners in January, by charge to the purchaser, the expenses being paid from the net profits.

We also are prepared to negotiate the advances for growing cotton, giving a bottom mortgage with perfect title upon the entire plantation to secure the principal, and giving one-third net crop for the use of the money—the plantations being run under the supervision of our own agents, and cotton shipped to our order. These advances can be deposited with our agency in New York or Boston, and will be paid at maturity at the same place without expense.

Cotton at present prices will pay from 2 to 300 per cent on these investments, amply secured and perfectly safe.

We assure Northern men of perfect security in their persons and property in the locality where such purchases and investments may be made by us.

We believe no more favorable opportunity for investment for Northern men ever presented itself, and at the same time it will supply the necessities of the freedmen by furnishing them with remunerative employment, and will help inaugurate the experiment of free labor in the cotton fields of the South under Northern auspices

Mortgages negotiated upon plantations for which 20 per cent. interest per annum will be paid absolutely, or one-third the net crop of cotton raised.

An agent of the Company will leave for the South on the 15th of January to make investments and attend to the selection and purchase of plantations; until which time he can be seen at the office of the New England Agency, No. 46 Washington St., Boston, Mass.

Send for lists of plantations and prices, in any desired locality. Send for circulars. Call for letters of introduction to our agents in all parts of the South

Morning Chronicle.

A Foolish and Mischievous Custom.—Burleigh writes to the Boston Journal from New York as follows:

Besides the new year's custom of general drinking, which causes so much inebriety among our young men, we have here another scarcely less pernicious. It is the custom with financial institutions to celebrate their annual election by a copious supply of intoxicating drinks, to which all are invited in the establishment. Huge bowls of punch, champagne and other liquids flow freely. It is no uncommon thing for grave directors and young clerks to be in that condition known in Washington as when a man cannot pronounce "National Intelligencer." Nearly all the great bank defalcations, breaches of trust and forgeries have their origin in the bowl. Men do not begin in the low concert saloons and with pretty waiter girls. Those depths attend the close, when exposure is near. Men of capital cannot wonder that their employees keep fast teams, lead fast lives and end in disappointed, when they lead the young into the outer current, and show that a man can be both rich and respectable and yet not be always sober. It is not in corner groceries, low restaurants and vile dram shops that the seeds of ruin are laid. While I write, another once respected broker in Wall street has fled the city, a heavy defaulter—gaming, women and strong drink the cause.

— The best way to kill bed-bugs is to chain their hind legs to a tree, then go round in front and make mouths at them.

— "A man who'll maliciously set fire to a barn," said Mr. Slow, and "burn up twenty cows, ought to be kicked to death by a jack-ass, and I'd like to do it."

— An old lady when told of her husband's death, exclaimed, "Well, I do declare, our troubles never come alone. It ain't a week since I lost my best hen, and now Mr. Thompson has gone too, poor man."

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT, as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabinis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,

S. D. C. HENRIQUEZ,
Merchant, Curacoa, S. A.

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and not use the medicine against the advice of your Physician.

CHEROKEE PILLS,

Or Female Regulator,

Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness,* and all diseases that spring from irregularity, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases, *except when forbidden by directions,* and are easy to administer, as they are nicely *sugar coated.* They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints and prescribe Medicine suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the Agent,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

N. B.—Cherokee Pills No. 2 are prepared for *special cases,* when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S

REJUVENATING ELIXIR,

Or, Essence of Life,

Cures *General Debility, Weakness, Nervous Headaches, Palpitation of the Heart and all Nervous Diseases.* It renews new life and vigor to the aged, causing the hot blood of youth to course the veins, removing *Impotency and Sterility, restoring Manliness and full vigor,* thus proving a *perfect "Elixir of Love,"* removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to flow with joy and pleasure.

"As the Phœnix rises from the ashes, so shall the Invalid rise from the fire, animated with new life."

Price, one bottle $2; three bottles $5; sent by express to any address.

These medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive the customer by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist has not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y

CURIOUS AFFAIR.—Last September two domestics of a lady in Providence were tried and acquitted for stealing silver plate. On Monday evening, the Press says, as Mr. William M. Clarke, Cashier of the Bank of Rhode Island, was going upon Easton's Pond for the purpose of skating, he discovered the handle of a silver coffee-pot protruding from the ice. He drew out the coffee pot and several other pieces, which it subsequently proved were in a bag together, and then came into the city and gave information of his discovery. Parties went to the pond and got out the rest of the silver, which proved to be the lot stolen.

— A statement is made, derived from an official source, that during the Mexican war the loss by the paymasters in the army amounted to $7000, while during the war with Great Britain, when as much more was expended as in the Mexican war, the loss through paymasters was $2,000,000; and during the rebellion, although the disbursements amounted to $1,028,000,000, the loss will be less than $500,000.

— On Thursday last, Mr. Joseph Martin of Naples, Me., while returning home from a visit, got out of the sleigh to walk up a hill. Before reaching the top of the hill he complained of his head, and got into the sleigh. In a few moments he pitched forward and expired. He was about 58 years of age.

— "It is well to leave something for those who come after us," as the gentleman said who threw a barrel in the way of a constable who was chasing him.

— The Methodist Episcopal Church is making rapid progress in the former Slave States. In Louisiana and Texas, more than 20,000 colored Methodists have broken off their connection with the Southern Methodist Church and joined the Northern Church.

— A traveller stopping at a Western hotel exclaimed in the morning to the waiter: "What are you about, you black rascal? You have roused me twice from my sleep, telling me breakfast is ready, and now you are attempting to strip off the bed clothes." "Why," replied Pompey, "if you isn't gwine to git up, I must have the sheet, any how, cause dey's waitin' for de table cloff."

UNPOPULAR SOLDIERS.—Private Pique and Corporal Punishment.

LIGHT LITERATURE.—The books of a gas company

— The difference between a soldier and a servant is, that the latter goes out to service, the former goes into it.

— A Richmond paper says there are large amounts of vacant lands within thirty miles of that city, now offered for sale at prices ranging from five to one hundred dollars per acre. Many of these tracts are highly productive and convenient to market.

— An elderly and good-natured spinster, on being rallied as to her "single blessedness," said, "I never yet have lost heart, because I have always kept in constant remembrance the fact that Noah, the daughter of Enoch, was five hundred and eighty years old when she got married.

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and productive, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a great fruit country. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a generous plan of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, *New Jersey.*
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairie.* 21—dawôn

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients of these remedies.
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged, they will prove most invaluable, as a ready, specific, and sterling medicine. If there is a dream realized, that Ponce-de-Leon sought for some hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth perpetual.
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.
These Famous Remedies
Cannot stay the flight of years, but they can force back, and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate when they have the opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disorder are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal the surface, but penetrates with the most searching effects to the very root of the evil.
DR. MAGGIEL'S PILLS
Invariably Cure the Following Diseases:
Asthma, Bowel Complaints, Cough, Colds, Chest Diseases, Costiveness, Dyspepsia, Liver Complaint, Dropsy, Debility, Fever and Ague, Female Complaints, Headache, Indigestion, Influenza, Inflammation, Inward Weakness
Liver Complaint, Lowness of Spirits, Ringworm, Rheumatism, Salt Rheum, Scalds, Skin Diseases
☞ **Notice.**—None genuine without the engraved trade mark around each pot or box, signed by DR. J. MAGGIEL, 22 Felton st., New York, to counterfeit which is felony.
☞ Sold by all respectable Dealers in Medicines throughout the United States and Canada at 25 cents per box or pot. deel—eodawly

Morning Chronicle.

Portsmouth, N. H.

MONDAY, JANUARY 22, 1866.

☞ The Secretary of War has approved the findings and sentence in the case of First Lieut. Thomas Kief, 4th Mass. Cavalry, who was recently tried at Richmond, Va. Lieut. Kief was found guilty of murder in the second degree, in wilfully and maliciously killing Dr. George Martin, a citizen of Albemarle county, Va., by shooting him through the head with a revolver. He was sentenced to forfeit all the pay or emoluments due, or that may hereafter be due him, and to be confined in the State Prison at Concord, N. H., for ten years.

☞ About 800,000 tons of American shipping were transferred (many of them nominally) to the British flag, to escape U. S. tax and war insurance. Latterly some of the owners wish to get U. S. registers for these same vessels, and to have an old law of 1792 *repealed*, that they may do so. Congress asks Sec. McCulloch whether it is best to comply, and he he says—No; better let it be as it is.

☞ The Biddeford Journal says, a Mrs. Staples, living on the Kennebunk road, was burned on Monday last by her cloths taking fire from a pipe in her pocket so that she died from the effects in nine hours.

A GREAT MISTAKE—CORRECTED.—The House of Representatives lately sent to Sec. McCulloch a communication from Mr. Easton, U. S. Consul at Cork, presenting the outline of a plan to encourage and stimulate the building of ships, in which he assumes the loss of our commercial marine in the past five years to be four million tons, the total of American tonnage being stated in round numbers at 5,000,000 before the war.

Sec. McC., in reply, says it was ascertained by diligent inquiry, that shipping to the amount of but 901,466 tons has actually disappeared from our lists from all causes; 800,303 tons were transferred to foreign owners and 110,163 tons destroyed by pirates, being less than one-fifth instead of four-fifths. [This alters the case materially, 1-5 instead of 4 5,—and an actual loss of 2 per cent.]

WASHINGTON ITEMS, Jan. 20.—Ex-Gov. Aiken of South Carolina has just arrived here, and gives an unfavorable report of the condition of the freedmen in that State. He declares that they will not work since the new year commenced.

Advices received at the Freedmen's Bureau from Texas, state that the freedmen are generally leaving there and returning to their old homes in Louisiana.

The President has ordered that no more applications for pardon be laid before him.

The trial of Semmes is again postponed.

The World's correspondent says, on the Suffrage Bill:

"As the roll call proceeded, Hale of New York, Kasson of Iowa, and others, who have advocated qualified negro suffrage, voted squarely for the pending bill. Raymond was standing in one of the alleys when his name was called, and there was a little disposition to applaud when this penitent member came home to the radical fold by voting for the bill. A benignant smile seemed to pass at that moment over old Thad. Stevens' face, and so the work went on."

LONDON ITEMS.—The fire at St. Catherine's dock, London, was one of the most destructive for years. The official estimate of the damage is not yet known, but the latest unofficial estimates run as high as four hundred thousand pounds sterling.—There is little doubt that it was incendiary.

The Star says the Colonial office leave the Jamaica Inquiry Commissioners quite free to conduct the inquiry in their own way.

Crewe Hall, the residence of Lord Crewe, and one of the finest Elizabethian buildings in England, has been destroyed by fire. The loss is estimated at £120,000 sterling.

The alliance between France and Austria is spoken of.

The Pope received the congratulations of the French army at Rome on the 1st inst. He returned thanks, saying it would probably be the last time he could bestow his blessings upon them. He feared the enemies of the church would go to Rome after the departure of the French troops.

The London Times anticipates that by next January the Emperor Napoleon will have withdrawn all the troops from Mexico and from Rome.

The Times' city article says: "Few persons now doubt that the main cause of the condition of our money market is to be found in series of unlimited consignments of goods upon credit to America. We get no proportionate returns in bullion, cotton, wheat or other produce, the receipts being far below instead of above the usual quantities."

— A Washington dispatch says the authorities are investigating the cause of fires in several buildings occupied by colored persons. It is thought to be the work of a few rebel sympathizers.

Correspondence of the Chronicle.

WASHINGTON, D. C., January 18.

Messrs. Editor—Yesterday in the Senate Mr. Doolittle of Wisconsin, took advantage of the opportunity afforded by the consideration of the resolutions recently offered by his colleague, Mr. Howe, in support of the "territorial" theory, and pronounced a very able and unanswerable argument in support of the President's course. I shall do myself the pleasure to send it to you when it appears, in full, in print. Mr. Doolittle is a Republican of unquestioned orthodoxy, and his speech is accepted by the conservative branch of the party as a satisfactory exposition of their views.

It was so regarded by all parties and the most profound attention was paid to the gentleman while delivering it. I hope it may do good, if in no other way, at least by indicating the President from the charge of going over to the Democrats. He cannot surely be blamed, if the Democrats came over to him.

Mr. Stevens has proposed a relaxation of the test oath in favor of lawyers desiring to practice in the Southern courts, which is accepted as an intimation of a general yielding disposition on his part, but I shall be much surprised if it so results.

Nevertheless the same reason that would justify indulgence in one case cannot be denied in others. It is urged by many, not famous for sympathy with Southerners, that not only christianity and every consideration of philanthropy, charity and mercy, but a sound statesmanship and true policy, demand are taxation of these tests in all cases where it can safely be done. It has been found already next to impossible to carry on the operations of the Post Office and Treasury Departments throughout the South, on account of the inability of almost every resident of the rebellious States to subscribe in its fullness the oath required of them. The action of Mr. Stevens in this matter, is therefore received with unusual interest, as the earnest of further amendment in this regard.

For myself, although I am unwilling to be hasty in granting the highest political rights to those who have been so recently our deadly enemies, whose hostility cannot have been quite forgotten in so short a time, yet I am willing to entertain toward them a merciful, forgiving spirit and evince the same by relieving them from every restraint not absolutely necessary to our safety.

There is no doubt that some of them are inclined to oppress the negro, but there are at the same time notable examples, of a different spirit.

The negroes themselves must be likewise restrained. They have in some regions imbibed notions subversive of all government, of which it is our duty to disabuse them. The Freedmen's bureau is capable of much good in this connection, and in many districts has answered every expectation.

General Howard who has it in charge, is a *gentleman*, emphatically, and one, too, of comprehensive views, genuine patriotism and true christian principles. There could be no better man in that place. Some of his subordinates, though I am glad to be able to say they are few, have been apparently actuated by far other motives.

In South Carolina, as I am informed, from undoubted authority, the freedmen have, by a systematic course of instruction, been brought to believe the most preposterous stories regarding the intended disposition of property there. They believe the former owners are to be utterly dispossessed, and the lands apportioned to the negroes, once their slaves.

Within my own knowledge, a gentleman of high respectability, whom I well knew to have been always a kind master in the days of slavery, was not long since assaulted and his life threatened by the negroes attached to his plantation, merely for daring to appear on the ground. So threatening was their aspect that the military were compelled to interfere. Since that time General Saxton has been relieved from the control of the Bureau in that State, and General R. K. Scott assigned in his stead.

I mention this, to show what incalculable mischief can be done by careless and unprincipled men, and the necessity we are under, to extend to the freedmen a kind but vigorous restraint, at the same time that we afford them suitable instruction, and disabuse them of their exalted notions of their "rights" as freemen.

We are laboring under an appalling responsibility in relation to these people, thrown upon our hands in the ignorance of childhood, and crazed by the magnitude of the change in their condition. It is natural that they should fly to the extreme of freedom, and imagined themselves emancipated from every restraint.

Great is the depravity, and fearful the responsibility of those who encourage in them such a creed, and mould their passions to suit their own avaricious ends. E.

THE PHILADELPHIA HOME WEEKLY.—One of the cheapest weekly newspapers, taking into account the quantity and character of its contents, is the Philadelphia Home Weekly, published at $2 a year in advance, by George W. Childs, the well-known proprietor and publisher of the Daily Ledger. At the beginning of the present year he has paid fifteen hundred dollars for prize stories alone, the publication of which has just been commenced. In addition to these he has already purchased contributions for the forth-coming numbers from the pens of N. P. Willis, H. T. Tuckerman, Bayard Taylor, J. Foster Kirk, George H. Boker, Julia Ward Howe, Mrs. Mowatt Richie, Alice Cary, Harriet E. Prescott, Grace Greenwood, and many more writers of distinction, embracing some of the best writers for Harper's Magazine and the Atlantic Monthly. The publisher of the Home Weekly having almost unbounded means at his disposal, seems resolved to make it not only the cheapest but the best literary and family newspaper in the country. The numbers already issued for the new volume show that in bold and judicious expenditures for this end Mr. Childs has already surpassed all his competitors.

☞ From A. Williams & Co., Boston, we have the Bank Guide, a handy book of reference for business men—giving a date of the surrender of charters of State Banks, in New England and New Jersey, and expiration of time of liability to redeem.

NEW JERSEY REVIEW is the title of a new independent monthly journal, published at Newark, by E. N. Fuller, formerly of this city, at $1 per year.

THE BOUDOIR, a lady's newspaper, published by J. Swinton, New York, at $5 per annum, gives the ladies fresh fashions weekly, with illustrations and literature to match.

OUR YOUNG FOLKS is received from Messrs. Ticknor & Fields. The illustrations alone are worth the price of the book.

—— The Laconia Democrat says, "Our mills and business men are embarrassed and troubled for the want of water, it being lower now than at any time during the past dry season. We understand that the Lake is but two inches higher now than at the lowest point last summer."

☞ At Pittsburg, Pa., Jan. 19, Martha Grinder, the poisoner, was executed. She made a confession admitting the murder of Mary C. Carruthers and Jane H. Buchanan, but denied the other charge of poisoning brought against her.

☞ A Washington dispatch of Saturday says telegrams from Gen. Sheridan at New Orleans disavow all knowledge on his part of the fillibustering attack on Bagdad and state that his orders to subordinate officers have been to preserve strict neutrality. He disbelieves the popular account of the affair and considers it a sensational story.

— Herrick Allen's Gold Medal Saleratus is cleansed of every impurity, and so arranged and combined that all unhealthy and injurious properties are stricken out, while carbonic acid, the only active property remaining, is held in check until set free, thus evolving a gas by means of which Bread is raised, and each acid thus destroyed, which makes it suitable for the most delicate or dyspeptic stomach. Try one paper, and you never will have any other. Grocers and Druggists keep it. 39

— The Kansas State Senate passed resolutions favoring the trial, conviction and hanging of Jeff. Davis and other leaders of the rebellion equally guilty of treason.

— The Plymouth Sentinel of the 12th inst. reports that during the intense cold weather large numbers of the fish inhabiting the waters of Cape Cod perished from the cold, myriads of them, consisting of sea bass, black fish, lobsters, &c., washed ashore in that locality, strewing the coast for miles around with their frozen carcases.

—A Mrs. Hickey of South Hadley Falls, Mass., whose husband is in jail, lately locked her three children, the eldest only four years old, in a room while she crossed the river to Holyoke. On her return, the room was filled with smoke, and the eldest child dead, all her clothing except her shoes being burned off. The other children were not burned, but were nearly suffocated by the smoke.

— At Paris, Ill., on Tuesday of last week, while Mrs. Alexander, the aged widow of Gen. M. K. Alexander, one of the early pioneers of Edgar county, was dying, the widow of Isaac Sanford, also one of the early pioneers, came into the room and fell down dead, Mrs. Alexander expiring almost at the same moment. This coincidence is rendered more remarkable from the fact that at precisely the same time the two widows died, a young couple were being joined in wedlock in an adjoining house.

—DEALERS IN—

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It pumps in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

ISRAEL MARDEN & CO.,

39 Congress Street.

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

THE SECRET SERVICE, THE FIELD, THE DUNGEON, AND THE ESCAPE.

By ALBERT D. RICHARDSON,

N. Y. Tribune Correspondent.

1,000 COPIES SELLING PER DAY!

The most interesting and exciting book ever published, embracing Mr. Richardson's unparalleled experience for four years Travelling through the South in the secret service of The Tribune at the outbreak of the war, with our armies and fleets, both East and West, during the first two years of the Rebellion; his thrilling capture; his confinement for twenty months in seven different Rebel prisons; his escape, and almost miraculous journey by night of nearly 400 miles. It abounds in stirring events, and contains more of the fact, incident and romance of the war than any other work yet published.—Horace Greeley says of it:

"A great many books will yet be written concerning this war, in addition to the many already in print, but not one of them will give, within a similar compass, a clearer, fuller, more readable account, entirely from personal observation, of the nature, animus, purposes, tendencies, and instrumentalities of the Slaveholders' Rebellion. Nay, does the unpretending narrative of Mr. Richardson."

Teachers, ladies, energetic young men, and especially returned and disabled officers and soldiers, in want of profitable employment, will find it particularly adapted to their condition.—Send for Circulars. Address

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Electrum. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female Remedy, and are considered by all who know much of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 40 Bond street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

DR. T. ALLCOCK,—*Sir;* I have been suffering under a severe attack of *nervous disease* of my bowels for years, with *hypertrophy of the heart* and have tried everything known to the practice of medicine from the very best M. D.'s; but truth prompts me to say that your plasters have given me more permanent relief than anything else I have used, and I believe will produce a perfect cure.

The counter-irritant effect of your plasters is produced in such a mild and gradual way, they so invigorate the circulation around the parts to which they are applied, and exert upon all nervous diseases such a great sedative influence, that I place them confidently at the head of every plaster now in use. A SAD END.—The death of Samuel Staples on Friday gave rise to many stories, some of which bore hard upon the keeper of one of the dram-shops so numerous in our city. But the evidence elicited by a coroner's inquest, held the same day, (Judge Bufford, presiding) failed to show any proof of foul play. From that testimony it seems that Staples, with a party of boon companions, was drinking freely at various shops on Monday evening the 15th inst., till a late hour. Between 11 and 12 o'clock the party entered the place kept by John Grimshaw, on Bridge street. While there Staples essayed to enter the private sitting-room of Grimshaw, to do which he would be compelled to ascend two steps from the bar-room. While in this act he was thrust back by Grimshaw, and in his intoxicated condition fell backward upon the floor. His friends (?) after having a quarrel among themselves, during which they stumbled heavily over the prostrate body, left him in that position and departed.

Grimshaw states that, wishing to close his house, he succeeded by severe shaking in sufficiently arousing Staples to get him started out from his premises, and heard no more of him until about 7 o'clock on Tuesday morning, when Staples came in, in a pitiable condition, desiring to warm himself, saying that he had been unable to find his way home and had wandered about all night. In his back-yard, Grimshaw found tracks in the new-fallen snow where the unfortunate man had plodded wearily around, and also signs of his having lain his exhausted body down, with no bed but the pure, cold snow, while the driving storm beat pitilessly down upon him from the heavens, his only canopy.

Reaching his home, Staples died on Friday, and, after taking the testimony to be procured in the case, including that of the attending physician, the verdict of the jury was that the deceased came to his death "from inflammation of the bowels and bladder, caused by exposure in consequence of intemperance." Mr. Staples was about 30 years of age, married, and had one child.

"A WORD TO THE WISE."—Much complaint has been made in regard to coasting upon the sidewalk in Hanover street, in contravention of the city ordinance. Ladies are rudely hustled from the sidewalk by noisy boys, and the limbs of pedestrians seriously endangered. Parents who have no desire to disburse a fine in the Police Court should see that their boys do not infringe upon the ordinance, as some of the parsers will see that that the law is enforced, if our police force is not large enough to be everywhere at once.

The street sign at the corner of Daniel street and Market Square hangs by one end, having a look of neglect which we hope to see removed.

☞ The Commercial Bulletin has the following items of local interest:

The Portsmouth Steam Factory is in only partial operation at present, employing 200 hands in the manufacture of cotton yarns. There is considerable difficulty in obtaining suitable help, but it is believed that this obstacle will be overcome during the coming Spring, when between 400 and 500 hands will be employed. The contemplated enlargement of the factory is abandoned for the present, but its name is soon to be changed. Capital stock of new corporation $600,000, all paid in, of which $550,000 is held by Boston capitalists.

Thomas S. Nowell, of Portsmouth, has doubled his facilities for shoe manufacturing, and will shortly give work to about 200 hands, in the production of men's and women's Congress, Polish and Balmoral boots. There is prospect that an extensive manufactory of men's thick boots will be also started there.

U. S. COMMISSIONER'S COURT.—Portland, Saturday.—Augustus Zara and Edward Fenton who keeps a bar-room and a sort of boarding house at Kittery, though not belonging in that place, were brought before the Commissioner yesterday, charged with aiding, counselling and abetting Daniel Sanborn in the larceny of articles from the Navy Yard. Sanborn was before the Commissioner a day or two since, and his examination was continued to Monday next He was charged with larceny of a quantity of copper from the yard.

Sanborn was the principal witness against Zara and Fenton, and he testified that the prisoners took the property and disposed of it and offered to dispose of all the copper that he would steal at the Navy Yard and divide the proceeds with him.

No evidence appearing to implicate Zara in the affair, he was discharged. Court adjourned until Saturday morning, when the evidence for the defendant was put in. The trial resulted in the Commissioner's holding Fenton in the sum of $500 to appear at the February term of the U. S. Court at Portland. We are not aware whether he furnished bonds or not.

POLICE COURT, Jan. 20.—James Donnelly, who seems to have been on a compound drunk—drunk way through—was fined $3, and $3.86 costs, which he paid.

Thos. Gannon, another votary of Bacchus, was mulcted in the sum of $7.80—$3 fine; $4.80 costs.

SUDDEN DEATH.—On Saturday evening, a little son of Mr. W. B. Wait, aged about ten years, fell in State street, near the Plumer bakery, and expired in about five minutes.

☞ By reference to our marine chronicle, it will be seen that Capt. Jas. H. Salter of this city has met with a disaster.

☞ "Fallen Women" are becoming quite common on the streets in these days of slippery sidewalks.

☞ In the Board of Aldermen, on Thursday evening, a resolution was passed that any of the out-pensioners of the city who desire their aid in money instead of orders, can have the same on making application to the Overseers of the Poor.

☞ The U. S. House of Representatives, on Friday, in Commitee of the Whole, struck out from the Naval Bill an appropriation of $100,000 for the purchase of Seavey's Island for the Portsmouth Navy Yard.

— The N. Y. Herald's Paris letter says the Emperor and Cabinet are carefully studying the means of withdrawing from Mexico honorably and with as little loss of prestige as possible. The Emperor desires it to be done of his own free will and not under menace.

— A dispatch from Norwich, Ct., states that a man named John Daily entered the gas house of the Norwich Bleaching Company, at Greenville, with a lighted lantern, Thursday evening, whereupon instantaneous explosion occurred, killing Daily, and blowing the building to atoms.

— A Madrid letter in the *Temps* states that M. Monturiol, a Spaniard, has solved the problem of submarine steam navigation, by the invention of a vessel which can remain for hours at a considerable depth, can discharge cannons from below, and even act as a ram for piercing the hulls of ironclads.

COTTON PLANTATIONS FOR SALE.

We have for sale and ready for immediate occupancy some of the best cotton plantations in the very best cotton growing region of the south, with beautiful dwellings and all the buildings and machinery for cotton cultivation complete, and many with the laborers ready for work. They will be sold with perfect titles for less than it cost to clear the land or erect the buildings.

Any of these plantations will pay for themselves and all expenses by a single crop, and must double in value within a year. To raise a crop the coming year, operations must be begun in January. To facilitate investments at once the company are prepared to purchase, manage and cultivate plantations for Northern owners without any charge to the purchaser, the expenses being paid from the net profits.

We also are prepared to negotiate for advances for growing cotton, giving a bottom mortgage with perfect title upon the entire plantation to secure the principal, and giving one-third net crop for the use of the money—the plantations being run under the supervision of our own agents, and cotton shipped to our order. These advances can be deposited with our agency in New York or Boston, and will be paid at maturity at the same place without expense.

Cotton at present prices will pay from 2 to 300 per cent on these investments, amply secured and perfectly safe.

We assure Northern men of perfect security in their persons and property in localities where such purchases and investments may be made by us.

We believe no more favorable opportunity for investment for Northern men ever presented itself, and at the same time it will supply the necessities of the freedmen by furnishing them with remunerative employment, and will help inaugurate the experiment of free labor in the cotton fields of the south under Northern auspices

Mortgages negotiated upon plantations for which 20 per cent. interest per annum will be paid absolutely, or one-third the net crop of cotton raised.

An agent of the Company will leave for the South on the 15th of January to make investments and attend to the selection and purchase of plantations; until which time he can be addressed at the office of the New England Agency, No. 46 Washington St., Boston, Mass.

Send for lists of plantations and prices, in any desired locality. Send for circulars. Call for letters of introduction to our agents in all parts of the South

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, sore Nose, Tender shin Bones, Cutaneous Eruptions, Blotches, Gleets, Discharges, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the married state, are bounded that in consulting Dr. J. Teller, they will find a competent counsel and a Physician who has cured thousands, a almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for every body.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Help, by a lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Nichols's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married females in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of parties. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

SENATORIAL CONVENTION.

On Wednesday, 17th inst., the Senatorial Convention for District No. 1, met at the Court House in this city, in accordance with a notice previously given, and was organized as follows:

Ira Hazelton of Portsmouth, *President.*
J. T. Walker of Rye, *Vice President.*
Benj. D. Leighton of Strafham, *Secretary.*

Hon. DARIUS FRINK of Newington, was unanimously nominated for re-election as Senator from District No. 1.

Upon being introduced, Mr. Frink addressed the Convention in an happy, able and concise speech, congratulatory of the present state of the country, and enumerating the benefits which have fallen to our land by the triumphant success of our arms against the rebellious South, the course we should take in re-constructing the Union, our duties as citizens, the duties of Legislators; the policy of the Senate of New Hampshire in relation to taxation for the payment of the State debt; and finally, accepting the nomination.

His remarks elicited frequent applause, having the true ring, coming directly to the point, and completely defining his position.

REPUBLICAN COUNCILLOR CONVENTION.

The Republican Convention for the first Councillor District, was held at Newmarket, on Tuesday, January 16, 1866, and was called to order at 11 o'clock A. M., by Hon. John H. Bailey of Portsmouth, a member of the State Central Committee.

On motion of Wm. H. Hackett, Esq., of Portsmouth, it was voted that a committee of five be appointed by the Chairman to report a list of officers for the permanent organization of the Convention.

The Chairman appointed as said Committee the following named gentlemen: Messrs. Hackett of Portsmouth, Odlin of Concord, Lawrence of Epping, Conner of Exeter, and Chapman of Newmarket.

On motion of John H. Cheever, Esq. of Portsmouth, it was voted that a Committee of three be appointed by the Chairman as committee on credentials.

The Chairman appointed as said Committee Messrs. Cheever of Portsmouth, Abbott of Concord and Haley of Newmarket.

The Committee on permanent organization reported the following list of officers, viz: President, Hon. Peter Sanborn of Concord; Vice President, Samuel Neal of South Newmarket, and John Rowe of Candia; Secretaries, Joseph S. Abbott, 2d, of Concord, and George W. Marston of Portsmouth.

Mr. Sanborn on being escorted to the Chair made an earnest and enthusiastic speech, declaring that no better man, as a man, or as a Councillor lives in the State of New Hampshire than HORTON D. WALKER, and no man in the State is better fitted for Governor than FREDERICK SMYTH. (Applause.)

The Committee on Credentials reported that 45 delegates were present duly accredit to take part in the proceedings.

On motion of Hon. W. W. Odlin of Concord, Hon. HORTON D. WALKER of Portsmouth, was unanimously re-nominated as candidate for Councillor, all the members of the Committee rising.

In the absence of any Committee on Resolutions, Wm. H. Hackett, Esq., of Portsmouth, presented the following resolution, which was passed without a dissenting vote:

Resolved, That the nomination of Hon. FREDERICK SMYTH for re-election to the office of Governor, meets our most hearty approval, and we will use all honorable efforts to secure his re-election, as well as that of our candidate for Councillor, Hon. HORTON D. WALKER, this day unanimously nominated.

On motion of Wm. H. Bunting, Esq., of Concord, the Convention adjourned *sine die.*

THE METHODISTS.

The Centenary celebration of the foundation of the Christian sect, the METHODISTS, is to be celebrated in October next. The first Sermon was preached in New York, in what was then called "Horse-and-cart-Lane," now Williams Street. Phillip Emery, a young man, a first class leader, had previously arrived, with a few other Methodists, from Ireland. The small company are represented to have "buried their talent," when one evening, while engaged in cards, and other innocent diversions, a woman, Barbary Hesk, rushed into the room, with "Tll burn your idols," and catching up the cards, she threw them into the fire, and said "Brother Emery, you must preach to us, or we shall all go to hell, and God will require our blood at your hands!" This alarmed Emery, and he at once opened his own house, a one storied cottage, and commenced preaching. The first church was erected in John's Street in 1768. Wesley, (Arminian) was the Father of Methodism,—a name first given in derision from the methodical manner in which the new sect was conducted. Whitefield, (Calvinistic,) for a time having joined them, made a great impression; but the sect is now almost universally Wesleyan.

The Methodists are the largest, with the greatest, resources, of any Christian sect in the U. States. They have Bishops, Millionaires and Merchant princes—their church property 30 millions, 18,400 Sunday Schools, 3 millions in Colleges and other Seminaries, 2,500,000 in Library, 7,300 itinerant preachers, and 3000 local ministers; 10,000 churches, &c. Their Book Concern has a capital of $887,000. They propose to raise *two millions* this year, for special purposes. Daniel Drew, of the city of New York, has subscribed $250,000, besides which he proposes to erect on his splendid estate on the Hudson, a Theological Seminary to cost *half a million.*

A Methodist is a Methodist everywhere. Their doctrines are positive, and their *rules* as positive.

SNOW PLOWS.—We were pleased to see the plows prepared by Dr. Baker were used by the city on Wednesday last. We think in snows of three or more inches deep they are very convenient path makers. A letter from the City Clerk of Dover states that snow plows have been in use in that city for the last fifteen years, and he had never heard of any serious complaint of their use, except that occasionally a careless driver may injure a fence or a tree.

THE MIDDLE ST. BAPTIST SOCIETY.—The annual meeting held this week makes a good exhibition of its affairs financial and otherwise. The Treasurer, Hon. H. D. Walker, reports all bills against the Society promptly paid, and no debt or note outstanding. A contemplated plan of remodeling the interior of the Church edifice was discussed, and the project rather favorably entertained.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen.

I am a resident of Curacoa, and have often been displosed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabialis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUEZ,
Merchant, Curacoa, S. A,

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rhematic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

A HOUSEHOLD BLESSING!

HOWE'S SEWING MACHINE!

The Best Machine in the Market!

The people of Portsmouth and vicinity are respectfully informed that I have taken the Agency of the above beautiful Sewing Machine, and am now prepared to promptly supply the same, either by wholesale or the single machine.

☞ *No Family can afford to be without one of these vast Labor-Savers.* ☜

Why is this the best Sewing Machine ever invented? Because—

1ST. It is better made than any other.
2D. It runs with less noise.
3D. It is much less liable to get out of order
4TH. No other Machine works so small a needle.
5TH. It is the cheapest Machine, because the best.
6TH. It has improvements over every other Machine.

The better the work performed, the better the price obtained; hence that Machine which produces the best work is the most profitable.

FOR FAMILIES,
MERCHANT TAILORS,
BOOT AND SHOE
MANUFACTURERS,

The Howe Machine Stands Unrivaled.

☞ Every Machine will be kept in order ONE YEAR WITHOUT EXPENSE TO THE PURCHASER.

Many Ladies earn from $1.50 to $2.00 per day in running these Machines.

Wives and Mothers! Buy HOWE'S FAMILY SEWING MACHINE, and you will then be able to refute the assertion that "*Woman's work is never done.*"

Please call and see this superb Machine in operation at the Shoe Manufactory of

To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to feel healthy and happy.

"As the Phenix rises from the ashes of its decay, animated with new life"—so does this Elixir renovate the system and full vigor, thus proving a *enormous blessing.* It is perfect in removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to feel healthy and happy.

Price, one bottle $2; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

WOOD THIRTY YEARS AGO.—Under this head the Concord Statesman makes the following statements, showing the relative prices of newspapers, wood and food:

A resident of Fisherville, transacting business at the desk of the Statesman office a few days since, says that on a time when there was rather a glut in the wood-market of this city, he sold a cord for $1.25, and that was only 25 cents below the usual price for first-class fuel. It was then customary to pay a cord of wood ($1 50) for the Statesman a year, the terms of which were "$1.50 in advance, or $2 if delayed to the end of the year." Afterwards wood reached the price of $2 a cord, at which figure it remained many years, varying a trifle, according to quality. This circumstance is abundantly ample to prove that newspapers, as is often stated by their publishers, are furnished at prices nearer those of thirty years since, than other commodities deemed necessaries of life—for newspapers are now deemed indispensable.

In our intercourse with people we find that most of them make no complaint of increased prices where there appears sufficient cause. There is not a newspaper publisher in New England who would not gladly return to old prices, if farmers and all other people did likewise. How would our agricultural friends like to dispose of wood for $1.50 a cord, sled length; butter at 17c; poultry at 5 to 8c, and other products in proportion?

— The papers announce that "the great Barnum is at present in Paris, on the lookout for the marvels of the age."

— A little girl at Kenosha, Wis., whom some of her mates put into a bag and rolled about just for fun, was killed by the operation.

— It is vain to put your finger in the water, and, pulling it out, look for a hole; and equally vain to suppose that however large a space you occupy, the world will miss you when you die.

— George Francis Train has bought four hundred and thirty-four acres of forest land in Omaha, Nebraska, for $75,000, for his Cottage Company and for a Central Park. George says Omaha is destined to be one of the great cities of the continent.

— The Press of Vienna states that a letter was found a few days ago in one of the post office boxes, addressed to "The Infant Jesus in Heaven, to be given to St. Peter." It contained the prayer of a child to have a great many presents at Chrismas.

— The Scranton Register says that coal in the bed is valued at twenty-five cents per ton, that it costs eighty cents to mine it, and eighty more to prepare it for market—a total of one dollar and eighty-five cents. All that is charged above that is to be placed to the account of transportation and the profit of agents.

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and productive, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c, produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* nl—dawtu

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the Aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth.
For in every case they impart new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.
These Famous Remedies
Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged frame of living. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitant of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest child.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.
DR. MAGGIEL'S PILLS
Invariably Cure the Following Diseases:
Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, JANUARY 23, 1866.

The New Hampshire Gazette says that the Herald of Gospel Liberty is an older "religious newspaper than the Boston Recorder, the first number having been published in 1808. It may be a news paper now, but was it when it was first started? Was it not morelike a circular? Show us your first numbers.—*Recorder.*

The Herald was a religious newspaper from the first, as we very well remember, tho' we cannot show the *first* numbers. It contained religious intelligence, discussion and controversy. It was sarcastic, aggressive, and sometimes bitter: and while it claimed the name Christian, was as really sectarian as any paper can be to-day. It was not like a Circular, nor was it like the Recorder; for its editor aimed to pull down the same denomination which Br. Willis of the Recorder desired to build up. It was a small sheet, mostly filled with new matter from MS. copy. The Herald of to-day is a great improvement upon that of fifty odd years ago; yet it is only a continuation of it, with more wisdom added by experience.

STILL VENOMOUS.—Referring to the passage of the bill for unqualified negro suffrage in the District of Columbia, the Boston Herald's Washington correspondence, under date of 19th inst., says:

There is no seeming abatement in the opposition of the people here to this proposed suffrage. It is hard to say what will result from it. Already the hand of the incendiary has been busy among the humble houses of the negroes, while last night one of their churches was fired. Crime and bloodshed are threatened on every hand should the negroes vote. Coupled with this are all kinds of threats of assassination. Senator Sumner received one to-day warning him of a plot to take his life and six other Senators on February 8th. A mischievous and dangerous, but unknown element, is certainly at work. The Chaplain in the House to-day prayed that the hand of the assassin might not be uplifted again in Washington.

This shows the more need of just such a law; and also shows that it would be suicidal folly to restore such a nest of copperheads to power.

☞ In a recent address to the freedmen of Davison county, Tenn., Gov. Brownlow counseled them to attend school and learn to read, and to be mild and temperate toward the white people. He also advised the teachers to be exceedingly prudent and cautious, and do nothing offensive to the dominant party, adding:

"You may think it a little strange that I give such counsel. I do it because if Gen. Thomas were to take away his soldiers and pull up stakes and leave here, you would not be allowed to occupy this school room a week; and if Gen. Thomas and his military forces were to go away and leave us, this Legislature, at the head of which I am placed, would be broken up by a mob in forty-eight hours."

This does not present a very promising view of speedy re-construction:—nor does it look as if our military force ought to be withdrawn at present.

THE WEATHER.—At Louisville, Ky., Saturday afternoon, the weather was very warm. At night the mercury fell from 60 to 19 degrees. Soon after midnight a heavy storm of wind and rain, accompanied with thunder and lightning, set in.

Near Nashville, Tenn., a severe gale Sunday night blew down several houses in Edgefield. Both snow and rain fell in large quantities. The mercury fell to 3 below zero. Snow fell an inch and a half in depth.

The storm on Friday night was very severe in the neighborhood of Cincinnati, Ohio. At Lexington, Ky., trees were torn up, fences prostrated and chimneys overthrown.

☞ A Washington dispatch says the French Minister made a demand upon the State Department for information relative to the recent capture of Bagdad by Yankee fillibusters.

No official information relative thereto had been received at the Department, consequently M. De Montholon could not be gratified. Instructions were transmitted to Gen. Sheridan, immediately on the receipt of intelligence of the affair, requiring him to make investigation and punish the offenders.

Another dispatch says orders have been sent by the War Department to our military commanders on the Rio Grande to stop interference with affairs on the Mexican side and stop all fillibustering expeditions.

☞ Fortress Monroe correspondence says the removal of Lieut. Col. Boyler from the ordnance department at Fortress Monroe, by the Secretary of War, is attributed to the fact of his employment of so many ex-rebel soldiers. It is believed that this explanation will be satisfactory.

It is stated that great injustice has been done to several individuals by the peremptory order removing all Southerners from Fortress Monroe, as they have been Union soldiers.

— The population of Paris is 1,667,841.

Correspondence of Chronicle.

PHILADELPHIA, Jan. 19.

Eds. of Chronicle:—We witnessed today one of those scenes saddening to contemplate, and calculated to shake our confidence in human nature. Mrs. Martha Grinder of Pittsburgh, in this State, has for a long time past pursued a persistent course of poisoning every woman whom hospitality or chance caused to cross her threshold. She even went farther, and perverted errands of comfort to the sick to accomplishing death by the use of drugs, in a seeming infatuation and delight, which marks her a perfect Borgia in cruelty and cold-hearted murders. One victim after another fell to her cunning and malice, until it seemed that the great precept of the Bible, "Be sure your sins will find you out," was meaningless. But not so! The murderess was exposed at last, and all the imagined secrets of her heart and conduct were fully exposed. "Murder is safe nowhere," and the most intricate web ever woven by a criminal has proved merest threads of gossamer, when the attempt was made to bind the right or put a muzzle on truth. Secret wrongs never can prosper, and the assertion never found fuller verification than on the Pittsburgh scaffold to-day.

Mrs. Grinder, the executed and execrable woman, was of middle age—married—and her husband is a man of good character and habits. To him—innocent of the least suspicion concerning his wife's character and ignorant of her almost incredible wickedness—the event of to-day must be agonizing in the extreme. The last hours of the wretched woman's life were spent in his company, and their interviews were heart-rending in the extreme.

On the first of August, 1865, Mrs. Mary C. Carruthers, of Allegheny City, in this State, died under suspicious circumstances. During her illness she had been closely attended by Mrs. Grinder, her next neighbor, whose seeming kindness was unremitting. During Mrs. C.'s illness, Mrs. Grinder sent her food poisoned with antimony and arsenic in sufficient quantities, as the stomach of the exhumed victim revealed, to produce death. Mrs. Grinder had also poisoned others—among whom were the family of another neighbor—Mrs. Marguerite Smith, whose child died.

Proofs of these deliberate murders could not be set aside by any specious logic of defense, and Mrs. Grinder is the third murderess ever hung in this State. It is charitable to believe that she was a homicidal monomaniac,—so far, at least, as a passion for destroying may be called mania. That she was in possession of a sound mind when she contemplated and executed her murderous plans, no one doubts. Whether she had a malicious intent aforethought, cannot be asked. She murdered from an uncontrolled and inherent wickedness. The justice of her fate cannot be questioned. R.

A "FAT TAXE"—The Iowa Gianteas.

— In Georgia, Aaron A. Berkley, a colored preacher, sentenced to a year's imprisonment in the penitentiary for seditious language to the freedmen, has been released on parole by Sec. Stanton.

— In the Supreme Court, sitting at Newark, on Friday last, a verdict for $3000 damages was given against the New Jersey Railroad Company, the suit having been brought by James Thomas West, for injuries received at the John street crossing in 1864, and which resulted in total blindness.

— Charles Haefner, a German, at times very much depressed in spirits, committed suicide in New York a day or two since, by jumping into scalding hot beer, contained in a copper boiler, at a white beer brewery.

— A Montreal dispatch says the ice bridge over the St. Lawrence has led the Commander, Sir J. Michel, to look after the state of the forts. That at Prescott has had new guns mounted, and heavy Armstrong guns were being placed in the battery at Quebec.

— It was reported in Boston on Friday that Moses Bates of Plymouth, Mass., well known as the Chairman of the Democratic State Committee, and candidate for the office of State Auditor two years ago, recently dropped dead in the streets of New Orleans, whither he went only a short time since.

— A bachelor and a young lady bought some tickets in partnership in a lottery at recent Sanitary Fair at Milwaukee, agreeing to divide the proceeds equitably. They drew a double bedstead, baby crib and lunch basket, and the question is, how to divide them, or whether they shall not use them "jointly."

— The report current in New Orleans that Bishop Wilmer, of Alabama, was interrupted by the military while officiating at public services in that city, and forbidden to administer the right of confirmation, is pronounced by the Picayune as incorrect. The Episcopal bishops of Georgia and Mississippi have announced their abandonment of the separate Southern church organization, and their return to the ancient fold. The perfect unity of the church is likely to be thus soon restored.

NEW HAMPSHIRE ITEMS.

— A large Catholic Church is to be built in Concord.

— That lively journal, the Rochester Courier, has entered its third year. The Rochester people should be proud of having so good an editor in their Place.

— Alfred Prescott, of Gilmanton, went into his yard to separate two fighting dogs, slipped on the ice, and broke both bones of his leg above the ankle.

— Rev. Mr. Lovering, formerly of Portland, Me., and more recently a chaplain in the army, has informally received a unanimous call to the pastorate of the Unitarian Society at Concord, as the successor of Rev. J. L. Hatch.

— Maj. J. N. Caldwell, U. S. A., on the retired list, has been relieved from duty as commander of the draft rendezvous at Concord, as has Bvt. Major Alfred Norton, commissary of subsistence. Bvt. Major W. Silvey, 1st U. S. Artillery, will probably remain in command until the post is broken up, when he will leave to take command at Fort Trumbull, at New London, Ct. Capt. A. B. Thompson and Capt. C. D. Webster also remain, the latter preparing to turn over the Government property to Capt. John W. McKim, A. Q. M., of Boston.

INTERESTING TO PENSIONERS.—The House Committee on Invalid Pensions, report adversely on the petition of the widow of Major General Sumner, praying for an increase of pension from $30 to $50 per month. The Committee could not consent to an increase of pension to those who were already receiving $30 per month, while so many poor widows of common soldiers are receiving only $8.

The same committee also made an adverse report on the petition of Mary McLain. The petitioner set forth that Capt. McLain while he was commissioned only as a Captain was at the time of his death rating in the capacity of Lieut. Col., and prays that the widow may receive a pension corresponding to the position in which he was acting at his death. The report states that during the war many officers were killed or wounded while exercising a higher command than that for which they were commissioned and mustered, and that the Committee is opposed to granting pensions for a higher rank than that for which the officer was actually commissioned. As there was no opposition to the report in the House, it is supposed all similar cases before the Committee will be disposed of in the same way.

LIBEL CASE.—For some days past the trial of a case in which a party libelled the proprietors of the New York Sunday Mercury for printing a statement prejudicial to his character has been going on. It appeared by the testimony given that the alleged libelous article was the precise substance of certain evidence before the Grand Jury in a case in which plaintiff was arrested. After all the testimony was before the jury on Thursday, on motion of defendant's counsel the charge was dismissed, and an allowance of $250 granted defendants by way of extra costs in the suit. The ground for the non suit, as laid down by the Court, was that the alleged libel came under the class of privileged communications. The decision is of some importance, being on a point never before adjudicated in this country, and establishing the right of newspapers to publish a fair and correct account of *ex parte* proceedings, without being obliged to establish the truth of the charges involved.

MURDER AND SPEEDY RETRIBUTION. In Walworth county, Wisconsin, on the 5th, three men entered the house of a man who had just sold his farm for $3000, and, finding the farmer absent, murdered his wife and child, and proceeded to ransack the building. While thus engaged, a person living near by, hearing suspicious noises, went to the house, saw what had been done, and shot all three of the assassins, killing one, and mortally wounding the others.

☞ The Superintendent of the Freedmen's Bureau at Huntsville, Ala., has his hands full in witnessing contracts between employers and the freedmen. Many farmers have supplied themselves with laborers, and but a small portion of the negroes are unemployed for the present year. First-class hands without encumbrance have hired for $200 per year, with rations, quarters and wood, the negro to clothe himself and pay his own doctor's bills.

— "The Susanville Sage Brush" is the name of a California paper! Good Heavings!

— At New York, Jan. 22, David Shiff and George Boyce were arrested and identified as the robbers of the messenger of the Farmers & Citizens National Bank of Williamsburg, Long Island. No clue to the money has been discovered.

— A little after midnight, Sunday night, the Baptist Meeting House in Cambridgeport, Mass., was found to be on fire, and was burnt to the ground. The fire caught from the furnace, near the entrance, and nothing was saved. Building insured for $7000, and organ for $1000.

— Capt. S. S. Smith, an ex-Confederate officer, is under arrest at Toronto, Canada, on a charge of robbing an old man of $4000 worth of United States bonds at Windsor, where Smith keeps a hotel.

— They have a skating park in Augusta. It is made in this wise, as we learn from the Farmer. The ice is cleared of snow and the steam fire engine employed to flood the space thus cleared, which, after freezing makes a smooth surface.

— The Commissioner of Internal Revenue has, in view of the attempts made by manufacturers and others to defraud the government in the matter of revenue, decided that all persons purchasing or selling spirit casks, with the inspection mark branded thereon, are liable to the penalties prescribed by the laws of Congress on that subject.

— The house of Rev. Albert Pratt, of Foxcraft, Me., was destroyed by fire on Saturday week. There were no neighbors near, and for a time Mr. Pratt was obliged to struggle alone to remove his family, two of whom—his wife and child—were confined to their beds by sickness. So rapid was the spread of the flames that the rescue of the family was accomplished with difficulty. So intense was the cold that Miss Martha Pratt, not being sufficiently clothed, and endeavoring to assist in rescuing property, was badly frozen in her face, arms and hands.

— As we have said scores of times, the J. Monroe Taylor Gold Medal Soap is, without exception, the nicest and best soap made; is the only kind that can be called a perfectly pure article, and goes nearly three times as far as any other soap, and will always turn out whiter and nicer clothes than washing with any other article. Try it, and you will find what we say is true. 40

No. 39 Congress St., Portsmouth, N. H.,

—DEALERS IN—

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know ought of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and expiating when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn. They can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

"Great oaks from little acorns grow." The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove and elaborate these facts. Then guard yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Livercspot,) and Lentigo, or Freckles, are often very annoying, particularly to the ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by Dr. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION. Sold by all Druggists in Portsmouth and elsewhere. lysndaw—oct19

CLOCK'S Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown. It will not stain the skin or the finest linen. It will instantly arrest the hair from falling off; cause hair to grow on bald heads where it has fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 10 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, 2 Congress Block.

DR. TEBBETTS'

Physiological Hair Regenerator.

The Most Wonderful Discovery of the Age.

WILL POSITIVELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black brown, or auburn; and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will also promote a growth of new hair on bald heads, where the glands or roots of the hair are not disorganized, and effectually remove all dandruff, itching and humors from the scalp. ☞ It is warranted to produce the above results, or money refunded.

PRICE—$1 per Bottle.

☞ In Board of Aldermen, on Monday evening, in Executive Session, the following officers were elected for the ensuing year:

City Marshal—J. Horace Kent.

Assistant Marshals, Constables and Police Officers—Frank B. Johnson, George E. Sides and Horace F. Pickering.

Watchmen and Police Officers—Ezekiel Burns, Ward 1; Chas. H. Tucker, Edwin Underhill, Ward 2; James D. Maloon, Chas. H. Glines, Ward 3.

Supernumary Watchmen and Police Officers—Thomas E. Rand, Wilbur F. Lamb, Wm. A. Abbott and Frank W. Pickering.

Chief Engineer—John H. Moran.

Assistant Engineers—Solomon Seymour, Wm. B. Grogan, Moses R. Hall, James A. Waterhouse, Chas. W. Norton and John Stavers.

Health Officer—Benjamin M. Parker.

Special Police Officer at Navy Yard Landing—Robert Anderson.

Hearse Driver—John H. Wendell.

Superintendents of Burying Grounds—Ivah N. Rugg, North; John H. Wendell, Cotton's; Josiah F. Adams, Pleasant St. and Point of Graves.

OUT-DOOR AID.—It might be inferred from an item in the Chronicle of Monday, that any and all the out-door pensioners of the City can claim and receive aid in *Money*, from the Overseers; but it is not so: the Resolution of the Board of Aldermen leaves it at the discretion of the Overseers, as will appear by the following copy from the Record:—

Resolved, That the Board of Overseers be recommended to pay out-door pensioners their allowance in cash, whenever, in the opinion of the Board, there is no danger of the same being misspent.

☞ It may be considered rather cool to talk of 4th of July just at this juncture, but the fact is it is a matter which requires time, this getting up a good celebration—such a one as we hope to have here on our next national holiday. Some gentlemen are already interesting themselves in making preparations for a second return of the "Sons," and we trust they will find ready assistants in all to whom they apply.

NYVAL.—Third Asst. Engineer Gates McAllister has been ordered to his examination at Philadelphia, and upon its completion, to duty as assistant to Chief Engineer Roberts at this Navy Yard.

Act'g Asst. Engineer Wm. M. Rodes has been ordered to the Mackinaw.

☞ The Lyceum this evening offers a triple entertainment of readings, and music. Our home talent, it will be seen, is to be called into requisition.

☞ Hill & Carr have for sale the Excelsior Leather Preserver, an article which has stood the test of army use for three years, making leather pliable and waterproof. It has been used on hose by the Exeter fire department for some time, and also by the Manufacturing Co. of that place. Try it.

☞ Wm. R. Preston is agent for the sale of Stafford's Olive Tar, highly recommended in diseases of the throat and lungs, and a great alleviator of pain in case of burns, scalds or chilblains.

☞ Thanks to those thoughtful persons who sprinkled their sidewalks with ashes during our slippery term.

☞ In the town of North Livermore, Me., lives a venerable century plant by the name of Capt. Daniel Hinkley. On the 8th inst. he completed his 100th birthday. He is ten years older than the U. S. Government, and bids fair to live several years longer. His health is good, and his mind as fresh and vigorous as it was on the day he voted for George Washington for President. He has voted for every President since. He has always been a man of the strictest sobriety, and to this fact, perhaps, may be attributed his longevity. He is probably the only man living who was a witness of Arnold's expedition up the Kennebec, which he remembers distinctly because, as he says, they stole all his watermelons.

☞ Col. Osborne, Asst. Commissioner of the Bureau of Refugees, Freedmen, &c., for the district of Florida, has submitted a plan to Gen. Howard, for the consideration of the government, for colonizing the Freedmen in Florida. He suggests that the U. S. purchase from Florida all that portion of the State below the 28th degree of latitude and give it a territorial form of government, none but freedmen to be permitted to buy of pre empt lands, and each head of a family to have eighty acres.

☞ The report of Col. Whittlesey, Asst. Commissioner of the Freedmen's Bureau in North Carolina, speaks with great praise of the good conduct of the freedmen. It says: "The idle and conscience-begotten fears of insurrection have all passed away. All admit that a more quiet and orderly Christmas has never been enjoyed in this region."

COTTON PLANTATIONS FOR SALE.

We have for sale and ready for immediate occupancy some of the best cotton plantations in the very best cotton growing region of the south, with beautiful dwellings and all the buildings and machinery for cotton cultivation complete, and many with the laborers ready for work. They will be sold with perfect title for less than it cost to clear the land or erect the buildings.

Any of these plantations will pay for themselves and all expenses by a single crop, and must double in value within a year. To raise a crop the coming year, operations must be begun in January. To facilitate investments at once the company are prepared to purchase, manage and cultivate plantations for Northern owners without any charge to the proprietor, the expenses being paid from the net profits.

We also are prepared to negotiate for advances for growing cotton, giving a single crop, and with perfect title upon the entire plantation to secure the principal, and giving one-third net crop for the use of the money—the plantations being run under the supervision of our own agents, and cotton shipped to our order. These advances can be deposited with our agency in New York or Boston, and will be paid at maturity at the same place without expense.

Cotton at present prices will pay from 2 to 300 per cent. on these investments, amply secured and perfectly safe.

We assure Northern men of perfect security in their purchases of property in this locality where such purchases and investments may be made by us.

We believe no more favorable opportunity for investment for Northern men ever presented itself, and at the same time it will supply the necessities of the freedmen by furnishing them with remunerative employment, and will help inaugurate the experiment of free labor in the cotton fields of the south under Northern auspices.

Mortgages negotiated upon plantations for which 20 per cent. interest per annum will be paid absolutely, or one-third the net crop of cotton raised.

An agent of the Company will leave for the South on the 15th of January to make investments and attend to the selection and purchase of plantations; until which time he can be seen at the office of the New England Agency, No. 46 Washington St., Boston, Mass.

Send for lists of plantations and prices, in any desired locality. Send for circulars. Call for letters of introduction to our agents in all parts of the south

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most learned Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Boils, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their constitutions and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. Teller, are now in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the efficacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK,

A book for everybody.—Startling disclosures Dr. TELLER's great work for the Married or those contemplating marriage—300 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Hyppy. A lecture on Love, or how to choose a Partner—A complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichai's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No agents or boys employed. Notice his address all letters to

From the Portsmouth Journal

HUNDRED HOURS WITHOUT SLEEP.

Although the feat of last week in this city, in which an individual kept awake one hundred hours and walked a mile in every hour, was of but small account on the score of merely winning a bet, yet, as illustrating the extent of human endurance and the necessity of repose to our existence, it is a matter well worthy of record.

On Tuesday of last week, at 5 P. M., Mr. John Seaver, a young man of about 25, a native of this place, on a wager of $500 commenced walking one hundred miles in as many consecutive hours, without sleep. The place selected was Union Hall, around which, outside of the settees, forty-two circuits made a mile. Several watchers were placed on both sides, who by change were all the time in attendance. On Wednesday afternoon, at the close of the first twenty-four hours, he became weary and felt a stronger disposition to sleep than he afterwards experienced. This was driven off, but the effort produced a severe headache, which continued through the remaining days. On Thursday, he felt drowsy, but was so excited that he would sit down without napping. Every hour the circuiting the room forty-two times was regularly performed, in times ranging from 20 to 30 minutes. On that morning he began to be discouraged, and expressed a wish to abandon further effort. His advisers persuaded him, and he renewed his efforts, and, as he expressed it, with a determined *will* to succeed.

Friday, the third day, he was more wakeful, his nervous excitement having increased—probably by the strong tea which was his only beverage. His head was bandaged, and bathed with rum and alum frequently. He stumbled from weakness and weariness, but got up without help. Saturday, the fourth and last day, was one of weariness, aching limbs, aching head, and prostration. He required to be supported as he went his hourly rounds. In the 95th hour he fainted and fell. Every hour of the last four he was bathed all over with rum and alum. In the 99th hour he again fell in faintness. The last hour at length arrived, and with his assistants he completed his forty-two circuits in 33 minutes. He now received fresh energy from the idea that he had accomplished his feat, and unaided he literally dragged his limbs once more around the Hall, to show that he was still awake; and amid the cheers of a large audience, he retired after 9 o'clock.

In an hour's time he was at his home, and on his pillow, no doubt like Sancho Panza, "blessing the man who first invented sleep." But for him sound sleep was not safe. His medical attendant, Dr. Perry, was with him through the night, awaking him every hour. He was under so strong nervous excitement, that he at times had to be held in bed by his attendants. His dreams were fearful—of more miles to travel, and that his bandages were lost, and that his bathing materials had given out. This was evident by his exclamations. On Monday morning he was better, but he has not yet got rid of the swelling of his limbs, of weariness in his back, and of his headache. He took his meals regularly during the four days, and such doses as the doctors prepared.

Mr. S. tells us that he went to the extent of human endurance—he has no idea that he could have sustained himself three hours longer. Although he realizes $500 on the bet and $280 as admission fees, yet ten times that amount would not induce him again to make a like effort.

A like feat was performed in California a few years since. In Baltimore it was attempted by a man who died in the 97th hour.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!

FARRANT & CO

Gentlemen. I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabialis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUER,
Merchant, Curacoa, S. A,

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

The Chronicle.

— The woman who rushed to a soldier's arms has been sent to prison for having government property in her possession.

— John White, a black pauper, one hundred years old, died recently in Colebrook, Conn. He was born in Africa, was kidnapped when 12 years of age, and brought to Charleston, S. C. He came North in a cask, on a Massachusetts vessel.

— For the year ending Nov. 5, 1865, there were received into the Hospital of Idaho 120 persons—many of them in a horribly mutilated condition, occasioned almost entirely by the caving of banks, falling of trees, and other vicissitudes of mining life.

— In Morristown, Cal., two men engaged in tapping the shaft of a bed-rock tunnel, were broken in upon by the water which filled the tunnel and cut of the diggings, and swept with mud, gravel and boulders, 1200 feet through a rough tunnel, dropped 15 feet into a ravine, and carried 70 feet down the gulch, without having a bone broken. They are totally disabled, but it is thought will recover.

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich, and *productive*, being from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c, produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Machine Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* n1—dawóm

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JANUARY 24, 1866.

FROM MEXICO.—Advices from Havana of the 17th inst. contain dates from Mexico of the 9th inst.

The general situation of the Imperialists, by their own account, is very unfavorable. The Mexican force (Imperial) which left Maesaville recently, found the 4th battalion starving and with a multitude of sick. The whole neighborhood of Acapulco had emigrated, after having destroyed the wells. Desertions from the Imperial forces were very great. Maximilian's minister plenipotentiary to France and about 300 soldiers belonging to the foreign legion, had arrived at Vera Cruz.

SNOW IN OREGON.—A Portland, Oregon, dispatch of Jan. 18th says: Decidedly the heaviest snow storm that has occurred in this part of Oregon for years has prevailed for two days. It snowed all day Tuesday and rained most of the time yesterday. During the night the storm continued, and it has been snowing uninterruptedly to-day. During the cold snap of a few weeks since, there were storms particularly severe east of the Blue Mountains. Quite a number of people were badly frost-bitten. The snow is deeper along the river than was ever known before. In Reindeer River Valley the snow is 36 inches deep, at Lagrand 20 inches, and on the mountains, there are from four to six feet. The route to Placerville is closed. The snow in Boise Valley averaged 20 inches, and Snake Creek is frozen so as to allow teams to cross. The thermometer at Idaho City has been 22 degrees below zero.

THE WORK OF A SINGLE CHURCH.—It was stated Sunday morning by the pastor that the First Parish in Dorchester, Mass., (Rev. Mr. Hall's) had contributed during the war to the relief of the soldiers, in supplies and money, upwards of twenty-five thousand dollars. The money was liberally given as often as asked for, and, under the care of the ladies, the clothing and other articles were carefully prepared and judiciously distributed.

☞ The great Columbian Marine Insurance Co. of New York, has just failed: liabilities $6,000,000. The agent says its assets will pay all these, and leave a surplus; but its heavy losses make it needful to close the concern. It is said it has paid $1,000,000 of war risks, on vessels destroyed by the Anglo-rebel pirates.

— A young man in Milford recently attempted to shoot himself on the doorsteps of his unsympathizing fair one. He got a comrade to load the pistol, and after packing his valuables to be sent to his father, and disposing of his effects generally, sending $50 to his lady-love, &c., committed the rash act, but as his comrade had sense enough for both, he left the bullet out of the pistol, and the only damage done was a burnt waistcoat.

— A commercial traveler stopping at a Western hotel thought he had discovered a man concealed under his bed, and blazed away at him with his pistol. The landlord, chambermaids and guests rushed into the room, when an investigation revealed a bronze bust of Daniel Webster, shot in the forehead.

— The reported death of Moses Bates of Plymouth was erroneous, his name having been confounded with that of Rev. Moses Chase, formerly of Plymouth, who died recently in Rhode Island.

— An ice bridge was formed on Sunday morning above Niagara Falls, extending three miles down the rapids. It is the largest one for many years, and people were crossing from both sides on Monday.

— A clerk in the Baltimore post office, Alonzo Hutchins, has been arrested for robbing the mails.

— The people of Newport, R. I., for the second time, have cast a majority of their ballots against having a steam fire-engine.

— Bark B. Sewall, from Bath, Me., for Galveston, with a cargo of hay and potatoes, was wrecked below Galveston, Dec. 26th. The captain and crew were saved.

— Whatever doubts may be entertained as regards the Union, there is one thing that there can be *no doubt about*, and that is (for we speak from experience) that Herrick Allen's Gold Medal Saleratus is the best and most perfectly healthy dough expander in existence. It is so far ahead of any other saleratus or soda, that all who use it, can see, at a glance or a taste, that what we say is true. Go to your Grocer and get a paper of it, and our word for it, you will never use any other. Their depot is 112 Liberty Street, New York. Most merchants sell it.

☞ Thieves have discovered a new use for chloroform. The porkers near Adrian, Michigan, disappeared in a most unaccountable manner, and, what was regarded as strangest, they were carried off without the sound of a single squeal. A gentleman, however, discovered the depredators operating one night, and going to the pig-pen he found two fat hogs lying helpless and unconscious, having been drugged with chloroform.

EDITORIAL JOTTINGS.—*Boston*, Jan. 22. If there be any harder or nastier road to travel, than the streets of Boston, last week, Dear Chronicle,—yours truly don't want to plod over or in *it*. The mud was equal to York clay. Sleighing, they have had none here this winter yet, though there *was* a day or two last week when they did grub and scratch round on runners; and it is rather late to hope for real good slipping now. But, as with us in Portsmouth, the skaters have had a pretty good run of *their* sport.

Maretzek's Opera troupe gave "Ernani" at the Boston Theatre, Saturday evening; and a very enjoyable performance it was, although it required a four-hours' siege to get it. And how singular it is, that where as formerly the low-priced rabble sat in "the pit," and "the quality" in the boxes or first gallery; now-a-days the order is reversed, and the two crusts of society have changed places, and the *ton* monopolise the *parquet*, while the cheap ticket crowd look down on them from the "family circle" and the "amphitheatre."

The Opera has been largely patronized, the past week at high prices, and the audiences exceedingly brilliant and nicely costumed. On Tuesday, Meyerbeer's new *L'Africaine* is to be brought out, with tickets higher yet, $3 seats, &c.; but for our part, we think the African has occupied the stage pretty effectually, and tragically too, of late, without bidding still higher for him. Speaking of seats—those at "the Boston," in the galleries, are not "reserved," so there is always a rush and crush, scrimmage and scramble for the choice places. Hundreds collect before the doors open, and then to see even the genteel, musical people's eagerness for seats, and the measures they take to get them, leaves it not so strange a matter in the mind of the spectator, that coarse and uncultivated people should sometimes exhibit selfishness and rowdyism.

"Ernani" was well put upon the stage, and the chorus and orchestra the best we ever heard, in opera, and we were told probably the most complete ever presented, in Boston. The opening chorus, of men, "O hail us, ye free," was particularly fine. There was considerable dissatisfaction among the regular opera-goers, the critics and hypercritics, that the leading parts were not given to more prominent performers; but it suited your Jotter all the better, with his democratic tastes in music as well as other matters—that a star "screamer" or two should *not* monopolize all the notice and applause and interest. Applause! yes, if there is a humbug, it is the fashion of "applauding" at a public performance, or at any rate in the manner of doing it. Be it at a doubtful or double joke at a nigger concert, a "classic" gem in opera, (which term, by the way, is about as indefinite as "thoroughbred" horse talk,) or a sacred song,—all the same, clap, clap go a thousand hands, if not with boot-heel and whistle accompaniment—to the utter and total destruction of all the sense if not the sentiment of the occasion. And how ridiculous, when "telling a tale or singing a song," to go back in the recital and *repeat* a part of it over again, because it is particularly good or pleasing.

And there is one other abominable and utterly intolerable nuisance at this, as with all operas or oratorios—the noisy peddling of "books of th' opera" all over the house. This is full bad enough, of newspapers, in the streets—and no follower of Ben Franklin, who rightly appreciates and respects himself and his profession, would ever allow it; but at a concert, it should certainly be tolerated only outside the entrance, if at all. We don't believe the boys sell a book or a newspaper more, for all their hollering, nor do backmen increase their patrons by all *their* shouting.

The plot of Ernani is particularly absurd, even for an opera. What an idea of love anybody must have, who would sacrifice the *object* or subject of affection or passion, to gratify his or her own selfish feelings for that object. True love must exist primarily and principally for the *sake* of the *object*, and can be gratified only through the happiness of that object or subject. Of course, under this ruling, if any man really love a woman better than himself, (and if he does not, he don't love her at all,) he cannot possibly rejoice in possessing her himself, be she sweetheart or wife, if she would be happier with, or prefers, any other man. Tennyson gives a beautiful and striking instance of true love, in Enoch Arden. And with the remark that no jealousy, exclusiveness or selfishness can exist where there is a sentiment worthy the exalted name of "love," we must descend from our metaphysical stilts—which we mounted to get out of the mud and the way of the newsboys—and come down to common every day life.

Among the live men for whom Boston is indebted to the East, is Mr. Joseph F. Paul, the great manufacturer of doors, wooden mouldings, veneers, &c., in which his immense steam establishment out on Tremont street takes the prominent lead, and is almost beyond competition. Mr. Paul was from York, Me., where he has many relatives; and from small beginnings, has by indomitable industry and successful enterprise, aided by his great mechanical skill, built up for himself, since he left Portsmouth nearly thirty years ago, one of the most complete, valuable and lucrative private manufacturing establishments in Boston—and his personal reputation is as high as that of his goods. Yours ever, F.

IN THE U. S. SENATE, Monday, Jan. 22, the bill for the enlargement of the Freedmen's Bureau was taken up. The pending question was upon Mr. Cowan's amendment to limit the jurisdiction of the Bureau to States lately in rebellion. After debate it was rejected—11 to 38.

Mr. Davis moved to strike out the provision extending military jurisdiction and protection to the agents and employees of the Bureau. Rejected—8 against 31.

An amendment was adopted restricting the military jurisdiction to the exercise of officers pertaining to the Bureau.

Several other amendments were offered and rejected, showing that the bill is likely to pass as it is, or nearly so. Veteran officers are to be employed as agents.

The bill providing that no person be disqualified from acting on Grand or Petit Juries by reason of having formed or expressed an opinion upon the matter to be submitted to such jury, founded upon public rumor, newspaper statements, etc., was made the special order for Thursday.

Mr. Fessenden, from the Special Committee on Reconstruction, reported a joint resolution to amend the Constitution by providing that representation and direct taxes shall be apportioned among the several States which may be included in this Union according to their numbers, counting the whole number of persons in each State, and excluding Indians not taxed, provided that whenever the elective franchise shall be denied or abridged in any State, on account of race or color, all persons of such race or color shall be excluded from the basis of representation.

A resolution was passed referring all papers and documents on the subject of the representation of the late rebellious States to the Committee on Reconstruction.

In the House, a resolution was adopted instructing the Committee on the Judiciary to inquire whether further legislation is necessary to compel compliance with the law requiring all officers to take the test oath.

A resolution was committed to the Committee on the Judiciary, declaring that the leaders of the rebellion ought to be tried by court martial or a military commission, and that it would be inexpedient to try them by a civil court, when jurors in the South would be the equals of those accused of crime.

Mr. Stevens from the Committee on Reconstruction, reported an amendment to the Constitution providing that representation shall based on the whole number of persons in the States, and that where the elective franchise is denied or abridged on account of race or color, all such persons shall be excluded from the basis of representation.

An amendment to the Constitution was offered, providing that in the event of the death of both the President and Vice President, the Chief Justice, or elder Associate Justice, shall act as President until a new election. Referred to the Judiciary Committee.

A preamble and resolution was adopted that as several high officials have appointed to office several rebels, the Judiciary Committee inquire whether legislation is necessary to enforce obedience to the law by all men without regard to color.

No. 39 Congress St., Portsmouth, N. H.,

—DEALERS IN—

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a wel pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of the female. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn, who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Sold by Druggists everywhere.

"Great oaks from little acorns grow." The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove such elaborate theories. Satisfy yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. MAGOIRL'S BITUMEN, DYSPEPTIC and DIARRHEA PILLS cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, MAGOIRL'S SALVE is infallible. Sold by J. Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or freckles, are often very annoying, particularly to ladies of light complexion; for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either, and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for those discolorations, which is at once powerful and invariable in its action.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION

ALLCOCK'S POROUS PLASTERS.—These plasters have the compactness of kid leather and the flexibity of a silk glove. They have cured varicose veins and external aneurisms. For all affections of the chest, weight about the diaphragm or upper portion of the bowels, in colds and coughs, for injuries of the back, for all strains or bruises, for a weak back, for nervous pains of the bowels, and other nervous affections and cramps, for heart affections,—in all these cases they have to be used to be properly appreciated.

DR. I. T. HENDERSON'S LETTER.
Farnville, Louisiana, March 8, 1850.
DR. T. ALLCOCK,—*Sir:* I have been suffering under a severe attack of *neuralgia affections of my bowels* for years, with *hypertrophy of the heart* and have tried everything known to the practice of medicine from the very best M. D.'s: but truth prompts me to say that your plasters have given me more permanent relief than anything else I have used, and I believe will produce a perfect cure.

The counter-irritant effect of your plasters is produced in such a mild and gradual way, they so invigorate the circulation around the parts to which they are applied, and exert upon all nervous diseases such a great sedative influence, that I place them confidently at the head of every plaster now in use. Yours, very truly,

From the Lowell News, Jan 22d.

A PLEASANT OCCASION.—One of the most pleasant social gatherings ever held in Lowell, was that at the residence of Edward F. Watson, Esq., on Chelmsford street, last Wednesday evening. The direct occasion of this gathering was to honor *Charles Main*, Esq., of San Francisco, Cal, who is temporarily in New England visiting relatives and friends, after an absence of about eleven years. Some weeks since Mr. Watson and family conceived the idea of convening, at as early a day as possible, at their residence, all the descendants now living of Amos Main, of Rochester, N. H. who died in Lowell in 1859, aged 89 years —Mrs. Watson being a daughter of this early resident of said town.

The presence of the California relative and family in the vicinity was especially favorable to the project, and invitations to be present were extended to all the descendants—Wednesday evening, Jan. 17th, being appointed as the time for this pleasant reunion—the last, perhaps, that may ever occur. In response to these invitations seventy-two persons were present, evincing an earnestness in the project considering the fact that only eighty-five entitled to be present are living.

Amos Main above referred to, was the grandson of Amos Main, senior, who was a settled minister in Rochester, in 1837—fifteen years after the town charter was obtained from King George the First—and died in 1760. Amos left one son, Josiah, whose eldest son, Amos, was the ancestor from whom those present claimed descent. This son, Amos, left five sons and five daughters—only two daughters of his entire family being living, one of these being Mrs. Watson, and the other the mother of George W. Young of this city. Quite a number of the decendants are residents of Lowell.

Charles Main, Esq., of Portsmouth, in whose honor the company assembled, was a grandson of Amos Main, and has resided for the last fifteen years in San Francisco, where he has accumulated a large fortune in the harness and saddlery business.—The evening was passed most pleasantly, all formality being dispensed with, and the entire house thrown open for the reception of guests.

Social intercourse, replete with family reminiscences and pleasing incidents of the past, together with the various recreations indulged in at gatherings of this character, occupied the entire evening. Brief addresses were made by several present, and dancing was a prominent feature of the evening's amusement. Refreshments were furnished in bountiful supply by the host and hostess of the occasion, to whom those present are much indebted for the successful effort made to ensure the comfort and contribute to the pleasures of the reunion.

This also being the anniversary of the birth-day of Mrs. Watson, this event was properly noticed by the presentation to her of an elegant silver pitcher and salver. It was not until the small hours of the following morning that the company separated, much pleased with the most agreeable interview enjoyed, although pained with the reflection that the hands which clasped each other at the parting may never be grasped in friendly greeting again.

☞ At the S. J. Court in Exeter was tried the case of Jervis Hall v. Stephen G. Prescott and trs. The plaintiff, a substitute broker, claimed to recover $150 for procuring and furnishing a substitute for the defendant, who was "conscripted" in 1863. The money ($150) was deposited in one of the banks in Portsmouth, and trusteed in this suit. The defendant contended that the contract was made with one George S. Leach, another substitute broker, and the Jury so found—verdict for the defendant.

POLICE COURT, Jan. 23.—John Moriarty, for being drunk on Market street, sent to House of Correction.

PARTICULAR NOTICE.

Ladies will please to remember to attend the large Auction Sale at I. HAHN'S, 13 Market Street at 10 o'clock this A. M.

NEW HAMPSHIRE ITEMS.

—— Rev. T. H. Miller is to preach at South Hampton next Sunday.

—— Rev. Wm. G. Nowell has been invited to take charge of the Unitarian Congregational Society in Dublin.

—— It is to be inferred that they had a drunken time at the raising of the Rev. Mr. Parker's church in Derry in 1769, as the parish "voted that the County by four hundred weight of Cheas, and two thousand Bisket, and three Barl of Rum, & five Barl of Syder for the meeting hous raising." Forty years later, drunken raisings were very common in all this part of the country; and it was a common practice to give all hands, including boys and loafers, "as much as they could drink," and in particular to get some boy drunk for the first time!

—— Lieut. W. H. Fletcher, late of Co. G, Third Company of New Hampshire Sharpshooters, has furnished the Mirror with a list of the battles and skirmishes in which the Second and Third Companies were engaged during the war. The aggregate number is *seventy-six* different engagements. The organization had 530 men killed or wounded during the war, and it is thought they inflicted a loss of double that number upon the enemy, besides taking more prisoners than they ever had men.

GOLD, Tuesday, 139.

—— At the latest dates Mr. Seward had not arrived at Havana. The Captain General had fitted up his country seat, and was making preparations to receive him in a hospitable manner.

—— A dispatch from Titusville, (in the oil regions) Jan. 22, says there were two large fires there Sunday night. Three men were arrested, charged with being incendiaries, by the Vigilance Committee. If found guilty, they will be hung at once. Particulars not received.

—— On Friday last Gov. Brownlow was riding from Knoxville toward Nashville in a train of cars. About twenty miles from Knoxville the car containing the Governor was separated from the train, thrown off the track and he had his left foot and ankle bruised, but was not otherwise injured. Some malignant rebel is supposed to have tampered with the screws and fastenings of the car.

—— Five hundred thousand dollars have been subscribed in Philadelphia for establishing a line of steamers to Southern ports. One hundred thousand dollars is still needed for the success of the enterprise.

COTTON PLANTATIONS
FOR SALE.
We have for sale and ready for immediate occupancy some of the best cotton plantations in the very best cotton growing region of the south, with beautiful dwellings and all the buildings and machinery for cotton cultivation complete, and many with the laborers ready for work—they will be sold with perfect titles for less than it cost to clear the land or erect the buildings.

Any of these plantations will pay for themselves and all expenses by a single crop, and must double in value within a year. To raise a crop the coming year, operations must be begun in January. To facilitate investment at once the company are prepared to purchase, manage and cultivate plantations for Northern owners without any charge to the purchaser, the expenses being paid from the net profits.

We also are prepared to negotiate for advances for growing cotton, giving a bottom mortgage with perfect title upon the entire plantation to secure the principal, and giving one-third net crop for the use of the plantations, the crop being run under the supervision of our own agents, and cotton shipped to our order. These advances can be deposited with our agency in New York or Boston, and will be paid at maturity at the same place without expense.

Cotton at present prices will pay from 2 to 300 per cent on these investments, amply secured and perfectly safe.

We assure Northern men of perfect security in their persons and property in any locality where such purchases and investments may be made by us.

We believe no more favorable opportunity for investment for Northern men ever presented itself, and at the same time it will supply the necessities of the freedmen by furnishing them with remunerative employment, and will help inaugurate the experiment of free labor in the cotton fields of the south under favorable auspices.

Mortgages negotiated upon plantations for which 20 per cent. interest per annum will be paid absolutely, or one-third the net crop of cotton raised.

An agent of the Company will leave for the South on the 15th of January to make investments and attend to the selection and purchase of plantations; until which time he can be seen at the office of the New England Agency, No. 46 Washington street, Boston, Mass.

Send for lists of plantations and prices, in any desired locality. Send for circulars. Call for letters of introduction to our agents in all parts of the South

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures unlike anno other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly cured under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsle and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price $2 25. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Hyp. by A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine.—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the price of 1 box, or 6 boxes, for the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.

N. B.—Patients at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation; sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice t his, address all letters to

AMERICAN AND FOREIGN PATENTS

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1837,

78 State Street, opposite Kilby Street,

BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twice rejected* applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen.

I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabilalia, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUEZ,
Merchant, Curacoa, S. A,

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

A HOUSEHOLD BLESSING!

HOWE'S SEWING MACHINE!

The Best Machine in the Market!

The people of Portsmouth and vicinity are respectfully informed that I have taken the Agency of the above beautiful Sewing Machine, and am now prepared to promptly supply the same, either by wholesale or the single machine.

☞ *No Family can afford to be without one of these vast Labor-Savers.* ☜

Why is this the best Sewing Machine ever invented? Because—

1st. It is better made than any other.

2d. It runs with less noise.

3d. It is much less liable to get out of order.

4th. No other Machine works so small a needle.

5th. It is the cheapest Machine, because the best.

6th. It has improvements over every other Machine.

The better the work performed, the better the price obtained; hence that Machine which produces the best work is the most profitable.

FOR FAMILIES,
MERCHANT TAILORS,
BOOT AND SHOE
MANUFACTURERS,

DR. KNIGHT'S HAIR DRESSING

DR. KNIGHTS' HAIR DRESSING

A VEGETABLE PREPARATION

For beautifying and promoting the luxuriant growth of the hair.

It prevents the hair from falling off or turning gray.

It removes dandruff, cleanses the scalp, cures nervous headache, and all those distressing affections induced by the use of oily or alcoholic Hair Dressings.

Its invigorating properties insure luxuriant locks, inclined to curl, and by its persistent use the hair is restored to bald heads when such a result is possible.

It is splendidly perfumed, will not stain or soil the skin or any article of apparel, and is universally approved—especially by ladies and children.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practice (experience of unlimited extent), Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate. Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotte, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow prepares and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

CHEROKEE CURE,

THE GREAT

INDIAN MEDICINE,

Cures all diseases caused by self-abuse, viz:—*Spermatorrhœa, Seminal - Weakness, Night - Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption*, and all diseases that follow as a sequence of youthful indiscretions.

The Cherokee Cure will restore health and vigor, stop the consuming drain, effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or White Discharge*. The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $3, Three Bottles, $5.
" Injection, " " $3, " " $5.

The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well established drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us *in perfect confidence*. We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

— Corn is selling in Chicago for 37 cents per bushel, which is cheaper as fuel than coal at ten dollars per ton.

— Mrs. Rebecca Doyley Pinckney, supposed to be the last of the celebrated South Carolina Pinckneys, died on Christmas Day, aged nearly 90 years.

— The commissioners of Hampshire county, Mass., have allowed $1328 claims for damages to sheep owners who had their sheep killed by dogs during the last year. Luke Sweetser of Amherst had $355 worth killed at one fell swoop.

— An important legal question has just been decided in Chicago. George W. Gage of that city, in September, 1860, owed a sum of money to Henry O. Schoolfield, of Lynchburg, Va. He is now sued for principal and interest. The court decides that as it was illegal to pay any debts to persons residing in the "rebel States" after September 1, 1861, the interest could only be demanded up to that date.

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles only to a sandy beach, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented. For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits; and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters addressed to Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* 21—dawtu

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, JANUARY 25, 1866.

IN THE U. S. SENATE, Jan. 23, the bill to enlarge the Freedmen's Bureau was taken up, and Mr. Saulsbury spoke in opposition to it, as might be expected. Mr. Fessenden of Maine supported it in an able speech, for which we have not room to-day. At its close:

There is no collision, said Mr. Fessenden, between the President and his friends in Congress, and I make the announcement for the benefit of the country. The President has done nothing that his friends complain of, and his friends have done nothing that he can complain of. As Commander-in-Chief of the Army he had appointed Provisional Governors in the South, but he had not attempted to do anything which, under the Constitution, he had no right to do, or which belonged to Congress to do.

In concluding his eloquent remarks, Mr. Fessenden declared his desire to have the Union fully and speedily restored without the imposition of degrading conditions upon the South, who were to form a part of the Union to restored.

Perley says:

The Senate will not act hastily upon the House bill granting suffrage in this District, and it is not improbable that the bill may yet be amended. That the blacks are to be permitted to vote here is a fixed fact, but harmony and unity are also desirable.

The House debated the proposed amendment to the Constitution reported from the Joint Committee on Reconstruction, which Mr. Stevens endeavored without success to have put through on the previous question, —Perley says of this:

The chances to-night are against the passage of the amendment by the requisite two-thirds vote. Many of the more radical Republicans oppose it as calculated to prevent universal suffrage, which they declare must and shall be established.

LOUISIANA AND ALABAMA.—Shreveport advices say the river is slowly rising. Receipts of cotton from the interior are on the increase. Sixty prominent citizens of De Soto Parish are under military arrest at Shreveport, charged with murdering negroes. Constant and serious complaints from the interior of the parish are made of the unwillingness of the negroes to make contracts. It is well understood in Parishes that parties are at work underhand, who have influence with the freedmen, inducing them to disregard the orders of the Freedmen's Bureau, with the view of compelling the old owners of plantations to sacrifice them for lack of labor, when these gentry would step in and buy them at a small rate, promising the freedmen certain advantages.

In Monroe county, Ala., an Agricultural Association has been instituted by Southern men, which combines the functions of the local agent of the Freedmen's Bureau with those of the President for the same purpose. It is succeeding admirably. Able-bodied negroes are set at work, young and old are provided for, and there is no drunkenness or vagrancy in the county.

A large number of noted horses have arrived at Mobile for the Spring races.

The 40th, 42d and 86th negro regiments, on duty at Mobile and Huntsville, will be mustered out in a few days.

DESTINATION OF THE EMIGRANTS.—The direction taken by the foreigners who arrived in New York during the months of November and December is a matter of some curiosity. While 1326 went to Massachusetts, 4887 to Pennsylvania, 2348 to Ohio, and 3036 to Illinois, only 120 started for Virginia, 290 for Kentucky, 81 for Tennessee, 352 for Maryland, 8 for North Carolina, 88 for South Carolina, 8 for Georgia, 18 for Alabama, 3 for Mississippi, and 35 for Louisiana. These figures show that foreign emigration is yet distrustful of the late haunts of slavery. Unless greater pains are taken to attract it, by restoring complete order and treating the laborer with decent respect, it will be long before the South will derive much benefit from foreign emigration.

PROTEST OF THE BELGIAN SOLDIERS IN MEXICO.—Late Mexican journals contain copies of protests of soldiers of the Belgian Legion in Maximilian's service, made prisoners by the Republicans, against the Emperor's order decreeing the death of all Republican prisoners, and particulary against one case of its barbarous execution by Colonel Mendez, one of the Imperial officers, who caused to be shot immediately a number of Republicans whom he captured. One of the the protests is addressed to Maximilian, and the other to the representatives of the Belgian nation. The protestants say that they did not come to Mexico to fight in this war, but as an escort to a princess of their country (Carlotta,) and that, having been forced into active service, their lives are now placed in jeopardy by the execution of the barbarous Imperial decree, they being liable to suffer if the Republicans should retaliate.

— John L. Davenport, formerly on Gen. Butler's staff, has published a scathing reply to Chaplain Hudson's account of his campaign, prefaced by a characteristic letter from Gen. Butler to Bishop Clarke.

Correspondence of the Chronicle.

WASHINGTON, Jan. 22.

Eds. of Chronicle:—The masterly and unanswerable condensation of the universal suffrage question, by *Hon.* George Boutwell of Massachusetts, places him foremost in the guard of the defenders of liberty, and gives more lustre to the noble Commonwealth of Massachusetts. It was an eloquent *review* of the slave theory and practice, which begat rebellion, and still cherishes feelings of enmity toward our government. "Radicalism is triumphant," said a confirmed rebel at our side this morning, while at breakfast, and "Boutwell is the fair exponent of Northern ideas, relative to us subjugated men of the South."

This remark attracted the attention of a gentleman opposite, whose "mudsill" heart was too keen to Southern insults and braggadocia to permit the occasion to pass unnoticed. "Radicalism triumphant!" said the Obican, stretching his neck in a seeming defiance,—"yes, and that is the tendency of the age, sir." "You are here (addressing himself to the South Carolinian,) to redress some imagined wrong. The crime of treason soils your very garments; the tears of degraded women and the agony of whipped and murdered slaves have been your delight. You were not less radical in attempting our national destruction, than is Boutwell, or Sumner, Fessenden or others, in its maintenance; and further, sir, the sons of our western and northern homes were slowly murdered in your prisons, or chased and torn by hounds of more humanity than their masters. And to-day, you are all suppliant, because *subjugated*. Not because you heartily repent of your monstrous crimes or appreciate executive clemency, nor because you would neglect a similar opportunity to rebel again, but because you are *beaten by force of arms*, are you here, seeking to regain what the war has deprived you of. Rest assured, sir, that it is the determination of Congress to deprive you of every power that could in any event be an impetus to or aid of treason, and teach you that the experiment of rebellion is too expensive to admit of ever being repeated. Slavery is dead, and from that fact, if no considerations of humanity, duty and justice were urged, the loyal men in Congress will determine to make suffrage a universal blessing."

This ended all further comments on the part of the ex-Governor of South Carolina and the Ohio Senator, who left the table undoubtedly with the utmost contempt for each other, politically; but the superannuated specimen of "Southern chivalry" got a distinct idea of Northern duty and Northern determination relative thereto.

This interview has a significance. The rebel spirit of the South is as wicked, arrogant and base to-day as when Sumter was assailed, and it only remains for New England and the West to neutralize every energy of the Southern States that would deny liberty, in its broadest sense, to every color in our land. PARCHER.

FROM THE SOUTH.—In portions of Alabama, east of Huntsville, great destitution prevails, and relief to both whites and blacks, by the State or General Government, is indispensable. Everything seems to prosper in the country around Tuscumbia and Florence, except there is not labor enough to work half the land in the rich valleys around those towns. The freedmen have all willingly entered into contracts, and more are demanded. First-class hands are receiving two hundred dollars per year, with rations, quarters, wood and clothing for themselves, and paying their own doctor bills. Four hundred freedmen recently passed through Huntsville on their way to Arkansas, having contracted to labor there. Meetings of colored people are being held at various points South, to select delegates to the general Freedmen's Convention, which comes off soon at Augusta.

☞ The most reactionary of the conservative papers in Europe begin to admit the failure of Napoleon's scheme of a Mexican Empire. Thus the London Saturday Review remarks that Maximilian has not gained a little of success, and is now as dependent on the support of Napoleon's troops as he was when he first entered the country. It says: "Whatever may be the decision of the Emperor of the French, the fall of the Mexican Empire, if it does fall, will probably be not due so much to political causes extraneous to itself, as to its own inherent difficulties. It does not attract capital; it does not secure the welcome arrival of immigrants; it is not heartily supported by the Mexicans; its revenue does not increase in proportion to the increase of its debt; it cannot enlist a native army on which it can rely."

— On Sunday night a clergyman was preaching in Belfast, when a young man in the congregation getting weary of the sermon, looked repeatedly at his watch. Just as he was in the act of examining his timepiece for the fourth or fifth time, the pastor, with great earnestness, was urging the truth upon the consciences of his hearers. "Young man," said he, "how is it with you?" Whereupon the young man with the repeater bawled out in hearing of nearly the whole congregation, "A quarter past eight." As may be supposed, the gravity of the assembly was very much disturbed for a time.

GOOD ACCOUNTS.—Gen. Howard has received an official communication from Gen. Tillson, Assistant Commissioner for the District of Georgia, enclosing letters of Major Hastings and Mr. J. Davison, agents for the Bureau. They say that in Decatur county the freedmen have gone to work with their former masters, and the latter feel greatly encouraged. In Mitchell county the white people seem to be as poor as the blacks, and the freedmen have nearly all left. In Baker and Dougherty counties there is a demand for freedmen. Homes and good wages can be obtained for from 300 to 500 hands. Planters there are in high spirits, and say the freedmen really act as though they were going to work.

In Green and Oglethorpe counties the agent met with much opposition and discouragement at first from both whites and blacks, owing to the obstinacy of the negroes and the careless and despondent disposition of the farmers, but having called meetings of freedmen, at which the agent exhorted them to enter into contracts, and counseled them to cultivate good feelings, the result has been that nearly all are employed, and doing well. Most of the farmers entered on the new year more cheerful and hopeful than they had anticipated. Contracts on larger farms are generally made for a portion of the crops—from one-fourth to one-half—one-third, however, being the usual rate.

☞ In a late debate in the U. S. Senate, among other points made by Mr. Wilson was an anecdote which he told to show that slaveholders are not the best acquainted with the black men. I remember, said he, that on one occasion the Senator from Delaware came to me and said that his negro man—a most excellent man, for whom he had great affection—had been drafted. It would cost him nine hundred dollars to get a substitute, and he wished to get the man released. So good a recruit could not be excused, so the Senator raised $900, with which he obtained a substitute for his dear friend; but the next week that slave ran away and went to Pennsylvania, where he enlisted and took the bounty. The Senator told us the other day that Delaware was the last slave State, and I want to know if that runaway of his was the last slave.

IN NEW JERSEY the Senate has ratified the Anti-Slavery Amendment of the U. S. Constitution, by a vote of 13 to 8. As the House had done it before; so New Jersey comes into line with the free States.

☞ In North Carolina, lately, the Sampson county Court, arrested a negro on the charge of drawing a pistol on a white man, and sentenced him to be sold into servitude. Maj. Wickersham, of the Freedmen's Bureau, ordered the Court and all parties concerned to be placed under arrest.

— On Tuesday evening Jan. 22, in Washington city, Mr. Douglas, (widow of Stephen A. Douglas,) was married to Maj. Williams of the U. S. army.

— At Utica, N. Y., Jan. 23, the immense engine of Utica Steam Cotton Mills fell to pieces. The effect will probably be to stop the operations of the mill for the winter.

— Maj. Gen. Wilson, the capturer of Jeff. Davis, has resigned his position in the army, to assume the superintendency of a new express company.

—The Freedmen of Columbus, Miss., are giving concerts and tableaux. White people are admitted at half price and front seats reserved for their benefit.

— There was a great fall in corn, on Thursday, in Hartford. The roof of Mr. Lord's new storehouse fell in and 5000 or 6000 bushels were carried down and mixed with some coal. The damage to the building was about $2000.

— The skating park at Alleghany City, Pa., is probably the finest in the country. It comprises seven acres, with clear ice, and a half mile race course, with buildings and a reception room for ladies. The building alone cost $10,000.

— Quartermaster General Meigs has decided that no rent can be paid for property in rebel States even where the claimants are loyal and where Quartermasters have signed vouchers.

— Rev. W. A. P. Dillingham has recently been down the Mississippi to Natchez, and thence to New Orleans, to attend to some duties connected with the Treasury Department. In his opinion "but little true union feeling exists in the South."

— A fracas occurred in Cincinnati Saturday evening, between Captain Hine and Colonel Knott, the proprietors of the Planter's House, in which the latter was stabbed by the former, and is not expected to survive.

— The Charleston South Carolonian says that the negroes of that city, with their firearms, are exactly like a parcel of small boys when each has a new toy. They go popping about in the streets at the sparrows, at the pigeons, at the houses, at the fences, at the taces, at the air, and at the sky. Those who can't obtain lead, or who dislike to waste it, entertain themselves with firing blank salutes to the town. The Charlestonians are anxious to have the arms taken away from the jubilant darkies.

SMALL QUANTITY.—One teaspoonful of that world-renowned remedy, Coe's Dyspepsia Cure, taken after meal, will enable the most confirmed dyspeptic to eat anything he chooses, without fear of any distressing effects. It is a blessing to all who are troubled with diseases pertaining to the stomach and bowels.

The proprietor's of Coe's Cough Balsam say, take little and often. Doctor the throat and bronchial tubes, not the stomach. This is the secret of its success. It will not harm you to take it often, and every time you take it, you will see its beneficial effects.

PARTICULAR NOTICE.

Ladies will please to remember to attend the large Auction Sale at I. HAHN'S, 13 Market Street at 10 o'clock this A. M.

Look out for Big Bargains, as he has decided to close out his Whole Stock before he leaves this city for St. Louis, where he intends to make his future home.

SWEET LIPS is the pretty name of the princess in the fairy tale, and every lady may be a Princess Sweet-lips, if she chooses to use the fragrance-breathing Sozodont. This rare essence of innumerable aromatic herbs, removes every blemish from the teeth, gives a blush-rose tinge to the gums, and renders the mouth as pure and fresh as an infant.

Special Insurance Notice.

To my Friends and the Public:

Twelve years ago I was appointed Agent of the HOME INSURANCE COMPANY of New York, and have faithfully performed every trust and duty for the Company. Last week I received a note from Mr. N. A. CLARK, Special Agent, stating a change was to be made and the Agency to be transfered to another party. I at once thought what was in the wind, and left for New York to learn the cause, but before my return the change was made. I inquired why the change was made, as not a word had been said that all transactions were not satisfactory—and all the charges they brought against me were that the Company was making no money in Ports mouth, that the rates of Insurance were too low, and I was blamed for the late fires—the burning of Congress Block and Locke's Stable,

This same Special Agent, N. A. CLARK, spent several weeks in Portsmouth, examined all my risks that he wished to see, and generally called them very good; approved the risks of Preston, Shores and Salen, in Congress Block. Mr. Clark, at my request, went with me to Woodbury Locke's Stable on State street, and examined the premises and stock, and fixed the rate at 1½ per ct., a half per cent less than I had before insured him, and authorized me to take any reasonable amount Mr. Locke wanted insured. I acted under his instructions; and if insuring the Stable was the cause of the *fire*, the blame should be on Mr. Clark, and not on me—for I should not have taken it at that rate. Such is a true statement of the facts and all charges that have come to my knowledge.

I think the Home Insurance Co., or their Special Agent, N. A. Clark, has done me great injustice, after working for them for so many years; then, without any satisfactory reason or complaint, and without notice, give my hard earned labors to another man. I trust my friends and the public will withdraw their Insurance, and bestow it on me, where it rightfully belongs,—for I have several as good and responsible Insurance Companies as the Home, of New York.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know more of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstruction of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.50.

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. Price $1.50 per bottle.

Sold by Druggists everywhere.

"Great oaks from little acorns grow." The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove and elaborate these facts. Then guard yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. MAGGIEL'S BILIOUS, DYSPEPTIC and DIARRHŒA PILLS cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, MAGGIEL'S SALVE is infallible. Sold by J. Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they great mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for those discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

DR. T. ALLCOCK,—*Sir:* I have been suffering under a severe attack of *neuralgic disease* of my bowels for 7 years, with *hypertrophy of the heart* and have tried everything known to the practice of medicine from the very best M. D.'s: but truth prompts me to say that your plasters have given me more permanent relief than anything else I have used, and I believe will produce a perfect cure.

The counter-irritant effect of your plasters is produced in such a mild and gradual way, they so invigorate the circulation around the parts to which they are applied, and exert upon all nervous diseases such a great sedative influence, that I place them confidently at the head of every plaster now in use. ☞ The Lyceum of Tuesday evening was a very agreeable entertainment—consisting of Readings, or rather recitations by Miss Anna Louise Fitts of this city, and Geo. M. Baker, Esq., President of the Boston Mercantile Library Association. Little Aggie Plumer played a couple of pieces on the piano,—and she certainly does finely for such a wee bit of a thing; but a pity it is, that in this whole city, nobody *but* a child is available for such calls,—to play for an evening in public or private—at a dance, a party, or what not.

Miss Fitts was received with great favor, and acquitted herself with the fullest success, and to the complete satisfaction of the audience. We think we never heard a better reader. Her appearance is very prepossessing—modest, but entirely assured; her voice rich, strong and full; her utterance distinct and correct, and intonation varied and always agreeable. Her selections were very judicious; and she needs but practice and experience to render her a very superior declaimer.

Mr. Baker displayed great elocutionary and dramatic powers, and gave his part of the programme with fine effect—but the whole performance, taken together, was rather long; (and it is the besetting failing of our Lyceum Committee, to give us too much of a good thing, generally;) so the gentleman very gallantly cut from his list the Shakespeare selections—which he would have rendered so acceptably—in favor of the lady, who introduced another piece. We should not know where to find two readers superior to these; but either of them alone would have furnished a rich evening's entertainment. We hope to hear them both again.

☞ We are glad to learn from Mr. Jacob Haddock, the Recording Secretary of the Eight-Hour League, that "that body has extended a vote of thanks to Mr. Chas. W. Gardner, for his very able Lecture before them; and adds a request that he will deliver the same again at some convenient time, in a larger Hall."

☞ The eighth and next lecture before the Citizens Lyceum, will be on Monday evening, Feb. 5, by Rev. A. L. Stone of Boston.

☞ Duprez & Benedict's Troupe appear here Saturday evening. The bare announcement is enough to insure them a full house.

☞ A slight alarm of fire was caused at the West End last evening, by the light of a fire in Kittery.

SAVINGS BANKS.—The Concord Statesman, speaking of Savings Banks, says:

Few, even of the people of New Hampshire, know that more than eight millions of dollars are invested in savings' banks within our borders. They are institutions which did not exist among us prior to 1823, and nearly all of them came into operation within the last quarter of a century. Their early receipts were small, and deposited in only a few banks, but the present number is 29, situated in all the centres of business. The oldest is at Portsmouth, granted in 1823, with a perpetual charter. Its assets, according to the last report of the Bank Commissioners, amounted to $1,243,349. Its depositors in March, 1865, numbered 6461, and its last preceeding extra dividend was $78,191.77.

It is a noticeable circumstance that notwithstanding the inducements offered in greater interest on government and other securities, the savings banks not merely hold their own, but there was a large increase in the amount of deposits during the year reported upon by the Commissioners last July. This increase amounted to more than $200,000. The forty five discount banks of the State had a capital of $9 405,989.12; deposits of savings banks, $8,210,508.10; making a difference of only $1,195,481.02.

☞ The Congregational Church in Williamstown, Mass., was consumed by fire Sunday night. It was a wooden building and it is said was the largest church in Western Massachusetts. The fire is supposed to have caught from some defect in the heating apparatus. The commencement exercises for Williams College were held in this church, and to accommodate them, it was enlarged and remodeled a few years since. There is great folly in the careless or cheap arrangement of a furnace, so as to burn a good building. It should be made secure, by proper brick or iron work, on a scale *large* enough to bear heating in the coldest days. As some of them are actually arranged, they are mere firetraps.

—A bill has been introduced in the State Senate of Pennsylvania to repeal all acts authorizing the levy of a tax on real estate for State purposes. The condition of the finances of the Commonwealth, it is said, is so prosperous and the revenue from other sources is so large that this tax can be safely dispensed with.

[The prosperity is cause for rejoicing—but why *real* estate should not pay a tax as well as goods or money, we don't see.]

☞ It is said the Columbian Insurance Company of New York will resume business in a few days, and that the Directors should not have suspended.

PORT OF PORTSMOUTH.

Arr 23d, sch Spray, Johnson, fishing.

Ship Granite State, which arrived at New York from Callao, reports Jan 13, lat 28 30, lon 69 03, at daylight, fell in with steamer Louisa Moore, from New York for Morehead City, who reported: left New York 5th, and on 7th, when off Hatteras, was struck by a terrific gale from NNW to NW, with hail and snow, the sea making a breach clear over the vessel, and rendering the engine useless, was obliged to keep the ship before the gale, having no ballast, and expecting that she would roll over; was obliged to fill everything with water for ballast, and put all movables below. She was out of coal; supplied her with spare spars, sails, provisions, and empty water casks for ballast. She intended to proceed to St Thomas under sail; took from her Mr Matthew Smith, a passenger.

THE LIGHT OF THE WORLD.

DR. MAGGIEL'S

PILLS AND SALVE.

These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

Life-giving Pills!

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A Very Fountain of Youth,

Not in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged, they will prove most invaluable, as a purely, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever

AN ETERNAL SPRING!

It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.

These Famous Remedies

Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

FOR BILIOUS DISORDERS

Nothing can be more productive of cure than these Pills. Their almost magic influence is felt in the first perceptible concomitant—this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

DR. MAGGIEL'S PILLS

Invariably Cure the Following Diseases:

Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,

COTTON PLANTATIONS
FOR SALE.

We have for sale and ready for immediate occupancy some of the best cotton plantations in the very best cotton growing region of the south, with beautiful dwellings and all the buildings and machinery for cotton cultivation complete, and many with the laborers ready for work.—They will be sold with perfect titles for less than it cost to clear the land or erect the buildings.

Any of these plantations will pay for themselves and all expenses by a single crop, and must double in value within a year. To raise a crop the coming year, operations must be begun in January. To facilitate operations at once the company are prepared to purchase, manage and cultivate plantations for Northern owners without any charge to the purchaser, the expenses being paid from the net profits.

We also are prepared to negotiate for advances for growing cotton, giving a bottom mortgage with perfect title upon the entire plantation to secure the principal, and giving one-third net crop for the use of the money—the plantations being run under the supervision of our own agents, and cotton shipped to our order. These advances can be deposited with our agency in New York or Boston, and will be paid at maturity at the same place without expense.

Cotton at present prices will pay from 2 to 300 per cent on these investments, amply secured and perfectly safe.

We assure Northern men of perfect security in their persons and property in any locality where such purchases and investments may be made by us.

We believe no more favorable opportunity for investment for Northern men ever presented itself, and at the same time it will supply the necessities of the freedmen by furnishing them with remunerative employment, and will help inaugurate the experiment of free labor in the cotton fields of the south under Northern auspices.

Mortgages negotiated upon plantations for which 20 per cent. interest per annum will be paid absolutely, or one-third the net crop of cotton raised.

An agent of the Company will leave for the South on the 15th of January to make investments and attend to the management and purchase of plantations; until which time he can be seen at the office of the New England Agency, No. 46 Washington St., Boston, Mass.

Send for lists of plantations and prices, in any desired locality. Send for circulars. Call for letters of introduction to our agents in all parts of the south

S. Vance's Submerged Well PUMP.

This unsurpassed Pump, being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, and consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

A GIGANTIC REBEL.—An Abington (Va.) paper notices the departure from that place of "Baby" Bates, for his home on the Big Sandy. Baby is described as over seven feet high, weighs 341 pounds, twenty-eight years of age, and has a foot fourteen inches long. He served in the rebel army during the war, and, although as easy to hit as a barn door, he succeeded in escaping without a scratch.

— They have got a very nice dog down in Portland. He delights to play with the boys on the ice. One boy will take hold of the animal's tail, and some eight or ten boys will form behind the first one, holding on to the coat flap of each other, and the dog will then draw them on the ice swifter than any skater can glide. The other day one of the boys broke through the ice, and before his comrades could rally, the dog had pulled him out.

— A squad of police in Troy the other night made a most adroitly planned descent upon an innocent bank clerk who was employed in the safe at a late hour cancelling checks, they mistaking the "tapping" of his stamp for the noise made by burglars at work.

AMERICAN AND FOREIGN PATENTS

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,

78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS is THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and the specimens of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend all an inventor to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents. R. H. EDDY.

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabinis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUER,
Merchant, Curacoa, S. A.

New York, June 28th, 1865.

WE ASK

The suffering multitude in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

A HOUSEHOLD BLESSING!

HOWE'S SEWING MACHINE!

The Best Machine in the Market!

The people of Portsmouth and vicinity are respectfully informed that I have taken the Agency of the above beautiful Sewing Machine, and am now prepared to promptly supply the same, either by wholesale or by the single machine.

☞ *No Family can afford to be without one of these vast Labor-Savers.* ☜

Why is this the best Sewing Machine ever invented? Because—

1st. It is better made than any other.
2d. It runs with less noise.
3d. It is much less liable to get out of order.
4th. No other Machine works so small a needle.
5th. It is the cheapest Machine, because the best.
6th. It has improvements over every other Machine.

The better the work performed, the better the price obtained; hence that Machine which produces the best work is the most profitable.

FOR FAMILIES,
MERCHANT TAILORS,
BOOT AND SHOE
MANUFACTURERS,

The Howe Machine Stands Unrivaled.

☞ Every Machine will be kept in order ONE YEAR WITHOUT EXPENSE TO THE PURCHASER.

Many Ladies earn from $1.50 to $5.00 per day in running these Machines.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate sufferer remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

ARMY CLOTHING AND EQUIPAGE.—The government has stored in what was Armory Square Hospital, at Washington, 450,000 pairs army shoes, one room full of boots, 70,000 jackets, 150,000 shirts, 60,000 pantaloons, 80,000 overcoats, 35,000 axes, 25,000 shovels, 40,000 shelter tents, 75,000 knapsacks, and similar immense quantities of other articles of clothing and camp equipage. The whole is valued at about $15,000,000.

LIBERAL GIFT OF JAY COOKE, THE BANKER.—The Episcopal Recorder learns that Mr. Jay Cooke has made a princely New Year's present to the Divinity School, in the offer of eight acres of land, in an admirable location near Cheltenham, Pa., together with an endowment of money which will make the whole donation equal to $50,000.

— "The wonder of the age is now living at No. 4 Bremen place, East Boston." This "Wonder" is an infant (our informant does not give the sex) five months old, weighing only three pounds. When born this tiny copy of its parents, who are represented as stout and healthy people, weighed only twenty one ounces. The child is well formed and healthy.—*Herald.*

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore and Cincinnati. The soil is rich and *productive*, varying from a clay to a sandy loam, suitable for Wheat, Grass, Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased by thousands of people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of a thriving community have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of SOLON ROBINSON, Agricultural Editor of The Tribune: *It is one of the most extensive fruit tracts, in an almost level position and with the condition far pleasant farming that we know of this side of the Western Prairies.* nl—dawów

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, JANUARY 26, 1866.

THE FREDONIA AND CAPT. BURKE.—The Boston Journal says, the amount of subscription to the fund raised to express the general approbation of the public to Capt. Burke for his noble conduct in saving the crew and passengers of the "Gratitude," has reached the sum of about twenty thousand dollars. It has been decided by the committee appointed at the meeting of merchants, to give five thousand dollars to Capt. Burke, six hundred to his first mate, five hundred dollars to the second mate, and two hundred dollars to each of the crew. The balance will be reserved to make good the loss sustained by the owner of the Fredonia for merchandise thrown overboard that the shipwrecked men and women might be accommodated. The promptness with which the sum has been raised and disbursed is gratifying, and every way creditable to the merchants who so freely contributed.

IN THE U. S. SENATE, Jan. 24th, Mr. Davis offered an amendment restricting the operations of the Freedmen's Bureau to the States and localities where the civil law is not in operation. Also to strike out that section of the original bill which authorizes military jurisdiction over the employees and agents of the Bureau. To strike out the section providing for the purchase of houses for freedmen. And to strike out that portion of the bill which confirms the titles given by Gen. Sherman to the Sea Island lands for three years. He also opposed the bill.

The Senate negatived all these motions separately, by 10 to 32.

Mr. McDougal offered a substitute providing that the President be authorized to execute the laws now in existence for the benefit of freedmen, and use such military force as is necessary.

Mr. Davis offered two other amendments which were negatived. The question was then taken on Mr. McDougal's substitute, which was lost—8 to 32.

Mr. Davis then rose to speak on the amendments to the bill. A motion for an adjournment was decided in the negative. He proceeded, when an understanding was agreed to that the vote be taken at 3 o'clock Thursday.

WASHINGTON ITEMS.—A carefully taken census shows that Washington has 23,000 colored residents.

The interview Tuesday between the colored delegation and Gen. Howard, of the Freedmen's Bureau, was very satisfactory to both parties. He expressed to the delegation his sincere desire to have the co-operation and support of the leaders of the colored people in his efforts to benefit the freedmen, with a view to the best interests of all parties, and that they must not rely too confidently on newspaper reports. His conviction was that all citizens should be equal before the law; that, as in military generalship, if driven from one position and forced to retreat, it would be to the next tenable position, which he would fortify and defend for the right until compelled by superior force to yield it.

— Artemus Ward has had a most successful season in New Orleans.

— A diamond fever is raging in Paris, which has extended to every class of female society.

— Crosby's opera house in Chicago having been built from the profits of the wholesale whiskey trade, a paper in that city says "it is cemented with the tears of drunkards' orphans, and has a barrel of hell-fire for its corner-stone!"

— A swindler recently "did" the oil brokers in Philadelphia out of several thousand dollars, by employing one broker to buy and another to sell the same stock. He put up a margin of $1000 with one broker, and received through the other the cash for sales. The difference was a handsome profit to him.

— A Washington dispatch says encouraging reports have been received from the Freedmen's Bureau of Florida relative to the rapidly improving condition of the negro. Most of the crop had already been gathered. As a general thing the freedmen have been promptly paid their wages.

— Senator Creswell of Maryland, is the authority for the statement that returned rebels in that section of Maryland known as the Eastern Shore have organized with deliberate intent to drive out all freedmen. Numerous outrages have already been committed upon them. Five negro soldiers have been killed in Worcester County.

— The Reconstruction Committee have another Constitutional Amendment before them proposing to secure to citizens of all the States the same political rights and privileges in regard to suffrage, liberty and property. The Committee heard the evidence of General Hatch on the condition of things in South Carolina. It was generally unfavorable.

Correspondence of the Chronicle.

WASHINGTON, Jan. 22.

Mr. Editor:—Just at this time, when so many are agitating the question of emigrating from New England and the North generally, to various parts of the South, whose beauties and attractions have been made patent by the rough hand of war, it seems to me peculiarly appropriate to call attention, through your columns, to the unrivalled advantages afforded for success and commercial prosperity at Baltimore.

You are of course aware that it is the fourth city in the country, and enjoys a remarkable capacity for expansion. It commanded, before the rebellion, a very extensive trade with the South and West, and a considerable foreign commerce, which the war almost destroyed for the time being, although a fraction of the Western trade was preserved by the indefatigable exertions of the Baltimore and Ohio Railroad Company, who kept open communication to the Ohio river, in spite of frequent and most discouraging *raids* upon them by the flea-like Mosby.

Business thus nearly dead for so long a time, has now revived again; business men who were driven away to seek other openings, are returning; the city has commenced once more to expand; property has increased in value very largely, and is still rising; and every indication betokens a rapid and healthy growth in all respects.

There is no other place in the country that possesses the same advantages of location, as will be manifest from a glance at the map. It is the centre of a very complete and admirable system of railroads which bring it equally near to New York City, Northern New York, Western Pennsylvania, the Ohio River and Richmond. It is within a little more than an hour's ride of this city, and, as it were, holds the keys of the only door we have for the admission of everything we need, even to food and clothing.

The roads which centre there tap some of the most productive regions of the country, so that the markets teem with the greatest abundance of all sorts of produce, at reasonable rates.

The climate is as near the middle ground, where perfection always is, as can well be. The winter is mild and pleasant, and no part of the year is uncomfortable, except a few weeks in summer, which are warmer than we are used to in New England, but not so enervating as the climate of Norfolk, or even Washington,—for Baltimore lies mostly on high ground, where the air is freer, and exempt from the malarious influences which surround those other cities. If it is objected that Baltimore is a city of mobs, and ruled by the "plug-uglies," and others of that ilk, I am happy to assure you that the war proved, in *that* respect at least, a most salutary measure. These ruffians *did* in years past rule the city most despotically, and I can personally vouch for the unprepossessing appearance of their "mass-meetings," one of which it was my fortune to witness, on the occasion of the expected arrival of Mr. Lincoln on his way to the Capital, to be inaugurated the first time. There have been many contradictory views expressed of that demonstration, but I can hardly conceive how one who witnessed the affair could for an instant doubt that harm was meant the President.

But let that pass; the mob no longer holds sway. It is so completely humbled that I am willing to put the order of the city in comparison with that of any other place of *any* size in the land. The war drew off the refuse population; and the good citizens, of whom there were always a goodly body, and a large sprinkling, too, of Yankees, took advantage of the opening, grasped the reins of government with a determination to redeem their city once and forever.

I may mention as a single item of improvement, the observance of the Sabbath there, which is so grateful to a New England man resident at Washington, and accustomed to the disregard of it so prevalent here, and so fashionable in many of the Southern cities.

Aside from these considerations, however, which I own to be potent with myself, I wish to lay especial stress upon the unsurpassed commercial advantages of Baltimore, particularly with the South and West. With the former because it is more than 200 miles nearer than New York, and is the natural centre which the merchants of the South will not pass by if it will supply their wants. With the latter because the Baltimore and Ohio Railroad and its connections afford the most direct, ready and reliable outlet to the sea from the Ohio river, and even from the Mississippi, in the latitude of St. Louis.

Even for the transit of merchandise from New York and Boston westward, the plan of shipping it to Baltimore by sea and thence by rail, is even now extensively adopted, and will be so still more when its advantages are fully appreciated. There is already a weekly line of steamers running back and forth to Boston; and a new line of steamers to Liverpool direct has been put in operation by the Baltimore and Ohio Railroad, doubtless with a view to their own benefit, but with a far-sighted conception of the capabilities of the city for advancement—a just appreciation of the opportunity, and a patriotic desire to *make* Baltimore the market which I have attempted to show that she can become.

Transportation by water is far cheaper than by land,—and those who have it to pay for will not be slow to appreciate the advantage of having their goods landed at the very foot of the Alleghanies, with the same cost (or very nearly), as at New York, upwards of 200 miles distant. The same considerations will not fail to have their weight with those who shall at some future day open the rich mines of Western Virginia, and with the pork and produce dealers of the West.

I cannot omit finally to speak a word for the people of Maryland, who are pursuing without hesitation the enlightened policy which has characterized all the loyal portion of them ever since the State was redeemed from the hands of those who would have plunged her into the vortex of secession. They were the first to deal a death-blow to slavery in their own borders, almost the first to ratify the anti-slavery amendment, and are now among the most urgent and faithful advocates of education and the advancement of science and art.

Flattering inducements are offered to strangers. All who come with honest industry are welcome, and every walk in life presents opportunities but rarely found.

I hope the invitations will not pass unheeded. P.

THE BANISHED CONSPIRATORS.—The latest intelligence from the Dry Tortugas says that Dr. Mudd, Spangler and O'Laughlin, the Lincoln assassination conspirators, all occupy one room, and are apparently in good health. They do the most menial and degrading work about the prison. Dr. Mudd has behaved with exemplary propriety since his failure to escape some time ago, and is evidently striving to reinstate himself in the good opinion of his custodians and his former easy and agreeable place in the prison hospital.

ARMY OFFICERS TO ACT AS FREEDMEN'S AGENTS.—The War Department has assigned fifty officers of the late Veteran Reserve Corps to duty under General Howard. It was found absolutely essential to give him an increased number of military men, of whom to make agents in various sections. The plan of making citizens such agents has not been very successful in any State, and in several is a practical failure.

☞ R. S. Cox was one of those who went from Georgetown into the rebel service, where he was in the Pay Department. His estate was confiscated, and was occupied by the Ladies' Colored Home Association, who had for a time Miss Peabody of Boston as Manager. Since peace was conquered a brother of Mr. Cox, who is a clerk in the State department, obtained his pardon, but before the papers were perfected the ladies heard of it. Pardon would restore him his estate and turn the colored children out of doors, and the ladies declare that this must not be done.

THE FREEDMEN IN ALABAMA.—A law has just gone into effect in Alabama, which makes it unlawful for any freedman, mulatto or free person of color to own firearms or carry about his person a pistol, with a penalty for the offence of three months' imprisonment or a fine not exceeding one hundred dollars. Any person guilty of giving a negro a gun, or pistol, or any ammunition, is also subject to the same penalty.

HORRORS OF THE COOLIE TRADE.—The London and China Telegraph of the 4th inst., says:

"Of the thirty ships now lying at anchor in the harbor of Macao, sixteen are chartered for Havana with slaves. All these vessels will, as is the custom, ship a number of coolies in excess of their contract, in order to have the means of supplying the places of those who may die on the voyage. It is curious that no one has, as yet, found out why so many of the coolies lose their sight on the voyage. Out of a cargo of 500, forty will be completely blind before they arrive at their destination; and as according to the terms of the charter party, the barracoon owner will only pay for and receive those who arrive in possession of their eyesight, the unfortunate blind are probably cast into the sea or landed upon some desert island, for the Government will not permit any Chinaman to live in Havana unless he belongs to a master."

☞ At New York, Jan. 24, the detectives arrested Albert Beach and William Golden, two young men formerly in the employ of the Erie Railway Company. They are charged with a succession of robberies on the trains of that road, amounting to over $10,000. A large amount of the stolen property has been sold to citizens of Port Jervis, which has been seized, and is held for identification.—Another of the murderers of Otero, the Cuban, named Pellicier, the accomplice of Gonzales, was found guilty of murder in the first degree.

☞ By the latest steamer from Liverpool, via Londonderry, it was reported that twenty-one armed Fenians had landed at Sligo, and were immediately arrested.

Light! Light! Light!

PHOTOLEUM.

This is a new discovery, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *excellent, safe* and *valuable* illuminating oil ever before the pub lic, giving a *soft, steady* and *brilliant* flame, surpassing even gas-light for reading and leaving all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* emits no sickening odor when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it char the wick or smoke the chimney, so that once trimming will suffice for a week or more. Photoleum produces a flame that does *not diminish*, but continues the same until every drop of oil is consumed. It is, therefore, very desirable for lighting churches, railroad and horse cars, manufactories and public buildings. The public are invited to call and examine.

Manufactured and for sale by the AMERICAN PHOTOLEUM COMPANY. Office at C. F. WYMAN & CO.'S, 57 Water Street, Boston.

☞ For sale in Portsmouth by BAILEY & GLINES, 7½ State St., at wholesale and retail. eodim*—1tw

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world. for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen law, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.00.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (inclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Special Notice.

"*Great oaks from little acorns grow.*" The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical faculty could not be told to prove and elaborate these facts. Then guard yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. MAGGIE'S BILIOUS, DYSPEPTIC and DIARRHEA PILLS cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, MAGGIE'S SALVE is infallible. Sold by J. MAGGIEL, 43 Fulton street, New York, and all Druggists, at 25 cents per box. doeteod4w ly

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot, and Leutigo,) is a disfigurement, and often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy entirely out of disease, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists, price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

ALLCOCK'S POROUS PLASTERS.—These plasters have the compactness of kid leather and the flexibity of a silk glove. They have cured varicose veins and external aneurisms. For all affections of the chest, weight about the diaphragm or upper portion of the bowels, in colds and coughs, for injuries of the back, for all strains or bruises, for a weak back, for nervous pains of the bowels, and other nervous affections and cramps, for heart affections,—in all these cases they have to be used to be properly appreciated.

DR. I. T. HENDERSON'S LETTER.

Farmville, Louisiana, March 8, 1850.

DR. T. ALLCOCK,—*Sir:* I have been suffering under a severe attack of *neuralgic disease* of my bowels for years, with *hypertrophy of the heart* and have tried everything known to the practice of medicine from the very best M. D.'s: but truth prompts me to say that your plasters have given me more permanent relief than anything else I have used, and I believe will produce a perfect cure.

The counter-irritant effect of your plasters is produced in such a mild and gradual way, they so invigorate the circulation around the parts to which they are applied, and exert upon all nervous diseases such a great sedative influence, that I place them confidently at the head of every plaster now in use. Yours, very truly,

☞ Mr. LaFayette Laighton, (in whose nice discrimination in the grocery line, *we* have as full confidence, as *he* has in the effect of advertising in this Chronicle—each having tested the other through a long series of years,) offers another of his short and pithy discourses on his special subject, in his new advertisement this morning. We commend it, and his No. 44, to all who like good goods—and if one thing we are sure, and that is, nobody can buy or sell better Figs than Fayette Laighton; the drum we have before us, are like Jeremiah's of old—only these *aren't* "old," but are "very good indeed," and we wouldn't give a fig for anybody's opinion who don't like figs.

☞ Our most fragrant thanks to Mrs. John P. Hart for several handsome bunches of Isabella Grapes, fully ripened, and which retain their flavor very finely for the season.

To Capt. Wm. Day, also, are we indebted for similar favors in the fine fruit line. Both Mr. Hart and Capt. D. take much pains with their home gardens; and it must be our excuse for bringing them before the public, that we wish to incite others who have a little spot of ground, to make the most of it, and add to the attractions of home, by sticking down a pear tree or grape vine wherever they can—which they will find will repay them well for all trouble.

☞ To Messrs. Brewster & Co., the great Broadway Street Wagon builders of New York—whose carriages sweep the road of all competition, as a bran-new broom cleans the kitchen—we are indebted for a couple of splendid colored Engravings, one a picture of Hiram Woodruff's tavern "Shed," with the flying trotters and their drivers, and the other a portrait of the world-renowned stallion "Hamfletonian." We wish Mr. Cobb or Mr. Brown would fit fitting frames for 'em.

☞ Forty dollars or so, spent on a tasteful Weather Vane, adds more to the appearance of an estate, than five times the amount laid out in almost any other way. For example, see the new gilt Eagles flying over Mr. Parrott's stable, on State street, and the new barn on Lincoln Hill; and the "Ethan Allen," so *much* like the old horse himself, laying down to his work, over the stable of Mayor Bailey on Middle street. Messrs. Jewell & Co.'s advertisement tells the best place to procure such elegant and useful ornaments.

☞ Among the private teams in the city, we notice a couple of very neat double bitch-ups, in the span of black ponies of Mr. Richard Hilton, and the fancy-match pair of John L. O. Colman. Both are live men and bound to thrive, and we like to see them enjoy themselves.

☞ We hear that the Peach trees in Col. Clement March's conservatory, at Greenland, are almost in full bloom; and, with the Colonel's permission, we hope to get a peep at them before they wither.

THE SNOW STORM of Thursday extended all over New England. Snow began to fall in Washington, D. C., Wednesday night.

☞ The meeting of the Unitarian Ladies' Missionary Society, postponed from Thursday on account of the weather, will be held this (Friday) afternoon at half past 2 o'clock, at the Chapel on Court street.

PHOTOLEUM.—This new illuminating oil, we are happy to say, is meeting that success which it so well merits. It combines in itself the excellencies of all other known artificial lights, and excels each in its best quality. Nothing better has ever been found for family use, and it is equally valuable for lightning balls, factories, cars, &c. Its light does not gradually become dim from charring the wick, nor does it, when burning low, fill the atmosphere with smoke and foul odors, as is the case with most other burning oils.—It burns clearly and brilliantly, without fattening, to the last drop. Its purity renders it excellent for the sleeping chamber and sick room, while for its steadiness and brilliancy it is invaluable to the student who burns his midnight lamp. So great is its superiority, that wherever it has been once used there has been found no desire to return to the old lights.—*Boston Journal.*

This new Oil, which "comes highly recommended," it will be seen is advertised in this city, by the new firm who occupy Mr. R. K. Oxford's old stand.

☞ Those comical geniuses, Duprez & Benedict's Minstrels, give an entertainment to-morrow evening, when their hosts of friends will be glad to welcome their return.

☞ The Anti-Registration Law Convention, composed of delegates from all the counties in the State, met at Baltimore Jan. 24. The President, Montgomery Blair, made an address to the Convention, condemning the efforts to elevate the negro. He also entered warmly into the question of registry, and expressed the opinion that the Union party themselves in that State would soon be compelled by their own honest convictions to go in for a general movement for the rights of their fellow citizens in other States. His remarks were frequently interrupted with applause.

THE PRICES OF NEWSPAPERS.—Those who grumble at paying four cents for daily and ten cents for weekly papers here, would do well to notice what European papers cost. The London Times cost forty-five dollars a year. The Morning Chronicle, Daily News, Globe, Herald and Post charged the same rate. The London semi-weeklies twelve dollars. The French daily papers, large ones, are about the same price as the London prints. Those about the size of our pennies cost twenty and twenty-five dollars a year. The German papers cost from twenty-two to thirty-two dollars a year.—*New York Citizen.*

Any of these plantations will pay for themselves and all expenses by a single crop, and must double in value within a year. To raise a crop the ensuing year, operations should be begun in January. To facilitate investments at once the company are prepared to purchase, manage and cultivate plantations for Northern owners without any charge to the purchaser, the expenses being paid from the net profits.

We also are prepared to negotiate for advances for growing cotton, giving a bottom mortgage with perfect title upon the entire plantation to secure the principal, and giving one-third net crop for the use of the money—the plantations being run under the supervision of our own agents, and cotton shipped to our order. These advances can be deposited with our agency in New York or Boston, and will be paid at maturity at the same place without expense.

Cotton at present prices will pay from 2 to 300 per cent on these investments, amply secured and perfectly safe.

We assure Northern men of perfect security in their persons and property in any locality where such purchases and investments may be made by us.

We believe no more favorable opportunity for investment for Northern men ever presented itself, and at the same time it will supply the necessities of the freedmen by furnishing them with remunerative employment, and will help inaugurate the experiment of free labor in the cotton fields of the South under Northern auspices.

Mortgages negotiated upon plantations for which 20 per cent. interest per annum will be paid absolutely, or one-third the net crop of cotton raised.

An agent of the Company will leave for the South on the 15th of January to make investments and attend to the selection and purchase of plantations; until which time he can be seen at the office of the New England Agency, No. 46 Washington St., Boston, Mass.

Send for lists of plantations and prices, in any desired locality. Send for circulars. Call for letters of introduction to our agents in all parts of the South

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supercede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction and the fact that it is always submerged continue to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 21 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

ISRAEL MARDEN & CO.,
39 Congress Street.

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILES of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony their excellence.

Portsmouth, Oct. 16th, 1865.

Morning Chronicle.

— A keen customhouse official at Calais saw a woman crossing a bridge with a bundle in her arms. "What have you there?" he demanded. She hesitated, stammered, and then said "nothing dutiable." He insisted on seeing it, she resisted, a struggle ensued; at last she yielded and placed the bundle in his arms, saying, "take it then, and much good may it do you." Then she returned to St. Stephen, whilst he made for the light to examine his treasure, which proved to be an infant a few days old. The mother remains undiscovered, and the child remains on the hands of the official.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1836,

78 State Street, opposite Kilby Street,

BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and opinions given on advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting the Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE, than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and trustworthy* practitioners with whom I have had official intercourse"

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a person *more competent* and *trustworthy*, and more capable of putting their application in form to secure them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now *pending*. Such uninterruptable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen. I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabinlis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUER,
Merchant, Curacoa, S. A,

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

Bradstreet's Weather Strip Company

No. 57 Washington Street,
BOSTON, MASS.
J. R. BRADSTREET,
jy12—8m GENERAL AGENT.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the direst alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with private rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail: Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CHEROKEE CURE,

THE GREAT

INDIAN MEDICINE,

Cures all diseases caused by Debauchery, viz:—*Spermatorrhea, Seminal - Weakness, Night - Emissions, Loss of Memory, Unfitness, Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption* and all diseases that follow as a sequence of youthful indiscretions.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Tropical Swellings, Brick Dust Deposits,* and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females.* The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $2, Three Bottles, $5.
Injection, " " " $2, " " $5.

The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggist will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to find relief elsewhere. Ladies or gentlemen can address us in *perfect confidence.* We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

HENRY A. WISE.—This person was present before the Mayor's Court in Richmond last Saturday, to defend a certain firm for selling liquor in an open bar-room after ten o'clock at night, in contravention of law. In opening his defence the ex-Governor of Virginia and ex-rebel commander said:

"It may appear like affectation in a man of three score years to say that he feels embarassed in appearing before a subordinate tribunal to discuss a city ordinance. I do feel so, sir. Ever since my arms were stricken down in April last, I have done nothing. I did not know that I would be allowed to speak. I have taken no oath; I have asked no pardon; I do not mean to do so. I will speak if I die. I am a wanderer in this city. I cannot call myself even a sojourner here. But, sir, Virginia is now, as she ever has been, my sovereign. You, sir, are the *pater civitatis*. O God! where is the *parens patriæ!* I come here to-day to speak for liberty. I leave morality to the churches. Sir John Barleycorn is free, if no one else is free. He takes to his embrace the high and low, the most eminent men. Aye, sir, sometimes ladies, too—ladies in high social positions. In construing a law you must stick to the very bark *in favorem libertatis*. What attracted me most in coming here to-day, was to appear once more before one of the tribunals of my native State."

What a *noble* spectacle have we here, in this *Wise* F. E. V.,—ex Governor, ex-Congressman, exrebel General, pleading for free rum at midnight; in other words an advocate of drunkenness and disorder. He "leaves morality to the churches"—and he ought to have added, "Reason has fled brutish beasts, and men have lost their reason." Poor, pitiable, old driveller. U. T.

☞ The following is a copy of a joiner's bill for jobbing, in a Catholic church in Bohemia:

"For solidly repairing St. Joseph, 4 d; for cleansing and ornamenting the Holy Ghost, 9 d.; for repairing the Virgin Mary before and behind, and making her a child, 5 s.; for furnishing a nose for the devil, putting a horn on his head, and glueing a piece to his tail, 4 s. 6d."

— A project for an International Telegraph Line by way of the coast of Florida, Cuba, the West Indies, &c., is expected to be before the Committee on Commerce soon and to receive a favorable consideration.

— The Worcester Spy says, W. Eugene Thayer, the organist, now in Europe has, we learn from a German paper, just been offered the situation as organist in the great new church of Berlin. This church, just completed, is one of the finest in Europe, costing nearly three million of dollars, and the organ, which is in keeping with the church, is new, and one of the largest and finest in Germany. He has the privilege of accepting the offer any time within a year. Should he choose to accept he will hold the position for life

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthy climate, twenty miles south of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and productive, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a great fruit country. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved Places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered and free the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* nl—dawtm

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JANUARY 27, 1866.

IN THE U. S. SENATE, Jan. 25, a bill was introduced, and referred to the District Committee, repealing the acts incorporating the cities of Washington and Georgetown, declaring their legislative powers to be exercised exclusively by Congress, and providing for the appointment of three District Commissioners by the President, a Solicitor, Treasurer, Engineer, Surveyor, Board of Health, Police and Education and other officials.

The bill to enlarge the powers of the Freedmen's Bureau was taken up.

Mr. Davis made a speech in opposition. Mr. Sherman suggested a postponement of action until a letter from the Gov. of Carolina was laid before the Senate, relative to the land titles given by Gen. Sherman.

The bill was then passed, 37 to 10; only Saulsbury, Buckallew, Davis & Co. voting nay.

The bill to protect all persons in the enjoyment of their civil rights was taken up.

The HOUSE hammered away at the proposed constitutional amendment, which cannot, from present indications, receive a two-thirds vote, and which will probably be recommitted. The reasons which prompt so many Republicans to oppose the amendment reported by a committee, a majority of which are Republicans, were well stated by Mr. Eliot,—and are briefly summed up in the remark that the Amendment might be so construed as to sanction an oppressive aristocracy.

Twenty-five thousand copies of Gen. Grant's and Mr. Schurz's report on the condition of the South were ordered to be printed.

WASHINGTON ITEMS.—It is understood that the House Committee on Freedmen's Affairs will soon report a bill establishing impartial suffrage throughout the Southern States by Federal law.

Petitions from some of the States recently in rebellion, have been received by the President, asking on behalf of their signers, who are represented as "Union men," that they may be protected against the usurpations and proscriptions of the dominant majority in those States.

Senator Creswell, of Maryland, is the authority for the statement that returned rebels in that section of Maryland known as the Eastern Shore, have organized with deliberate intent to drive out all freedmen.

KILLING OF YANKEES.—A Charleston correspondent of the New York Post says that at George's Station on the South Carolinian Railroad last week, a doctor named Wolf entered the train, and seeing a Federal captain in uniform, began a tirade against him, stating, among other things, that "he had killed off as many Yankees as he could." When asked to explain, he added that "there were many Yankees who came into the hospital in his care, and he took measures they never should get out alive." This murderer was not interfered with.

☞ Mr. A. C. Van Tine, a gallant soldier of Ohio, who has been nominated for Recorder by the Democrats of Sandusky County, declines the nomination with the following spicy comments:—

If I had remained at home during the last four years of rebellion, fighting the government by word and ballot, plotting the death of friends and the overthrow of liberty; if my name were Vallandigham, Booth or Wirz, they might have had a pretence, but I don't drill in that squad; I have been a soldier, I have seen Belle Isle and Libby Prison, and as they (the Democrats) did not yield their support in time of need, I reject their love now.

MURDER.—A letter from Mississippi says that on the 6th inst., Gen. T. C. Osborn, who helped to raise the 39th Illinois regiment, and who was promoted to be Brigadier General for meritorious conduct, was murdered by a body of citizens on his plantation near Greenville, Miss. He had been notified previously by a self-constituted committee of citizens that he had twenty-four to leave in, and if found there after that time he would be killed. He stayed on his plantation, and was assailed and shot as above stated.

☞ In New York city, on Thursday evening, the first of a series of public centennial meetings commemorative of the introduction of Methodism in this country, was held. Secretary Harlan presided, and he and Bishops James and Thompson and Rev. Dr. McClintock delivered addresses.

— The London Times and other journals attribute the pressure in the money market to heavy exports to America one redit, and warn shippers against such proceedings. Letters are published from commercial men refuting such arguments, showing that the remittances have been most prompt, and that heavy cotton receipts are not off against exports.

— Stephen S. Wardwell completed his fortieth year of service as Cashier of the Eagle Bank, Providence, on Tuesday.

NEW HAMPSHIRE ITEMS.

—— Frank H. Davis of Laconia, who was stabbed at Lake Village on Christmas evening, died on the 12th inst. The perpetrator of the deed has fled the State, nothing having been heard from him since the deed was committed.

—— A hotel thief, calling himself John Travers, has been stealing overcoats from public houses in Fisherville and Manchester. The City Marshal of Concord has taken care of him for the present.

—— At a recent wedding feast in Bedford, a pumpkin pie was brought in, measuring 5 feet 2 inches in circumference. It was cut into 58 pieces, and distributed to the guests.

—— Thomas Appleton, of Lake Village, has purchased the old Steam Saw Mill at that place, and is converting the same into a Hosiery Mill, to be run by steam power.

A STRANGE WEDDING.—The St. Louis Democrat says that, a few days ago, Chas. Moritz, a returned soldier, being anxious to marry and settle down, offered an acquaintance $50 provided he procured him a person of whom he might make a wife. The bargain was struck, and Moritz's friend and a few others determined to work a practical joke on the bachelor. They had a boy dressed up in women's clothing introduced to Moritz, who was pleased with the look of the bargain, and arrangements being made to that end, a confederate joker married the pair, and received $5 from the happy bridegroom for tying the knot. He also paid over $70 for the wedding supper, and gave his bride a handsome present in money. The sudden illness of a sister called the bride away from the wedding feast, and she did not return. Next day Moritz set out to hunt her up, when he was told the whole affair was a farce. He did not so discern the matter, and the parties to it are in jail for trial on a charge of swindling.

FENIANS FLOGGED. — It seems that O'Donovan and Lynch, the Fenian convicts at Dartmoor prison, do not take to their fate very kindly. The Cork (Ireland) Constitution says that the morning after their arrival there they were ordered to begin the washing of their cells, but they refused. They were then shown into a dark room where they took to cursing the Queen and execrating the tyranny of British rule. For this they were taken out and had twelve lashes administered on their bare backs by a Crimean practitioner acquainted with the shortest cut to the sensitive part of the system. Under this they winced and yelled, but whether it reconciled them to the discipline of the prison, and whether they went heartily to work the next morning, washing and scrubbing, was not known.

A PICKPOCKET WHIPPED BY A STOCK BROKER.—A stock broker in the city while engaged in conversation with a friend in the Stock Exchange, Tuesday afternoon, observed a fellow attempting to pick his pocket. Being a muscular man he seized the thief by the coat collar and pummelled him with his fist until the rascal was nearly senseless and resembled a used up prize fighter. After this punishment the thief was taken into custody by the police. He will be likely to avoid the bulls and bears of the stock exchange in future.

— In New York, a suit has been commenced against A. S. Mercer by one of the disappointed female emigrants to the Pacific. Damages for detention are claimed, as well as $300 passage money paid, and $200 worth of furniture put on board the Continental.

— As there was ballot stuffing in every ward in Newport, R. I, on voting for or against the purchase of a steam fire engine, the city authorities have declared the affair null and void, and called for another trial of the question.

— It is announced that Gens. Sherman, Sheridan, Thomas and Meade will assemble in Washington next week, for consultation with Gen. Grant and the Government authorities relative to the condition of affairs in their respective Departments.

— At Pittsburg, Pa., Jan. 25, Rev. John Barrett Kerfoot, Bishop elect of the new diocese of Pittsburg, of the Protestant Episcopal Church, was consecrated in Trinity Church in the presence of a large congregation.

— The price of butter in various places has declined to 40 cents. Many farmers who looked forward to the receipt of sixty cents for it, and who refused forty-eight, are constrained to sell at the first-named price.

— Gov. Orr of South Carolina has sent a special agent to Washington to confer with the authorities on the condition of affairs in that State, which are represented as unfavorable.

— A large lot of potatoes sold by auction at Worcester, Mass., on Tuesday brought eighty five cents per bushel.

— "How is your husband, dear?" asked one lady of another. "Oh! he is in a very bad state," was the reply. "And, pray what kind of a state is he in?" persisted the other. "In State Prison."

☞ Eli Woodell, of Little Compton, R. I., has not tasted either rum, gin, wine or brandy for the last 50 years, although he has been a sailor, and generally a common sailor, for 43 years. He has made nine whaling voyages, served several terms in the U. S. Navy, and made many other voyages. He is now 61 years old, never was shipwrecked or ran away from a ship, and never sailed under any other flag than the Stars and Stripes.

☞ At a meeting of the stockholders of the Columbian Marine Insurance Company in New York, it was estimated that the Company's assets are sufficient to discharge all its liabilities and leave a surplus of over a million dollars, and it was unanimously resolved to institute measures for resuming business with a capital not exceeding $2,000,000.

☞ A special dispatch from New Orleans to the Tribune, dated the 24th, says Gen. Crawford was arrrested on the night previous on board the steamer Continental, bound to New York. He was arrested by the chief of Gen. Sheridan's scouts, and was immediately taken to Fort Jackson.

☞ The Ways and Means Committee have indefinitely postponed Sec. McCulloch's financial bill, being unable to agree on it. They will report a new one.

☞ Steamer Continental, with the female and other emigrants, bound to the Pacific, put into Hampton Roads, Jan. 22, on account of rough weather.

DEATH OF FREDERIKA BREMER.—News has been received of the death of Frederika Bremer, the Swedish novelist, but no particulars accompany the announcement. She was born near Abo, in Switzerland, in 1802; consequently she was in the sixty-fourth year of her age.

ALABAMA.—Over five hundred original Union men of Alabama, noted for their unswerving fidelity to the national cause, have forwarded a petition to Washington, setting forth that they are proscribed in that State as "traitors to the South," and deprecating the withdrawal of the Federal troops from that State.

RAILROAD ACCIDENT. — Mr. James Clark of Vassalboro', brakeman on the freight train of the Portland and Kennebec Railroad, was killed yesterday at Dresden. He was going from the engine to the cars, and slipped between the tender and the cars, falling on the track, and the whole train passed over him. He must have been killed instantly. He was an unmarried young man, about twenty-one years of age, and brother-in law of Mr. Jewett, conductor of the freight train.—*Portland Press, 24th.*

☞ Sir John Gray, recently elected to Parliament from the city of Kilkenny, Ireland, although a protestant, is editor of the Freeman's Journal, a leading Catholic paper in Dublin. In a recent speech, Sir John told his constituents that he should do his best to unite the liberal Irish and English votes in Parliament for the removal of that central root of bitterness, the Irish Protestant Church establishment, the church of only 11 per cent. of the population, which for three centuries had been saddled upon the great majority of the people as a badge of servitude.

☞ The pressure for dwelling houses in St. Louis is so great that newspapers are demanding that the owners of gambling and assignation houses be cleared out, and their property put at the disposal of the decent people who want house-room. The St. Louis Democrat publishes the names of a number of the most wealthy persons, including some ladies, in that city, who rent fine houses for improper purposes, and holds them up to public indignation therefor, the complaint being that the property is sorely needed for more legitimate uses.

— At Dublin, Ireland, Jan. 10, the police seized over 300 pikes and large quantity of percussion caps in the workshop of a man named Tracy in Blackball Row; the wife has been arrested, but Tracy is not yet in custody.

— Ladies, if you wish a treat, either go yourself or coax your husband to go to your grocer, and get a few bars of that justly celebrated article known as the J. Monroe Taylor Gold Medal Soap. We have tried it and know that it is far superior to any soap in the world; it is truly called the woman's companion and friend on a washing day, besides it only takes half as much to do the same work. 41

☞ We are informed that Mr. Hallet, of Boston, will preside at the North Church organ to-morrow.

MARRIAGES.

In Salisbury, Jan. 23d, Mr. JONATHAN RING to Miss LYDIA A. TUXBURY, both of Amesbury.

DEATHS.

In this city, Jan. 28th, Mrs. MARGARET DALE, aged 58 years 10 months, wife of Mr. Leonard Dale.

Funeral on Monday morning at 10 o'clock, from No. 89 Water street. 1t

In Dover, 17th inst., MRS. SUSAN VARNEY, aged 60; Mr. TIMOTHY TUTTLE, aged 76; 19th inst., MISS LYDIA E. LASKEY, aged 18 years 7 months; 15th inst., REUBEN H. TORR, aged 63 years 9 months.

In Kennebunk, Jan. 8th, Mr. IVORY SMITH, aged 55. Seven brothers, with their families, followed his remains to the grave, the youngest of the seven being 46 years old. The eight brothers were farmers, and lived in the vicinity of the old homestead.

Business Notices.

PARTICULAR NOTICE.

Ladies will please to remember to attend the large Auction Sale at I. HAHN'S, 13 Market Street at 10 o'clock this A. M.

Look out for Big Bargains, as he has decided to close out his Whole Stock before he leaves this city for St. Louis, where he intends to make his future home.

Holloway's Pills.—Pregnancy.—During this delicate situation, ladies will experience great relief by using this mild cathartic medicine for correcting those indispositions and nauseating sickness to which they are subject at this period. They give a gentle stimulus to the circulation, and purify and expel all those humors which irritate the stomach and bowels. They are so mild that the most delicate constitutions may take them with perfect safety. For nursing females at the dawn of womanhood, or at the turn of life, they are equally adapted. Sold by all Druggists. ja26dawlw

SWEET LIPS is the pretty name of the princess in the fairy tale, and every lady may be a Princess Sweet-lips, if she chooses to use the fragrance-breathing Sozodont. This rare essence of innumerable aromatic herbs, removes every blemish from the teeth, gives a blush-rose tinge to the gums, and renders the mouth as pure and fresh as an infant.

SMALL QUANTITY.—One teaspoonful of that world-renowned remedy, Coe's Dyspepsia Cure, taken after meal, will enable the most confirmed dyspeptic to eat anything he chooses, without fear of any distressing effects. It is a blessing to all who are troubled with diseases pertaining to the stomach and bowels.

The proprietor's of Coe's Cough Balsam say, take little and often. Doctor the throat and bronchial tubes, not the stomach. This is the secret of its success. It will not harm you to take it often, and every time you take it, you will see its beneficial effects.

NO CONFULSION.

If you don't want to feel any better, then don't use any Golden Sheaf Whiskey. If you do, your grocer can furnish it. 14

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regority and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Sold by Druggists everywhere.

"Great oaks from little acorns grow." The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove and elaborate these facts. Then guard against the first ill, for it may be the smallest pimple on the skin is a tell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, pulmonary disease, and death be the result and final close. MAGGIEL'S BILIOUS, DYSPEPTIC and DIARRHEA PILLS cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, MAGGIEL'S SALVE is infallible. Sold by J. Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

DR. T. ALLCOCK,—*Sir:* I have been suffering under a severe attack of *neuralgic disease* of my bowels for years, with *hypertrophy of the heart* and have tried everything known to the practice of medicine from the very best M. D's: but truth prompts me to say that your plasters have given me more permanent relief than anything else I have used, and I believe will produce a perfect cure.

The counter-irritant effect of your plasters is produced in such a mild and gradual way, they so invigorate the circulation around the parts to which they are applied, and exert upon all nervous diseases such a great sedative influence, that I place them confidently at the head of every plaster now in use. SEAVEY'S ISLAND.—*Messrs. Editors:*—I am somewhat surprised at the indifference of this community in reference to the acquisition of Seavey's Island to our Navy Yard, as instanced by the fact that although the bill relative to the purchase of this much-needed piece of property has been presented before a Committee of the Whole in Congress and vetoed, it excites no feeling of remonstrance, not even a word of comment, from those whose interests are identified with the claims of this Yard upon the Government. In the absence of nearly all branches of manufactures among us, it will be conceded that we have been, and still are, dependent in a great measure upon the Navy Yard as a source of employment. And if any one will take the pains to refer to the report of the Secretary of the Navy for the year 1865, it will be found that the Hon. Mr. Welles even looks to or proposes an entire abandonment of the Yard, the practicability of which is admitted to be absurd by every one who knows anything of its advantages—even over other Yards—for the proper and speedy transaction of any work which may be sent hither.

For instance,—while every harbor along our coast has been frozen over nearly every winter, rendering the ingress or egress of vessels impossible, ours has not been thus enchained but once for the past fifty years, and then only for one tide.* This feature might prove of immense advantage to our Government, under circumstances that do not require a great stretch of imagination to conceive.

If, then, it should seem advisable to allow the present locality to be retained for the manufacture of articles required by the Government, we want the above mentioned island for many important reasons.

1st. A Hospital should at once be erected, to give place to the miserable apology for such an institution which at present disgraces the U. S. authorities. And we should have had a building of this kind long ago, had the Government possessed a proper site for its construction. Now it does not need the testimony of a physician to confirm any one in the belief that Seavey's Island has many sanitary advantages over other proposed localities.

2d. Wharf accommodations are sadly needed, which might be secured at a trifling expense by the purchase of the above island.

3d. The inhabitants of the island have the "right of way" across the Yard at all times, rendering the public property exposed to a certain extent.

4th. The possession of the island will secure the channel running up on the eastern side of the Yard, thus giving a Graving Dock that would accommodate a number of vessels at a time, for the purpose of repairs or for a hasty examination.

5th. The natural defences of this island render the harbor impregnable, and secure the Yard against the most persistent or prolonged naval attack. The Hon. Sec. of the Navy in his Report, to which we have before alluded, says that "there are serious objections to Kittery as a naval station, on account of its proximity to the ocean, which renders public property there insecure."—We challenge him to find among the several Yards in the country, one more difficult of access by water than is ours. To be sure it might be shelled, perhaps, and so might any of the Yards, without some extra means of defence to meet such a contingency, such as an iron-clad, which, by the way, should be stationed at the mouth of every river leading to a Navy Yard.—With Seavey's Island Battery, which was in use at one time during the war, we believe that even without the assistance of an iron-clad, we might be able to repel any ordinary naval invasion.

6th. More room is needed for Officers' Quarters, and while a large appropriation has been recommended for the present, in that, with the possession of the Island we have the requisite accommodations in that direction, by securing with its purchase a number of eligible dwelling houses.

We trust that as a community we shall not suffer this apathy to remain upon us longer, but that we may bestir ourselves, and see if some measures may not be adopted towards securing this valuable spot of land.

* *

* [Yes, and even then, the ice was all up river, above the harbor and Navy Yard, and there was no minute that vessels could not enter or leave the port, the wharf or the Yard.—*Ed. Chron.*]

☞ The steam propeller Meteor, seized at New York, is a fine vessel of about 1300 tons, built at this port, by Messrs. Toby & Littlefield, during the war. She received her machinery (which was built in Scotland) at East Boston, and is capable of great speed, but is not a large carrier. She is owned by twenty merchants of Boston and New York, for whom Messrs. R. B. Forbes and J. M. Forbes have been acting as Trustees. Those who ought to know, state that the steamer was bound on a perfectly peaceful and legitimate cruise.

☞ Mr. Wendell offers a large variety of goods at auction this morning. Also, sales in the afternoon and evening.

NEW STORES.—Messrs. (Wm. Augustus) Pierce & (James W.) Packer, of Greenland, have bought the grocery stock and stand, late of Mr. James A. Blaisdell, and will re-open on the No. 1 corner, presently.

Mr. J. C. Butler, late with Mr. Blaisdell, as above, has opened a new grocery, in Mr. French's building, on Daniel Street.

Messrs. (Daniel A.) Bailey (long with Mathes & Varrell) & Glines have opened at the old stand of R. K. Oxford, a new grocery and crockery store.

POLICE COURT, Jan. 26.—Patrick Clary, being drunk in his own house, No. 57 Water street, on Thursday night, emulated the weather and became boisterous, for which breach of the law he was mulcted in the sum of $6.86—$3 of which was a fine for his having so fine a time, and the remainder is set down as costs; which leads Pat to inquire "how it is that it costs more than the costs to get drunk?"

TO-NIGHT.—Duprez & Benedict's Concert, with all its varied attractions; new songs, new jokes, new comicalities, Frank Kent's fine dancing (ever new); in fact, new and good way through. Their show itself is their best advertisement.

☞ There will a lecture, by the Pastor, at the Universalist church, to morrow (Sunday) evening, at 7 o'clock. Subject, Radicalism and Conservatism.

☞ Of all the smart travelling Agents we ever met, (and if a man *isn't* "smart," he'd better never enter the list in *that* line,) our old friend Daniel G. Waldron, of the "Alleghanians," beats everything on long routes. His troupe is now in England, and we have received from him a broadside newspaper page circular, filled with "Opinions of the London press," and surmounted by the British coat of arms.

ONE OF THE BEST.—Through the fraternal courtesy of Robert Bonner, Esq., proprietor of the *New York Ledger*, we have received a copy of that excellent family paper, from the time of his starting it, to the present—for *"start"* it his genius and enterprise did, from comparative obscurity, to world-wide fame, popularity and circulation; though we believe he did not originate it. And after having read the paper pretty thoroughly for all these years, we have no hesitation in pronouncing it one of the best weeklies in the country—in some respects, *the* best. In all its varied departments, "excelsior" is the motto, and "eureka" the result; and from romance to history, from politics to love, every reader will find something to interest, instruct or amuse; and the most fastidious, nothing to offend.

Munro's Ten Cent Novels
Are now universally allowed to afford more amusement and profit than any other light literature published. The Reading Public fully appreciate the excellent qualities that have always characterized them, and it is found that the monthly sales of these popular Books exceed that of all the other Ten Cent Publications combined. They have always been pure in tone, and none but those of first class authors are admitted into the Series. The following is a list of the books:

No. 1 The Hunters. 2 The Trapper's Retreat. 3 The Patriot Highwayman. 4 The Fugitives of the Mountains. 5 The Track of Fire. 6 The Man-Eaters. 7 Charlotte Temple. 8 The Death Face. 9 The Indian Slayer. 10 The Turtle-Catchers. 11 The Hunter's Triumph. 12 The Ocean Rovers. 13 The Fory Outwitted. 14 Zeke Strouan. 15 The Scourge of the Seas. 16 The Captive Maiden. 17 Long Legged Joe. 18 The Wild Scout of the Mountains. 19 The Forest Lodge. 20 The Rollicking Rangers. 21 Rattlesnake Dick. 22 Rickety Tom, the Rover. 23 The Imps of the Prairie. 24 The Robber's Terror. 25 Joe, the "Surplus." 26 Lightfoot- the Scout. 27 The Giant Spy of Bunker Hill. 28 Scar-Cheek, the Wild Half-Breed. 29 Scowling Eyed Bob. 30 Lady Snodgrass. 31 Rolling Thunder, or the Rival War-Chiefs. 32 Heavy Hatchet, the Bold Scout. 33 Sly Sam, the Quaker Spy. 34 The Three Daring Trappers. 35 The Fatal Marksman. 36 Eagle-Eyed Zeke. 37 Big-Rifle Nick. 38 The Bold Scalp Hunter. 39 The Fory Spy. 40 Prairie Jake. 41 Wealth and Beauty. 42 The Rover of the Mountains. 43 The Giant of the Woods. 44 The Crazy Trapper. 45 The Lion-hearted Volunteer. 46 Old Jim of the Woods. 47 Mad Mike. 48 The White-Headed Hunter. 49 Big Hearted Joe. 50 The Scout of Long Island. 52 Silverheels, the Delaware. 53 The Red Man of the Woods. 54 Grim Dick, the One Eyed Robber. 55 The Indian Queen's Revenge. 56 The Old Scout of the Cave. 57 Big Snake, the Huron. 58 Mexican Joe, the Snake Charmer.

The price of each of the above is Ten Cents.

MUNRO'S FRENCH SERIES No. 1, being an *Elementary Grammar of the French Language*, by which every one can become his own instructor. The true pronunciation of every word is given, and the book is intended principally for self instructors, but it is also specially adapted to the use of Schools and Colleges, being arranged on an easy and progressive plan. All who desire a knowledge of the French Language should procure a copy of it. Price Ten Cents each only.

In press and to be issued in a few days, MUNRO'S GERMAN SERIES No. 1, being an *Elementary Grammar of the German Language*, by EDWARD CRAMER, Professor of German in New York City. By this Grammar the learner is initiated into a knowledge of the language by a new, easy and progressive plan. It is intended principally for self-instructors and beginners, and will be found to be an admirable class-book for Schools and Colleges. The price is merely nominal, only Ten Cents each.

The price of all the above books is Ten Cents each, and sent post-paid, on receipt of price.

COTTON PLANTATIONS
FOR SALE.
We have for sale and ready for immediate occupancy some of the best cotton plantations in the very best cotton growing region of the south, with beautiful dwellings and all the buildings and machinery for cotton cultivation complete, and many with the laborers ready for work.—They will be sold with perfect titles for less than it cost to clear the land or erect the buildings.

Any of these plantations will pay for themselves and all expenses by a bonafide mortgage and must double in value within a year. To raise a crop the coming year, operations must be begun in January. To facilitate investments at once the company are prepared to purchase, manage and cultivate plantations for Northern owners without any charge to the parties for less than it cost to clear the land or erect the buildings.

We also are prepared to negotiate for advances for growing cotton, giving a bonafide mortgage with perfect title upon the entire plantation to secure the principal, and giving one-third net crop for the use of the money—the plantations being run under the supervision of our own agents, and cotton shipped to our order. These advances can be deposited with our agency in New York or Boston, and will be paid at maturity at the same place without expense.

Cotton at present prices will pay from 2 to 300 per cent on these investments amply secured and perfectly safe.

We assure Northern men of perfect security in their persons and property in any locality where such purchases and investments may be made by us.

We believe no more favorable opportunity for investment for Northern men ever presented itself, and at the same time it will supply the necessities of the freedmen by furnishing them with remunerative employment, and will help inaugurate the experiment of free labor in the cotton fields of the south under Northern auspices.

Mortgages negotiated upon plantations for which 20 per cent. interest per annum will be paid absolutely, or one-third the net crop of cotton raised.

An agent of the Company will leave for the South on the 15th of January to make investments and attend to the selection and purchase of plantations; until which time he can be seen at the office of the New England Agency, No. 46 Washington St., Boston, Mass.

Send for lists of plantations and prices, in any desired locality. Send for circulars. Call for letters of introduction to our agents in all parts of the South

S. Vance's Submerged Well PUMP.
This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.
ITS ADVANTAGES.
FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.
SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.
THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.
FOURTH, POWER.—For the amount of power applied, this Pump exceds anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.
FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.
SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,
ISRAEL MARDEN & CO.,

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony to their excellence.
Portsmouth, Oct. 16th, 1865.

Morning Chronicle.

☞ At a meeting of the board of directors of the American Colonization Society, held in Washington, a member of the board stated that he had a consultation with Gen. Howard of the Freedmen's Bureau, who favored their objects and expressed his willingness to aid them in their work of colonizing negroes. He expressed a desire to know if the society would assist in sending colored men to Florida, there to be colonized. This was opposed by some of the board, one of them giving as a reason therefor that he believed Africa was the promised land of the negro, and that he was of the opinion that they would all sooner or later be civilized and Christianized in that country.

THE PRINCE OF DIAMONDS IN TROUBLE.—Recent intelligence from Europe states that Prince Esterhazy is in pecuniary difficulty and requires a loan of thirty millions of francs to settle up with his creditors, who are becoming impertinent in their demand for a day of settlement. The Prince owns about eight million francs worth of jewels, principally diamonds, which very foolishly he is not inclined to part with. The diamonds are the simon pure articles, not rose diamonds or brilliants such as we see in this country, where it is estimated by a recent writer on the subject that not one so-called diamond in one hundred is entitled to a first rank.

QUERY.—As Generals Early and Breckenridge were crossing from Winchester the night after the battle of the 19th September, 1864, closely pursued by the Yankees, tired, hungry and *dispirited*, the party were riding silently along, when General Early, in his squeaky voice asked General Breckenridge "what he thought just then of our rights in the Territories under the Dred Scott decision?" Will any of our present readers answer the question now?—*Staunton Virginian.*

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1837,

78 State Street, opposite Kilby Street,
BOSTON.

After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the novelty or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and the other is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!

FARRANT & CO

Gentlemen. I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabialis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUES,
Merchant, Curacoa, S. A,

New York, June 28th, 1865.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

A HOUSEHOLD BLESSING!

HOWE'S SEWING MACHINE!

The Best Machine in the Market!

The people of Portsmouth and vicinity are respectfully informed that I have taken the Agency of the above beautiful Sewing Machine, and am now prepared to promptly supply the same, either by wholesale or the single machine.

☞ *No Family can afford to be without one of these vast Labor-Savers.* ☜

Why is this the best Sewing Machine ever invented? Because—

1ST. It is better made than any other.
2D. It runs with less noise.
3D. It is much less liable to get out of order.
4TH. No other Machine works so small a needle.
5TH. It is the cheapest Machine, because the best.
6TH. It has improvements over every other Machine.

The better the work performed, the better the price obtained; hence that Machine which produces the best work is the most profitable.

FOR FAMILIES,
MERCHANT TAILORS,
BOOT AND SHOE
MANUFACTURERS,

The Howe Machine Stands Unrivaled.

☞ Every Machine will be kept in order ONE YEAR WITHOUT EXPENSE TO THE PURCHASER.

Many Ladies earn from $1.50 to $2.00 per day in running these Machines.

Wives and Mothers! Buy HOWE'S FAMILY SEWING MACHINE, and you will then be able to refute the assertion that "*Woman's work is never done.*"

A MONSTER FARM.—The farm of M. L. Sullivant of Champaign county, Illinois, consisting of 70,000 acres, 23,000 of which are under good fence and in active cultivation, is said to be the largest farm in the world. Much of the work is done by machinery. He drives his posts by horse power, cultivates his corn by machinery, ditches, sows and plants by machinery, so that all his laborers can ride and perform their duties. Mr. S. gives employment to two hundred farm hands, two hundred horses, and a large number of oxen.

SINGULAR CAUSE OF EXCUSE.—It is stated that grocers in New York justify their high charges for butter on the ground that they have to give full weight, whereas the dealers in the public markets do not. If this is true there surely should be a remedy applied.

☞ At Richmond, Va., General Terry has issued general orders prohibiting any civil officer, or other persons, from attempting to apply the provisions of the vagrant act recently passed by the legislature to any colored person in the Department of Virginia. He says the ultimate result of the statute will be to reduce the freedmen to a condition of servitude worse than that from which they have been emancipated.

The Senate read a third time and passed the bill giving negroes charged with criminal offences the privilege of trial by jury, and making them liable to the same punishment as white persons for a similar offence. The same act allows them to give evidence *viva voce* in civil Courts, but until 1868 they are not to be allowed to certify in cases where the parties to which are all whites.

— He that is taught to live upon little, owes more to his father's wisdom, than he that has a great deal left him does to his father's care.

— It is said that a large number of the mustered-out white soldiers at Baton Rouge, La., desire to remain in the South, and are anxious to go to work on plantations to make cotton.

— Speaking of Albert Pike and his trasonable poetry, Dr. O. W. Holmes says it is pretty hard for Northern folks to be called the offspring of canine ancestors, by one born in Boston, bred id Newburyport, the son of a Yankee, and himself a Yankee schoolmaster.

— Joseph Parker of Stoneham, who is ninety years old, has a hundred and five grand-children and great-grand-children living. Six of his grandsons and three of his great-grandsons were in the Union army. Seven of them came home without having received a wound, one was wounded, and one was made prisoner and died at Belle Isle.

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles from Philadelphia, by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and *productive*, varying from a sandy loam, suitable for Wheat, Grass, Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like are needed. Fortunes with room, can be realized.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and send the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* n1—dawtm

Morning Chronicle.

Portsmouth, N. H.

MONDAY, JANUARY 29, 1866.

A Den of Thieves.—In the Boston Police Court, Friday, a boy 14 years of age, named George H. Bennett, was charged with stealing a gold watch and chain valued at $225, and was committed for trial in default of bail in $500.

Horatio Smith, 22 years of age, hailing from South Berwick, Me., but lately employed as bar tender in Pattee's saloon on Court street, was charged with receiving the watch and chain stolen by Bennett, knowing the same to have been stolen, and was held in $500 for trial. The boy Bennett stated that two or three evenings before taking the watch, he stole a breastpin which he sold to a man employed in Pattee's saloon, and when he was disposing of the pin, Smith, asked him if he couldn't steal something for him, to which he replied he knew where there was a watch he could get, and Smith told him to "get it, then." He took the watch to Smith, and after examining it thoroughly Smith it was nothing but a cheap concern, but he would give him what money he had for it, and counted out $5.89 for the watch, which has been recovered. [Two *receivers* in one "saloon," have a rather suspicious look.]

James Curran, the boy who was convicted of assaulting, with a club, Francis H. Littlehale, a monitor in the Bigelow School, was sentenced to the House of Reformation during minority, but through his counsel appealed, and in default of bail in $300 was committed to jail.

[The counsel ought to be committed also.]

☞ The case of F. O. J. Smith, convicted of subornation of perjury, came before Judges Russell and Putnam, of the Superior Court, Boston, Saturday, on a motion that the verdict be set aside as against the weight of evidence, and for a new trial on the ground of newly discovered evidence. A hearing was assigned for the 26th of February, and Smith's bail increased from $5000 to $25,000.

☞ Quite an excitement was caused at the Washington Navy Yard on Friday by the arrest of W. A. Hall, of the firm of Hall & White, founders, in that city, but who has been also, since 1863 quartermaster or superintendent of the machine shops at the Navy Yard. He was arrested as he was leaving the yard at noon time, and found to have fifty pounds of brass concealed about his person. A search at his house, and at a neighboring junk shop, showed that he has been stealing daily for several months.

☞ The steamer Wyandotte, of the Metropolitan line, which left Boston on Wednesday morning for New York, sprung aleak in the gale of Thursday, put back for a harbor, and was abandoned near Gurnet Light at 4 P. M. Friday, the water then being level with her decks. The officers and crew landed safely near Gurnet Light. The steamer shortly after struck the shore, and in two hours the vessel went to pieces, and, together with her cargo, was strewn along the beach. But little of the property will be saved. Valued at $60,000. Fully insured.

☞ The Cincinnati express train on the Hudson River Railroad was partially thrown from the track on Saturday morning, at a small bridge over a road leading to some brick kilns near Croton. Two cars, said to be sleeping cars, were precipitated off the bridge into the road below; one was completely broken to pieces, and the other nearly destroyed. Three persons are reported killed and many seriously injured.

☞ In response to a serenade in Washington on Friday evening, Secretary of the Interior Harlan spoke at length relative to reconstruction and expressed his opinion that the entire matter should be left to Congress. He believed that the freedmen could not long be deprived of citizenship, and he would rather trust an ignorant loyal man than a wise rebel.

Goths and Vandals.—The following, clipped from the New Orleans Picayune, is not far out of the way for this latitude:

From the manner in which some people, would-be gentlemen and ladies, well dressed, with gloves, rats, waterfalls, dog collars, canes, etc., etc., behave at the theatres, opera, and concerts, one would be apt to conclude that their gentility and good breeding consisted altogether in their fine clothes. Such Goths and Vandals are not susceptible of rebuke from the angry looks of the persons near them, who naturally enough desire to hear what is going on on the stage, but are prevented so doing by these chattering stupids, and brainless, giggling nincompoops. Such people, despite their outward ornament, are writ down as asses by all who are unfortunate enough to be in their proximity; but cannot enforce lynch law on the instant, to enforce from them a due observance of the commonest laws of decorum and true gentility.

— Hubbell, the Mississippi bank defaulter, had provided against a "rainy day," as he left twenty-one umbrellas among his effects.

—— Nashua paid a bounty to 687 men.

—— The Unitarian Society of Nashua have extended Minot G. Gage, of Cambridge, Mass., a call to become their pastor, at a salary of $1200 a year.

—— A convention of Good Templars was held at Laconia Jan. 24th, 400 members of the order from different parts of the State being present. There are twenty-two lodges in the State.

—— Dodge, Davis & Williams, of Enfield, bought a short time since, of Col. Denison Hill of Hanover, 184 fleeces of wool which weighed 1502 3-4 lbs. on an average of a little over 8 lbs., 2 oz. to the fleece. This is the entire production of Col. Hills flock.

—— The store of Frank Stevens, postmaster at Pelham, was entered on the night of the 20th, and his pants, containing $1700, stolen from between the mattress and bedstead, on which he, his wife and child were sleeping.

—— On Friday morning a man named Sedley Loud or Lowd hired a horse and sleigh of Thomas Patterson, Esq., of Londonderry, to go, as he said, to the depot, about three miles distant, for his trunk. He did not return, however, and search was made during the afternoon, without avail, for his whereabouts. It is said that he has been tried for a similar offense in the courts of this county, but managed to clear himself; and it is suspected that he will attempt to dispose of the team and pocket the proceeds.

—— The New Hampshire Union men, temporarily resident in Washington, had a large and enthusiastic meeting Friday evening to form a Granite State Club, that they might take part in the Gubernatorial election to be held in March next. After two preliminary ballots Hon. E. A. Rollins, Commissioner of Internal Revenue, was unanimously chosen President. The President on taking the chair made some appropriate remarks, followed by pertinent speeches from Senators Clark and Cragin and Representatives Patterson and Rollins. Those present all intend to go to their New Hampshire homes and aid in the triumphant election of Governor Fred. Smyth.

— Faith is the angel that leads Religon through the dark world by the light of her wings.

— If "all the world's a stage," who's the driver? The propounder of this query is only excusable because the quotation is hackneyed.

— Mosby, who was arrested a few days since, has been released, as he denies ever having been possessed of $20,000.

— Idaho, with a population of 30,000, has no one minister of the Gospel, so it is said. There is no Sunday there.

— A Raleigh, N. C., lady died, to all appearance, and was in her coffin two days, when she arose and proceeded to recover.

— New York State has 425 cheese factories, which use 307,000,000 pounds milk, and turn out 32,600,000 pounds of cheese annually.

— 910 steamers ply on the Western rivers. They are valued at $25,000,000, and have a capacity of three hundred thousand tons.

— Berry, Knight, Crab and Lisaugh, all under 20 years of age, the four murderers of Mrs. Hoffeman, were hanged at Nashville Friday.

— William Dowd of South Lee walked into the river where ice had been cut out, on Monday evening last, while under the influence of liquor, and was drowned.

— A lady, writing upon the subject, says "When men break their hearts, it is the same as when a lobster breaks one of his claws—another sprouting immediately, and growing in its place."

— The negro prisoners confined in the Galveston jail tried to break out, assaulted the sheriff, and the military guard being called in a fight ensued, in which one of the negroes was killed.

— Admiral Farragut has received a dispatch from the commander of the West India Squadron stating that six large French transports put in at Havana on their way to Vera Cruz. They were empty, and it was believed they intended to carry back troops from Mexico to France.

— A Houston paper justly remarks that the man who imports obscene photographs for circulation among the rising generation is worse than Judas Iscariot, who sold his Saviour for thirty pieces of silver. The dealer in such pictures deserves hanging as much as any villain in the world.

— The steamer Richmond from Savannah for Baltimore, went ashore on Hatteras 24th inst. It is supposed she will be a total wreck. Crew and passengers saved and arrived in Baltimore. She was formerly a captured blockade-runner. She and her cargo of 300 bales of cotton are partially insured in New York.

— Southern Congressmen elect have become satisfied that there is no present intention of giving them speedy admission, and are preparing to return to their homes. The Louisiana delegation will leave this week, and that of Virginia soon after.

A Would-be Murderer Killed.—A Vermonter, now in Cincinnati, writes to the Brattleboro' Phœnix that he was attacked, while prospecting in the mountains of Kentucky, by a man who snapped both barrels of his gun at him, and then clubbed his gun and struck him twice before the writer could discharge his pistol at the assailant. He concludes by saying: "I am short of one cartridge from my never-failing revolver, largest size; he may speak for himself, if he has anything to say."

☞ A Macon exchange states that little or no corn will be raised in the South this year, owing to the enormous profits which are expected to be realized from the growth of cotton. In view of the fact that the South must buy all the breadstuffs it needs, the same paper says, "The West must now feed us; and if the freedman turns out a faithful laborer, the trade between the South and West will exceed anything before known."

☞ The report on National Banks, which will soon be presented to Congress, will show that New England has rather more than her share of the circulation. The question now is shall these States which have been authorized to issue more than their respective appointments be deprived of that excess, or shall there be an addition to the $300,000,000 authorized for the benefit of the Southern States who need banking facilities?

The Artesian Wells at Chicago. The Artesian wells, now discharging one and a quarter millions of gallons per day of the purest water ever seen on the face of the globe, continue to excite a deal of wonder and curiosity. These wells are located near the city limits—about three miles from the City Hall—are seven hundred feet deep, and discharge an immense volume of clear cold water. In several respects these wells are anomalies; first, that the water which rises to the surface stands at 57 degrees Fahrenheit, which is below the mean temperature of the locality, while in all other deep wells the temperature increases in proportion to descent; so that no water is found at a greater depth at much less than 75 degrees; and in the great wells at Charleston and in the basin of Paris, the range is up to 85 and 90 degrees; and then this water is free from the unpleasant and disagreeable mineral taints so common to Artesian wells. It is certified, under chemical analysis, to be the best article of drinking water in the world, and from the force and power with which it comes to the surface—it has a head of one hundred and twenty-five feet above the level of Lake Michigan—there seems to be no doubt but that by an enlargement of one of the wells to the diameter of twenty inches, a sufficient supply—estimated at seventeen millions of gallons per day—could be obtained to meet the demands of the city for years to come, and this would flow into the reservoirs, without the aid of expensive engines, steam-pumps and fuel.

Hours at Home.—The February number of this popular monthly is received from A. Williams & Co., with a varied table of contents. Published by Chas. Scribner & Co., New York. For sale by Jos. H. Foster.

— Medical men, both Allopathic and Homœopathic, unanimously concur that the strong alkali contained in common Saleratus is detrimental to health, and paves the way for disease. They also concur that Herrick Allen's Gold Medal Saleratus is the only perfectly harmless article in the market which can be relied upon. Use it with cream tartar instead of soda. Call on the Grocers for it. Their depot is 112 Liberty St, New York. 41

A Crazy Woman.—The Springfield (Mass.) Republican speaks of the vagaries of an insane woman, evidently well educated and well reared, but coming from nobody knows where, who has been sorely vexing the lawyers and city authorities of late. The other day she called at Gov. Trask's, and introduced herself. "Is this Mr. Trask's?" "Yes, madam?" "Satan. I am Satan, and having more business on my hands, just now, that I can well attend to, and hearing that, since the late city election, you were at leisure, I called to enlist your aid." "Yes, madam—I understand—I think I am your man." And the Governor helped her—to board in the insane Asylum at Northampton, where she now remains.

— King Leopold left Mrs. Maximillian more than five millions of dollars. She and her hubby had better take it and go back to Austria, pay the mortgage on Max's estate, and be quiet.

— Whiskey has fallen in Mobile from twenty-five to fifteen cents a drink, and the bibulous of the Gulf City are happy. Every man who takes a drink there now, makes ten cents by the operation.

— A Maine paper says there must either be rain sent to fill the wells, which are almost dry, otherwise the Maine law will have to be repealed so that something can be had to drink.

— The negro who committed a diabolical murder of a white girl and boy in Union county, Arkansas, a few weeks since, was followed and arrested in Bradley county by negroes. After being brought back he confessed his guilt and went to the place where the murder was committed and got the knife which he had used, and afterwards concealed under a log. After the proper examination, he was burned to death, old negroes and Federal soldiers assisting in bringing pine knots to make the fire. The negroes manifested the utmost anxiety to have him brought to justice.

Business Notices.

PARTICULAR NOTICE.

Ladies will please to remember to attend the large Auction Sale at I. HAHN'S, 13 Market Street at 10 o'clock this A. M.

Look out for Big Bargains, as he has decided to close out his Whole Stock before he leaves this city for St. Louis, where he intends to make his future home.

☞ We call the attention of all desiring a pleasant and profitable employment to the advertisement in this paper headed "$1500 per year."

The World and his Wife, and grown-up daughters, are unanimous on one point. They declare unreservedly that Soxodont is a blessing to their mouths, that it improves and preserves their teeth, invigorates their gums and sweetens every breath they draw. Hence they buy it. As Dominie Sampson says, the sales are pro-di-gious. ja29ecd1w

THE DESIGN

Of the physician who first discovered the method to extract from rye its medicinal qualities was to benefit and assist nature in the removal of certain diseases. C. A. RICHARDS' famous Extract of Rye will do more to build up a weakly constitution and strengthen the whole system than bourbon Whiskey, because it has no injurious qualities in it. Sold in large bottles, at a very reasonable price, by all grocers and druggists. 16

THE PEOPLE will have their own way, and indeed we do not wonder that every one is bound to use Coe's Cough Balsam, and nothing else, for it is certainly the best thing in the world, for Coughs, Colds, Croup, and Influenza. It is right that all should use it.

Coe's Dyspepsia Cure, an article prepared by the same parties, is equally good for Dyspepsia, Indigestion and Constipation, Sick Headache, Sour Stomach, Rising of Food, Cramps, Pains, and in fact any disorders of the stomach and bowels. ja29ecd1w

Holloway's Pills.—Pregnancy.—During this delicate situation, ladies will experience great relief by using this mild cathartic medicine for correcting those indispositions and nauseating sickness to which they are subject at this period. They give a gentle stimulus to the circulation, and purify and expel all those humors which irritate the stomach and bowels. They are so mild that the most delicate constitutions may take them with perfect safety. For assisting females at the dawn of womanhood, or at the turn of life, they are equally adapted. Sold by all Druggists. ja26daw1w

Light! Light! Light!

PHOTOLEUM.

This is a new discovery, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *excellent, safe* and *valuable* illuminating oil ever before the pub ic, giving a *soft, steady* and *brilliant* flame, surpassing even gas-light for reading and leaving all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* emits no sickening odor when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it char the wick or smoke the chimney, so that once trimming will suffice for a week or more. Photoleum produces a flame that does *not diminish*, but continues the same until every drop of oil is consumed. It is, therefore, very valuable for lighting churches, railroad and horse cars, manufactories and public buildings. The public are invited to call and examine.

Manufactured and for sale by the AMERICAN PHOTOLEUM COMPANY. Office at C. F. WYMAN & Co.'s, 57 Water Street, Boston.

CLOCK'S
Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or injure the finest fibre.

It will instantly arrest the hair from falling off; cause hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, 2 Congress Street.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

☞ Among the passengers who perished on board the ill-fated steamer Constitution on the 27th of December last, was Joseph Fitzgerald, son of Mr. Richard Fitzgerald of this city. At the commencement of the war, young Fitzgerald enlisted in the navy and served honorably for three years, and was in the engagement at Forts Jackson and St. Phillip and at the capture of New Orleans after his term of service had expiredAfter his discharge Fitzgerald spent some time at a commercial college and engaged in the office of Capt. Spicer at Savannah, and subsequently was for several months cashier of the Savannah Daily Herald.—Having been offered a more eligible situation in New York, he left in the steamer for that city and perished on the voyage. His loss will be deplored by a large circle of friends in our city.

POLICE COURT, Jan. 27.—Moses Spinney, who lives in Dennett street, went home drunk Friday night, put his wife and children out doors, and nailed up the house, threatening violence to anybody that entered his premises Marshal Kent and Officer Sides broke in and secured the individual. He was tried this morning, fined $6.86, (which he paid) and ordered to recognize in the sum of $30 to keep the peace,—failing to do which, his name is booked at "Joy's Hotel," until further orders.

☞ By a notice in another column, it will be seen that Mr. E. A. Batchelder has purchased the newspaper and periodical stand No. 29 Congress street, recently occupied by Mr. Avery. Mr. B. has long been known to our travelling public from having kept the newspaper room on the Eastern R. R. depot at Boston, and will bring to aid him here an extended experience in the business. As heretofore, all the various publications of the day may be found at that well-known news depot, as well as confectionery, cake, and fancy articles.

SEAVEY'S ISLAND.—The Boston Commercial Bulletin, a paper that weighs its words before putting them in print, says:

The other day, in Committee of the Whole, the House, on motion of Mr. Washburne, by an almost purely sectional vote, threw out the appropriation of $105,000 for an enlargement of the Navy Yard at Portsmouth, N. H., though assured by Mr. Rice of Massachusetts, and the New Hampshire members, that it was really a measure of economy which in the course of a few years would save to the Treasury a much larger sum.

We allude to this fact not so much from its individual importance, as an illustration of the selfish sectional spirit which seems to exist among Western politicians.

We can join in the hope expressed in this quotation from the same article:

We suppose and trust the matter may be brought before Congress at its present session; and in view of present developements, feel somewhat anxious to know whether we are to count on a friend or an enemy in the West, in striving to obtain the needed assistance from the government.

Correspondence of the Chronicle.

SHIPWRECK AND LOSS OF LIFE.—*Hampton, Jan.* 27, 1865.—The schooner Celeste, Capt. Rainard, of Cumberland, from St. Johns, N. B., was knocked down off this shore on Thursday, and Capt. Rainard was washed overboard and lost. The vessel's rudder was unshipped and deck-load lost. On Friday the vessel struck on sunken rocks off Hampton river, the sea making a complete breach over her: at dark she went to pieces, and the remainder of her crew, three in number, were taken off by Capt. D. F. Nudd at the risk of his own life. Capt. Nudd deserves special mention for his bravery. The men were in a most pitiable condition.—The Celeste was a vessel of 170 tons, and left St. John Jan. 5th, with a cargo of lumber, for Boston. Capt. R. leaves a wife and ten children in St. John. J. J. L.

☞ Schooner Ocean Ranger, Carter, Philadelphia for this port, via Holmes Hole 5th inst., arrived at Gloucester on Thursday. She was blown off in the gale of the 7th, and has crossed the Gulf Stream three times. Jan. 22d, lat. 42.35, lon. 69, fell in with brig Navitta, of St. John, N. B., dismasted, and laid by her in hopes of taking off her crew, but neither vessel having a boat were unable to do so, and lost sight of the brig during the night. The Ocean Ranger lost boat and jib, and had her deck swept.

— A lecture was given in New Orleans on the 25th, the proceeds to be applied for the benefit of Jeff. Davis's family.

— The trial of the fiend, Albert L. Starkweather, for the murder of his mother and sister in August last, is in progress at Hartford. Hanging is too good for the brute.

— In the U. S. Senate on Friday a bill was passed to allow a month's pay to naval officers for baggage lost or wrecked in the service.

— Those who have fast teams are pleased with the prospect of sleighing. A billiard room loafer was standing on the steps of a hotel the other day, when an acquaintance came along. "Ah!" said the first, "I shall have out my bays this afternoon." "Yes," replied the other—"I know—your green baize."

— Arthur is a real Union boy but not at all religiously inclined, so that his mama often has great difficulty in getting him to pray understandingly. One evening after much persuasion, he knelt to repeat his usual prayer, but rendered it with a slight variation, as follows: "Now I lay me down to sleep, shouting the battle cry of freedom."

Notice.

Hearing that the friends of JOHN SEAVER of Portsmouth would like to match him to walk any noted pedestrian, I, JAMES LAMBERT, challenge him to walk one hundred hours,—whichever man accomplishes the greatest number of miles during that time to win the money. A match can be made by Seaver or his friends on calling at Lambert's Saloon, at any time. j22*

Special Insurance Notice.

To my Friends and the Public:

Twelve years ago I was appointed Agent of the HOME INSURANCE COMPANY of New York, and have faithfully performed every trust and duty for the Company. Last week I received a note from Mr. N. A. CLARK, Special Agent, stating a change was to be made and the Agency to be transferred to another party. I at once thought what was in the wind, and left for New York to learn the cause, but before my return the change was made. I inquired why the change was made, as not a word had been said that all transactions were not satisfactory—and all the charges they brought against me were that the Company was making no money in Portsmouth, that the rates of Insurance were too low, and I was blamed for the late fires—the burning of Congress Block and Locke's Stable,

This same Special Agent, N. A. CLARK, spent several weeks in Portsmouth, examined all my risks that he wished to see, and generally called them very good; approved the risks of Preston, Shores and Salem in Congress Block. Mr. Clark, at my request, went with me to Woodbury Locke's Stable on State street, and examined the premises and stock, and fixed the rate at 1½ per ct., a half per cent. less than I had before insured him, and authorized me to take any reasonable amount Mr. Locke wanted insured, and under his instructions; and I insured the Stable was the cause of the fire, the blame should be on Mr. Clark, and not on me—for I should not have taken it at that rate. Such is a true statement of the facts and all charges that have come to my knowledge.

I think the Home Insurance Co., or their Special Agent, N. A. Clark, has done me great injustice, after working for them for so many years; then, without any satisfactory reason or complaint, and without notice, give my hard earned labors to another man. I trust my friends and the public will withdraw their Insurance, and bestow it on me, where it rightfully belongs,—for I have several as good and responsible Insurance Companies as the Home, of New York.

COTTON PLANTATIONS
FOR SALE.

We have for sale and ready for immediate occupancy some of the best cotton plantations in the very best cotton growing region of the South, with beautiful dwellings and all the buildings and machinery for cotton cultivation complete, and many with the laborers ready for work.—They will be sold with perfect titles for less than it cost to clear the land and erect the buildings.

Any of these plantations will pay for themselves and all expenses by a single crop, and must double in value within a year. As a raise a crop the coming year, operations must be begun in January. To facilitate investments at once the company are prepared to purchase, manage and cultivate plantations for Northern owners without any charge to the purchaser, the expenses being paid from the net profits.

We also are prepared to negotiate for advances for growing cotton, giving a bottom mortgage with perfect title upon the entire plantation to secure the principal, and giving one-third net crop for the use of the money—the plantations being run under the supervision of our own agents, and cotton shipped to our order. These advances can be deposited with our agency in New York or Boston, and will be paid at maturity at the same place without expense.

Cotton at present prices will pay from 2 to 300 per cent on these investments, amply secured and perfectly safe.

We assure Northern men of perfect security in their persons and property in any locality where such purchases and investments may be made by us.

We believe no more favorable opportunity for investment for Northern men ever presented itself, and at the same time it will supply the necessities of the freedmen by furnishing them with remunerative employment, and will help inaugurate the experiment of free labor in the cotton fields of the South under Northern auspices.

Mortgages negotiated upon plantations for which 20 per cent. interest per annum will be paid absolutely, or one-third the net crop of cotton raised.

An agent of the Company will leave for the South on the 15th of January to make investments and attend to the selection and purchase of plantations; until which time he can be addressed at the office of the New England Agency, No. 46 Washington St., Boston, Mass.

Send for lists of plantations and prices, in any desired locality. Send for circulars. Call for letters of introduction to our agents in all parts of the South

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three pieces, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump exceeds anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

ISRAEL MARDEN & CO.,

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these New Pumps in use on their premises,—for testimony to their excellence.

SACRED DRAMA.—We intended to notice several weeks since the beautiful drama so admirably performed at the exhibition of the Universalist Sunday School, which is well worth being presented again. It is said to have been prepared by their pastor; and was well adapted to the time and place. There first appears the representation of Religion, in white attire,—on her right is the Goddess of Liberty, on whose dress appears the stars and stripes and the Eagle, and aloft she bears the American flag; on the left of Religion the Angel of Peace waves her flag of white. From an open bible, selections are read appropriate to the time when war was raging in our land, and prayers for our country are made. The Angel of Peace inquires how long the contest will last—the Goddess of Liberty in a patriotic speech replies,—and Religion looks to God alone as our hope. In the debate, a courier with a banner comes announcing the series of victories—and the National air is heard and bells are ringing in the distance. Ere long another courier hastens in with the intelligence that Jeff. Davis is taken, and the war has closed. Then come the returning companies of soldiers,—their commanders recount the events of their experience—they receive from the hands of ladies their laurel wreaths,—which as they march on are placed upon the chaplet in memory of our fallen heroes, whose names are given. There are other scenes, but we have not time to present them: the whole had a fine effect, and left the most pleasant impression. The three ladies who so admirably sustained the lady parts, were — Miss Clara Whitcomb, Religion— Miss Annie Louise Fitts, Liberty—Miss Clara Morse, Peace.

RELATIVES OF COL. JULIAN ALLEN.

PRESIDENT JOHNSON AND A SIBERIAN EXILE.—It will be remembered that a few weeks since mention was made in these columns of an interesting family of Poles who had just arrived safely in New York, refugees from Russian bondage. They comprised the father and mother of Col. Julian Allen (a merchant of New York), also a brother and three sisters. It was stated that one son, who was implicated in the revolution of 1862, is still in Siberia. A few weeks since Colonel Allen addressed a note to President Johnson, praying that, although it was an unusual course and without a precedent, he would, by a kind word to the Emperor Alexander, interfere in behalf of his exiled brother. The letter was as follows:

NEW YORK, NOV. 30, 1865.

To his Excellency, Andrew Johnson, President of the United States of America:

SIR:—This is an unusual course and I am without a precedent to guide me, yet I plead the kindness of your generous and republican heart as a reason for applying to you, as the Executive and Head of the Government of these United States. Our relations with the Russian Government, especially those of the Emperor Alexander, are, and have been, of the most amicable and social nature. Now, sir, a case is presented for you to save a human being by a kind word spoken in behalf of a youth of much promise, whose immature years led him, with a heart fired with patriotism, to espouse the cause of his countrymen.

My half-brother, Michael Meyendorff, who stood high in the Government University, Minsk, at the age of 16 years joined the Polish Revolution of 1863, was taken prisoner and exiled to Siberia, without a specified length of time being set for his banishment. I now pray you to ask, as a Christian parent, to change that exile from Siberia to this country. Sir, your noble example in your own and my adopted land is a sufficient cause for interference to restore a child to its parents, a brother to his own, and bring to life, as it were, a soul from death.

Your action in this case will be handed down by a thousand grateful hearts whose prayers will always be yours.

Your humble servant and friend,
JULIAN ALLEN.

In response be received the following letter, which speaks well for the kind heart of the President:

DEPARTMENT OF STATE,
WASHINGTON, Jan. 16, 1866.

Julian Allen, Esq., New York:

SIR:—Your letter of the 30th of November last, addressed to the President, has been received, and referred to this Department. I have to inform you in reply, that Mr. Clay, the United States Minister at St. Petersburg, has been requested to make an informal application to the Russian Government with a view to changing the exile of Michael Meyendorff from Siberia to this country.

I am, sir, your obedient servant,
W. HUNTER, Acting Secretary.

NEW CITY MARSHAL.—It will be seen that J. Horace Kent, Esq. has been elected to this office. Mr. K. is every way well qualified for this position. Commanding in appearance, keen as a detector, quick in apprehension, and ever ready for duty, we may feel assured that the Police Department will be efficient under his supervision.

SHOCKING DEATH.—On Tuesday last, Mrs. Sanborn, widow of the late Benning W. Sanborn of South Deerfield, N. H. was smothered to death in the following manner: She was sitting before a Franklin fire-place when a coal of fire snapped out and struck upon her under clothes, setting them on fire but not causing them to blaze. Being helpless from paralysis, she was unable to put out the fire and a dense smoke at once filled the room which suffocated her. Her attendants had left her out a few moments before, and when they returned she was lifeless. She was upwards of 80 years of age and was the mother of Peter Sanborn, State Treasurer.

Capt. G. V. Fox intends to resign his position in the Navy Department, to be President of the California Steamship Company, recently organized in New York.

SNOW.—Winter is now upon us in earnest, although March is only about four weeks off. On Thursday last, some eight or ten inches of snow fell, and is somewhat drifted, keeping the Boston cars back an hour that evening.

STRANGE BRIDAL NIGHT.—A strange story is told of two sisters at Berlin. About three years ago one of these young ladies was engaged to be married, but on the bridal morning became so ill that she could not possibly go to the church. The bridegroom was a desirable one, and he was a fish who, it seems, had not easily been hooked. There was, therefore, great danger in delay, so instead of postponing the nuptials the second sister, covering herself in a long veil, personated the first, and duly went through the ceremony. The moment it was over she transferred the bridal dress and ornaments to her sister, who was thus considered to have all proper claim to this husband she married by proxy. It is only recently that a discovery has been made of the real facts, and proceedings are about to be taken not only in the civil, but also in the criminal courts of Berlin.

From Dyspepsia

READ! REFLECT!! ACT!!!

FARRANT & CO

Gentlemen,

I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as an indispositioner and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Caballa, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUES,
Merchant, Curacoa, S. A.

Important to the Afflicted.

DR. DOW can be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long and successful practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that never erred, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and weakens the mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with private rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Caputtes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

CHEROKEE CURE,

THE GREAT

INDIAN MEDICINE,

Cures all diseases caused by self-abuse, viz:—*Spermatorrhea, Seminal - Weakness, Nightly - Emissions, Loss of Memory, Universal Lassitude, Pains in the Back and Limbs, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Dyspepsia, Constipation*, and all diseases that follow as a sequence of youthful indiscretions.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MEEWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhea, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females.* The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " $1, " $3.

The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their uniform worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds, in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us in *perfect confidence.* We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

Dr. W. R. MEEWIN, 37 Walker St., N. Y.

HIGHLY IMPORTANT

TO

UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Ingorgements, Inflammations, Weakness and General Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult Dr. BRISCOE, by letter, describing their disease, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.

Address Dr. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 16, 1865. ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—Persons unfortunately afflicted will do well to give him a call. A short consultation will cost you nothing, but the word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

The Chronicle.

— No man ever did an injury designedly to another, who did not injure himself the most.

— "Are you a skillful mechanic?"—"Yes sir." "What can you make?" "Oh almost anything in my line." "Can you make a devil?" "Certainly, just put up your foot and I will split it in three seconds. I never saw a chap in my life that required less alteration."

— "Mother," said little Ned, one morning after having fallen out of bed, "I think I know why I fell out of bed last night. It was because I slept too near where I lay in." Musing a little while, as if in doubt whether he had given the right explanation, he added, "No, that wasn't the reason; it was because I slept too near where I fell out."

— "Sir," said a sturdy beggar to a benevolent man, "please to give me a quarter. I am hungry and unable to get food." The quarter was given, when the beggar said: "You have done me a noble deed. You have saved me from something which I fear I will yet have to come to." "What is that?" said the benefactor. "Work," was the mournful reply.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this our particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) to treat every case and as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healthy and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsle and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. T. broken down in health, now rejoice in all the blessings of life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation, as a safe remedy, unapproached, and far in advance of every other medicine—for obstructions, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.
N.B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N.B.—No students or boys employed. Notice this, address all letters to

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles *south* of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is level, easily cleared, and varies from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Factories, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters, a health ful climate, and a country beautiful, fully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, we cordially invite a visit.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, JANUARY 30, 1866.

STRAWS FROM WASHINGTON.—The papers of Monday morning, all over the country, published a dispatch from Washington, dated Sunday, purporting to give "the substance of a conversation which took place to-day between the President and a distinguished senator." The President is represented, as having said "he doubted the propriety at this time of making any further amendments to the Constitution,—but if any were to be made, he would recommend this:—Representatives shall be apportioned among the several States which may be included within this Union, according to the number of qualified voters in each State. Direct taxes shall be apportioned among the several States which may be included within this Union, according to the value of all taxable property in each State." The article represents the President as opposed to the agitation of the suffrage question in Washington at *present* because it is *ill-timed* and would lead to contention, &c.

Perhaps these things are correctly reported; but *we doubt their accuracy*. Taking the report as correct, however, we remark, that Congress and the People can amend the Constitution, or keep it as it is;—but the President has no such power, though his opinion is entitled to respectful consideration, like that of any other eminent citizen.

As to suffrage agitation in the District being *ill-timed*, President Johnson and all other persons may rest assured, that the old Slavocracy of the District of Columbia, (who would like to see Jeff. Davis in the White House and Andrew Johnson on the gallows and in the grave,) will *contend* against every approach towards justice and equity now, exactly as they fought against stopping the Domestic Slave Trade there, and finally against abolishing slavery itself.

At the times when both these measures were proposed, we had just such warnings against them, uttered by our great men and high officers, as we get to-day against any and all measures which look to real justice and equity. An old aristocracy dies hard. Truly they see *no right time* to die! Suppose we postpone the thing now, as our foolish great men postponed the whole question in 1850; what then? Did that settle anything? Yes: it settled into the Kansas swindle, the Dred Scott *dicta*, and the rebellion! And would a postponement now, settle any thing? Yes; it would erect all the present rebel discontent into defiance, and make it a sure thing that they would fight against justice next year, even more bitterly than they do now.

U. T.

☞ A Washington correspondent of the Boston Advertiser says a private letter from a secessionist of Macon, Georgia, dated ten days ago, after stating that the holidays passed off without any insurrection by the negroes, continues as follows:

For this fortunate result the country is indebted neither to the Freedmen's Bureau nor to the radical faction in the North, but to the vigilance and preparation of the people and the good sense of intelligent negroes, some of whom are to be found in every neighborhood. In more than one State, and in more than one county in each of these States, have packages of Colt's repeaters, intended for the blacks, been seized, and insurrectionary plots been frustrated. These arms were not ordered by the negroes, but were sent out by the radical revolutionists of the North to their agents of mischief in the South, most of whom were in some way connected with either the Freedman's Bureau or the United States army.

We have no doubt the gentleman lies a little: we suspect he lies largely.

☞ The letter from Governor Orr, of South Carolina, about which so much has been intimated, is to the effect that some action on the part of the government is needed to compel the freedmen to work. *Per contra*, the New York Herald's Charleston correspondence of the 27th states that the negroes generally are industriously at work on the plantations, and their conduct is spoken of in very favorable terms. The planters are exhibiting a conciliatory spirit toward the freedmen, paying them good wages and are disposed to throw no obstacles in the way of their education.

A large cotton crop in the coming year is confidently expected.

— A Richmond correspondent says one of the Virginia delegation waiting admission to Congress, telegraphed to that city from Washington last Wednesday that it is the intention of President Johnson to supersede the present Virginia State government by a provisional government. This received credence in Richmond, and therefore, of course, created much commotion and consternation in financial as well as political circles; and the surmises as to the cause of the President's reported determination are numerous as well as serious, it being generally attributed to the intractable conduct of the Legislature.

☞ The small pox is prevalent in Mobile. Then the citizens are to be *pitied*.

WASHINGTON ITEMS, Jan. 28, by Perley.—Hon. Randall Hunt, Senator elect from Louisiana, will remain here, but the other gentlemen elect to Congress from the Southwest will all have left by Tuesday. They see no chance of obtaining admission, and even the Tennessee members begin to despair.

New charges have been framed against the pirate Semmes, based on his burning of ships and cruel treatment of prisoners not sanctioned by usages of war.

The friends of Wm. E. Dodge of New York are confident that he will succeed in demonstrating that he is legally entitled to the seat now occupied by James Brooks. The contestants are to appear before the House Committee of elections.

Bills will be introduced into Congress during the week, extending universal suffrage over the whole United States, without distinction of race or color.

The Freedmen's Bureau bill which passed the Senate provides that the freedmen to whom Gen. Sherman granted homesteads on the Sea Islands of South Carolina shall have possession of them for three years from the date of Gen. Sherman's order. This is not acceptable to the original secesh owners, who had hoped to get their plantations into their hands again, and to force the homeless freedmen to work for them at nominal wages. Gov. Orr has sent here to remonstrate against it Mr. Trescott, one of Buchanan's diplomatists, and he is endeavoring to rally the conservatives against permitting the freedmen to remain on homesteads which they were told the Federal Government would guarantee to them.

Representative Thad. Stevens says that if the proposed Constitutional amendment is recommitted without instructions to the Joint Committee on Reconstruction, he will report it in a shape that will be more acceptable, and that will receive a two thirds vote.

The Senate Committee on the District of Columbia will decide at its meeting on Wednesday next whether to pass the House bill establishing universal suffrage in the District, or to substitute another with penalties. The bill substituting a commission for the present municipal government was drafted by the Chairman of the Senate District Committee, Governor Morrill, and not by the old residents, as has been intimated.

NEW YORK MORALS.—Burleigh writes thus:—

Our Metropolitan Police is not popular with a certain class among us. They are a county and not a city appointment. They interfere sadly with the doings of the ring and unscrupulous politicians. It came into being because the force was a mere tool in the hands of base politicians. Its organization was resisted by the old force with Wood at its head, and was baptized at its inauguration in blood. Every means has been taken to belittle it, and those who would like to see the good old times return are in ecstacies just now. It has been found that the clerk in the Chief Clerk's Office has been engaged for some time in selling commissions; that is, taking the examination of one man and selling it to half a dozen men who had never been examined, and thus allow them to get a place on the force. His name is Swift. He is the last man in the Department that would have been selected for the performance of any such trick. He was closely attentive to his duties apparently; close mouthed and of very few words; sober in his aspect and apparently old fogy. Like Jenkins, he was a hypocrite of the first order. It has been found out that he was long in the lottery policy business. He was a nightly visitor of the gambling saloons, and indulged of course in all the kindred vices and excesses—the same story that is told of nine out of ten defaulters in our city.

Mr. Bradford's defalcation in the department of Administrator amounts to over $40,000. The city is bound to pay it. He was a political Adonis. Everybody knew that his style of living was not justified by any honest income that he possessed. He was a notorious blackleg, and spent his summers in Saratoga, living in style, giving dinners, and gambling with the deepest. He never paid his debts, except what are called "debts of honor," and to do this he borrowed money that he never paid, or stole it out of the estates of widows and orphans. All this was known two years before he confessed and ran away.

FATTENING CALVES.—A sensible practical farmer told us the other day that he had often noticed that calves would thrive better on milk that was not rich in butter, than on what was commonly called very rich milk. That is a fact in accordance with what we recently stated, that the nutritive elements of milk reside chiefly in the caseine. If you have a cow that gives particularly rich milk and one that gives a quantity poorer in butter, it is better in every way to feed the calf on the milk of the latter. The calf will thrive better and you'll get more butter from the milk of the first cow.—*Mass. Ploughman.*

— The manufacturers of the J. Monroe Taylor Gold Medal Soap have signally succeeded in placing that valuable article foremost of all the soaps in existence, and we congratulate them upon the eminent success which has already crowned their efforts. It should be in every household from the Atlantic to the Pacific. It is indispensably necessary for the comfort, pleasure, and happiness of every family in the land, and the mitigation of all the very heavy burden upon womankind; try it and you will ever buy it. Depot 112 Liberty St., New York. 42

— The confectioners of Paris have agreed with a missionary society to insert extracts from religious works in their bonbons, instead of sentimental mottoes.

IMPORTANT VERDICT.

The important law suit, Frost *vs.* the City of Concord, has just been happily closed, by a verdict in the Supreme Judicial Court, of $50 for the plaintiff. At a former trial, Frost obtained a verdict of $2500 against the city, for alleged personal injuries which he received when his horse and carriage went down over a bank in the highway. This verdict, obtained by the craft and skill of Messrs. George, Foster and Sanborn, his counsel, did not satisfy Mr. Frost, and so he procured this new trial, in which he and his counsel averred that he was paralyzed, helpless, and affected with a great number and variety of diseases, all in consequence of the accident, and that the city was wholly to blame, because it had not railed-in the place to prevent horses running off.

On the other hand, the city, by its Solicitor, and by its counsel, Messrs. Tappan and Mugridge, held that Frost's horse was skittish, that the road was good enough, and that with decent horses and drivers, there was no danger at that place: also, that Frost's injuries were not half so great as he pretended; and such as they were, were owing to a bad horse and careless driver.

A Concord letter to the Boston Advertiser says, "The plaintiff claimed $10,000. The jury on review were out twenty four hours or more, and brought in a verdict for $50, which is a substantial victory for justice and Concord. The award is merely nominal, and by our statutes the costs of the successful reviewer are limited to a very small amount, it being an action for increased damages. The result will tend to discourage the idea of unlimited responsibility of towns for defective highways, and will break the prestige of the great law firm, one of whose specialities seems to be the prosecution of all such cases *vs.* Concord."

A great cloud of witnesses were examined in the case, among them many Doctors in Medicine, and other was administered to the patient or plaintiff, in open Court. The result of this experiment was claimed by the counsel on *each* side, as favoring their side respectively. But the jury gave it to the defendant. The plaintiff must have a big bill of cost to pay, besides a "little bill" of lawyers' fees.

A WINTER THUNDER STORM AND A RAILROAD CRASH. The Cincinnati Commercial of Sunday says:

"We have had an extraordinary number of remarkable nights and days, but Friday night was the most notable of the season. Friday was almost warm enough to have wooed the blue birds, the bees and the peach blossoms from their hiding places. At nightfall the sky darkened and the thermometer fell, and soon after midnight there was a mighty storm. The wind was wild, and dashed the torrents of rain against the houses with prodigious violence. There was an immense developement of electricity. The glare of lightning was at times as keen and incessant as in a midsummer night's thunder storm. A house west of the city was struck by lightning and burned, the red light of the flames showing intensely against the black and dismal sky, and the clangor of the fire bells was heard in the uproar of the tempest. During the same storm a tree, near the barracks of the Western Military Institute, at Dayton, was struck and shivered by lightning.

The express train from Indianapolis, rushing along at high speed, a few miles below the city, ran into a freight car, which the wind had forced from a side track upon the road. The crash was horrible, and the locomotive whirling over crushed the engineer to death, and it was impossible until late yesterday afternoon to clear the wreck and remove the body of the poor fellow who had met so hard and untimely a fate.

A midnight thunder-storm in mid-winter was a startling novelty, and thousands were roused from slumber, and for hours were wakeful and anxious. At three o'clock yesterday morning the air was filled with particles of ice, that fairly whistled as they flew in the gale, cracked on the window glass and stung the faces of those belated and exposed. At daylight the streets and roofs were white with snow, and the mercury had fallen in the neighborhood of fifty degrees in twelve hours."

☞ The telegraph a few days since reported much excitement at Titusville, Pa., over a supposed attempt to burn the town on Sunday, 21st. Further accounts by mail state that besides fires that destroyed a number of buildings, other fires were lighted in different parts of the town. Attempts were made to interfere with the fire apparatus during the progress of the fires. The hose was cut with a knife, and in getting the engine in position at the mill race an effort was made to run the machine into the creek. Four notorious characters were taken into custody, and the police had hard work to keep them from being lynched. A vigilance committee has been appointed there.

☞ It is related that a peculiar scene happened in the Vatican on New Year's Day. After having offered his congratulations to the Pope, Baron Meyendorff, the Russian Minister, began to talk politics to His Holiness, and at last roundly asserted that in Poland Roman Catholicism and revolution were synonymous. To this insult the Pope calmly replied; "Though I respect the Emperor of Russia as a monarch, I am necessitated to request his envoy to withdraw from my presence." Baron Meyendorff quitted the room, and Cardinal Antonelli lost no time in requesting Count Mensdorff to make known what had occurred to the Russian Court.

Light! Light! Light!

PHOTOLEUM.

This is a new discovery, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *excellent, safe* and *valuable* illuminating oil ever before the public, giving a *pure, white, brilliant* flame, surpassing even gas-light for reading and leaving all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* emits no sickening odor when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it char the wick or smoke the chimney, so that once trimming will suffice for a week or more. Photoleum produces a flame that does *not diminish*, but continues the same until every drop of oil is consumed. It is, therefore, very desirable for lighting churches, railroad and horse cars, manufactories and public buildings. The public are invited to call and examine.

Manufactured and for sale by the AMERICAN PHOTOLEUM COMPANY. Office at C. F. WYMAN & CO.'S, 87 Water Street, Boston.

BRANDRETH'S PILLS. INFLUENZA. DIPTHERIA. In inflammatory affections, when no bleeding is permitted, a free use of these Pills soon modifies the alarming symptoms, and preserves life, according to the directions, usually quickly cures, and certainly nothing is risked in using Brandreth's Pills. For cold, influenza, diptheria, pains of the head, dizziness and apoplexy, no medicine can be compared to them. In erysipelas, fever and ague, small pox, and in all the diseases of childhood, their use insures a speedy recovery of health.—They produce these results simply by taking from the blood its impurities, leaving

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR

IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom can speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female Remedy, and are considered by all who know anything of them, as the surest, safest and most infallible preparation in the world. for the cure of all female complaints, the removal of all the obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and the sweet, reliable results they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found in a wrapper folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. LYON, 167 Chapel Street, New Haven, Conn; who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Sold by Druggists everywhere.

Special Notice.

"*Great oaks from little acorns grow.*" The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical fraternity only go to prove the elaborate study that has been given to ourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may be used, and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death be the result and final close. MASON'S BLOOD DYSPEPSIA SALVE is a remedy whose cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, MASON'S SALVE is infallible. Sold by J. Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spots) and Lentigo, or freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a preparation that eradicates discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

POLICE COURT, Jan. 29.—The reporter of the doings of this august tribunal is often requested to suppress the names of parties convicted therein, and he now promulgates an infallible recipe whereby such publicity may be avoided, viz: Don't do anything to cause you to be brought before the Court. Being modest, he arrogates to himself no great credit for this remarkable discovery.

The court was engaged in an assault case, which ended by an assault upon the pockets of the accused to the extent of a dozen dollars, or so.

CRIM. CON.—A case occurred in this city some evenings since, where the parties were found *in flagrante delicto*, by the injured husband. He shot at the destroyer of his peace, wounding him so that it was necessary to call in medical aid; but the affair has been hushed up.

☞ It will be seen by a notice elsewhere, that Mr. John W. Seaver, the printer pedestrian, who recently accomplished the great feat of walking one hundred miles in one hundred hours, without sleep, has accepted a challenge from James Lambert, of Boston, to walk a hundred hours for a purse of $1000, to be won by the man walking the greatest number of miles in that time. Mr. Seaver and his backers leave for Boston this morning to make up the match; and the time and place agreed upon will be made known hereafter.

☞ Attention is called to the card of Mrs. Mason, in another column, relating to the Massachusetts Mutual Life Ins., Co., and the prompt manner in which they meet their liabilities. Life insurance has come to be recognized as of great benefit to all who participate therein, and the Massachusetts Mutual, of Springfield, stands high among the leading companies of the country. M. V. B. Edgerly, of Manchester, is general agent; W. H. Parmenter, of Dover, general travelling agent.

☞ A correspondent in Hampton, writes to us as follows:

The Rev. I. F. Waterhouse of Portsmouth delivered an admirable lecture on Temperance on Tuesday evening in Hampton, to a large and appreciative audience. The lecture was well composed and eloquently delivered. His language was strong and forcible. His efforts cannot fail to awaken an interest in the cause of temperance. We can recommend to local societies to secure this able and attractive lecturer.

WINNICUMMET.

☞ Old clothes, especially for women and children, are very much needed among the Freedmen. Donations of any such articles will be gratefully received at the Unitarian Chapel on Court street, Wednesday and Thursday afternoons of this week, and forwarded at once to the sufferers.

NAVAL.—Actg. Ensign Charles E. Buck, of this city, has been honorably discharged from the service.

ARMY.—The following order from Gen. Hooker, commanding Department of the East, was received by Brig. Gen. Gates on Saturday evening, and looks to the still further reduction of our military establishment toward its peace footing:

General Orders, No. 2.

In obedience to General Orders, No. 3, from Headquarters Military District of the Atlantic, dated Jan. 16, 1866, the following Districts, constituted by General Orders No. 64, of 1865, from these Headquarters, are hereby discontinued. The several Commanders of military posts in such districts will hereafter report direct to these Headquarters. The records of such districts will be boxed up and sent to the Adjutant General's Office, Washington, D. C.:

District of New Jersey, District of Rhode Island and Connecticut, District of Massachusetts, New Hampshire and Vermont, District of Maine.

The District of Southern New York and District of Northern and Western New York will remain as constituted by said Order No. 64.

Regimental officers serving on the Staff at Headquarters of Districts so discontinued, will join their proper companies and regiments. All others, if not assigned to other duties by orders from superior Headquarters, will repair to their homes, reporting their address to the Adjutant General of the Army, by letter, as also to these Headquarters.

☞ Among the many nice papers for the farmer, now published all over the land, "The Country Gentleman," at Albany, weekly, has long held very high position,—and most deservedly so. It is edited with great ability and skill, and always in the most *gentlemanly* manner too; and the list of correspondents is almost endless, and their contributions exceedingly reliable and interesting. The New York "Cultivator" was united with it Jan. 1st, and the joint title now is, "The Cultivator and Country Gentleman"—for the Farm, the Garden, the Fireside. Price $2.50 per year in advance; quarto form, and always crammed with good things.

☞ The Council of the Fenian Irish Republic have published in New York an address dated in Dublin. They ask for aid to the Irish Army of Independence, in the shape of a Loan, to be paid in six months after the establishment of Irish Independence.

MAGAZINES FOR FEBRUARY.—The Eclectic, with its choice pickings of European periodical literature, comes prefaced with a full length portrait of Hon. Mr. Gladstone. W. H. Bidwell, publisher, 5 Beekman St., New York.

Godey's Lady's Book has its usual large quantity of embellishments, and maintains its well established rank among the publications intended to please the fair sex.

Demorest's Monthly continues to offer an attractive table of contents, besides furnishing full-sized patterns with every number. J. H. Foster, agent for this city.

COTTON PLANTATIONS
FOR SALE.
We have for sale and ready for immediate occupancy some of the best cotton plantations in the very best cotton growing region of the south, with beautiful dwellings and all the buildings and machinery for cotton cultivation complete, and many with the laborers ready for work.—They will be sold with perfect titles for less than it cost to clear the land or erect the buildings.

Any of these plantations will pay for themselves and all expenses by a single crop, and must double in value within a year. To raise a crop the coming year, operations must be begun in January. To facilitate investments at once the company are prepared to purchase, manage and cultivate plantations for Northern owners without any charge to the purchaser, the expenses being paid from the net profits.

We also are prepared to negotiate for advances for growing cotton, giving a bottom mortgage with perfect title upon the entire plantation to secure the principal, and giving one-third net crop for the use of the money—the plantations being run under the supervision of our own agents, and cotton shipped to our order. These advances can be deposited with our agency in New York or Boston, and will be paid at maturity at the same place without expense.

Cotton at present prices will pay from 2 to 300 per cent. on these investments, amply secured and perfectly safe.

We assure Northern men of perfect security in their persons and property in any locality where such purchases and investments may be made by us.

We believe no more favorable opportunity for investment for Northern men ever presented itself, and at the same time it will supply the necessities of the freedmen by furnishing them with remunerative employment, and will help themselves, and the same time it will supply the necessities of the freedmen by furnishing them with remunerative employment, and will help themselves

Morning Chronicle.

THE SNOW.

Since the publication of "The Bridge of Sighs," by Hood, we have seen nothing equal to the following poem in point of smooth versification, flowing rhythm and touching pathos. The plaintive wail of a woman's lost honor will bring tears to every sensitive breast. The author and subject of the piece was an actress of some reputation, who formerly lived in St. Louis in great style and magnificence. She was connected by marriage with some of the first people in the country, and to those who know her the poem will be doubly attractive—a woman of great genius an l surpassing beauty, fallen from her proud estate, paints her own soul, and lets the world see the remorse written upon it in such terrible letters.—*Exchange.*

Oh the snow, the beautiful snow,
Filling the sky and earth below;
Over the housetops, over the street,
Over the beads of the people you meet.
Dancing,
Flirting,
Skimming along,
Beautiful snow! it does no wrong;
Flying to kiss a fair lady's cheek,
Clinging to lips in a frolicsome freak,
Beautiful snow from the heaven above,
Pure as an angel, gentle as love!

Oh! the snow, the beautiful snow,
How the flakes gather, and laugh as they go
Whirling about in the maddening fun,
It plays in its glee with every one.
Chasing,
Laughing,
Hurrying by;
It lights on the face and it sparkles the eye.
And the dogs, with a bark and a bound,
Snap at the crystals that eddy around;
The town is alive, and its heart in a glow,
To welcome the coming of the beautiful snow!

How wild the crowd goes swaying along,
Hailing each other with humor and song!
How the gay sledges, like meteors flash by,
Bright for the moment, then lost to the eye—
Ringing,
Swinging,
Dashing they go,
Over the crust of the beautiful snow;
Snow so pure when it falls from the sky,
To be trampled in mud by the crowds rushing by,
To be trampled and tracked by the thousands of feet,
Till it blends with the filth in the horrible street.

Once I was pure as the snow—but I fell!
Fell like the snow-flakes from heaven to hell;
Fell to be trampled as filth in the street;
Fell to be scoffed, to be spit on and beat;
Pleading,
Cursing,
Dreading to die,
Selling my soul to whoever would buy;
Dealing in shame for a morsel of bread,
Hating the living and fearing the dead.
Merciful God! Have I fallen so low?
And yet I was once like the beautiful snow.

Once I was fair as the beautiful snow,
With an eye like its crystal, a heart like its glow;
Once I was loved for my innocent grace—
Flattered and sought for the charms of my face!
Father,
Mother,
Sisters all,
God and myself I have lost by my fall;
The veriest wretch that goes shivering by,
Will make a wide sweep, lest I wander too nigh;
For all that on me or above me I know,
There is nothing that's pure as the beautiful snow.

How strange it should be that this beautiful snow
Should fall on a sinner with nowhere to go!
How strange it should be, when the night comes again,
If the snow and the ice struck my desp'rate brain
Fainting,
Freezing,
Dying alone,
Too wicked for prayer, too weak for a moan,
To be heard in the streets of the crazy town,
Gone mad in the joy of the snow coming down,
To be, and so die, in my terrible woe,
With a bed and a shroud of the beautiful snow.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
TARRANT & CO
Gentlemen. I am a resident of Curacao, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done me. For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabiale, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HENRIQUER,
Merchant, Curacao, S. A.
New York, June 28th, 1865.
WE ASK
The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of
Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.
Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street, BOSTON, MASS.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other Foreign Countries, Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Reasonable advice as American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCESS is THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, are all open to his clients and granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved to inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on an average twelve applications SIX TEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

VALLANDIGHAM RAMPANT.—At a late Democratic meeting in Ohio, Clement L. Vallandigham made a speech counselling the most aggressive party action. He relieved his feelings as follows:

"To-day the Democratic party, in many places in the land, languishes from a false politeness and a sick sentimentalism. We have to change all that. We must speak in the vernacular; call things by their right names; take the aggressive; make charges upon the enemy, instead of parrying and warding there blows. Let us teach the enemy that their are blows now to be given, and none to be received. Let us go forward, and using the last words of Marmion which the great Wizard of the North put in the mouth of his hero,

"Charge, Chester charge,
On, Stanley, on."

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) as to obtain the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Glands, Nodes, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now robust in all forms, makes life enjoyable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Help, by A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichoit's Italian Female Monthly Pills. The sale of more than 30,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other constitutional females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. The persons use directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail, or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicine securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

The soil is rich and productive, ranging from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than by any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yard, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of colonel Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Colonel Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* d1—dawGM

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.
These Famous Remedies
Cannot stay the flight of years, but they can force back, and hold back, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. In chronic cases their almost magic influence is felt at once; and the usual obstinacy of the most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be used with good effect in prescribed doses to the youngest infant.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.
DR. MAGGIEL'S PILLS
Invariably Cure the Following Diseases:
Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Dyspepsia,
Diarrhœa,

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JANUARY 31, 1866.

WASHINGTON ITEMS.—On Tuesday a communication was sent to the Senate by the President, that it was inconsistent with the public interest to furnish the letters of Gen. Sheridan and other officers on the Rio Grande relative to any violations of the neutrality law.

The Supreme Court, in a bridge case, decided that the power under the Constitution to regulate commerce extends to all navigable rivers, and does not stop at State lines; and that bridges are in the character of ferries.

Several of the Alexandria Christmas rioters have been discharged, leaving eight on trial. Of these, two will probably be found guilty of murder, as the evidence is very strong against them.

The U. S. Revenue Commission make a report in which it is suggested that the present laws would probably give a surplus Revenue of $85,000,000;—and therefore they recommend several changes and reductions of taxes and duties.

IN THE U. S. SENATE, Jan. 29, Mr. Sherman offered a bill, which was referred, authorizing the President to appoint at the request of any College capable of educating one hundred and fifty young men, a military officer to act as President or Superintendent and to give instruction in military service.

Mr. Sherman, from the Committee on Public Lands, reported a bill to grant a million acres for the use of the public schools in the District of Columbia.

A resolution was introduced and referred to the Reconstruction Committee, that no State or Territory shall make any distinction between citizens on account of race or color, and all citizens shall beprotected in the full and equal enjoyment and exercisof all civil and political rights, including suffrage.

Mr. Trumbull called up the bill for the protection of all persons in their civil rights, and offered an amendment to insert the following words after the enacting clause,"that all persons of African decent born in the United States are hereby declared to be citizens."

Mr. Trumbull spoke in favor of the bill.

Mr. Saulsbury follwed Mr. Trumbull, opposing the bill,of course. The House passed the resolution heretofore offered, commending the President's refusal of carriage and horses from friends in New York, and expressing the sense of the House that the practice of giving presents for appointments or promotion is demoralizing and ought to be prohibited.

Gen. Sherman being in the hall, a brief recess was declared. The speaker conducted him to the Speaker's chair and introduced him by appropriate remarks, to which Gen. Sherman replied:

Mr. Washburn proposed three cheers, which were enthusiastically given.

A resolution that it is the deliberate judgment of the House that Jeff. Davis be speedily tried was offered, and a debate arising, it was laid over.

A resolution was adoped that the District Committee report a bill excluding all persons in the District of Columbia from suffrage who have willingly borne arms against the United States.

Debate on the Constitutional amendment was then taken up.

Mr. Raymond made a speech against it, of two hours. Mr. Julian followed.

The previous question was then ordered.

FROM WASHINGTON on Tuesday, we learn by Perley, that Pres. Johnson acknowledges the "semi-official" *expose* of his views, and hopes they will "attract the *conservative* interests of the country:"—that he is severe on Congress about reconstruction;—and that, he says, the "Union party took him up without his solicitation, knowing his life-long opinions on great national questions, which opinions he did not *propose* to abandon."

[We don't see how any man can *propose* to abandon opinions:—tho' when an opinion is seen to be false or unsound, it ought to be abandoned. But we know that a change of circumstances will sometimes compel a man to change his action. For example, Gen. McClellan saw reason to *change his base* very suddenly, and moved under a change of condition, from before Richmond, to the gunboats. So Congresses, and Presidents, and Peoples, are compelled to change their action, by the force of events. The rebels and the rebel States must learn, and unlearn, a number of things: and we trust our President even, is not too old to learn. The free *people* of the Free States have learned much in the school of experience, and are not disposed to give the reins of power into ex-rebel hands without previous guaranties, at the bidding of anybody.]

It is rumored in Washington, that a military commission is to try Jeff. Davis: and it is said the President has *not* signified his purpose to appoint a Provisional Governor in Virginia, as was reported.

A DISCOVERY ON BOARD THE SUSPECTED STEAMER METEOR.—It is reported that while the government officers were sounding out the coal in the hold of steamer Meteor, with lengthy rods, one day last week, they came upon a piece of metal—round, and several feet long. "Ah ha!" said they, "we've got you now!" A heavy gang was put on, the coal cleared away, tackles rigged, and the huge mass hoisted out. It proved to be a spare piece of shaft, put on board for use in case the regular one gave out. The Boston agent was on board. It was his turn to laugh. "It will make a very good gun," said he, if you take it ashore and bore a hole in it!"

☞ The New Orleans Times learns that the Navy Department is now engaged in refitting and preparing for active service eleven iron clads at that port, and that they are rapidly approaching completion. It is also rumored that military orders have been issued requiring vessels bound for the Rio Grande to call at Galvaston, in order to convey troops to the Mexican border. There is evidently something in the wind.

TENNESSEE.—The work of reconstruction does not go on smoothly in Tennessee, if Gen. Thomas, who was before the Reconstruction Committee on Monday, is to be believed. Gov. Brownlow writes to Judge Kelley: "I will not surrender; now, in my declining years, should the Federal Government turn us over to the tender mercies of the galvanized, pardoned rebels of Tennessee, I will take my family and go North, to live and die in peace."

The Tennessee Senate has endorsed the Union memorial to Congress and the President representing that the State is wholly unfit to be surrendered to its own control. A resolution declaring that the memorial did not express the feeling of the Union men of the State was voted down—10 to 8—on the 18th instant.

AT SAVANNH, Gen. Mercer, tried by a Military Commission for the murder of seven Union prisoners, has been acquitted and released from prison. Three soldiers of the 12th Maine regiment have been under trial for the murder of a barkeeper named Cordes in November. No evidence existed against them. A steamer brought 300 freedmen from the Sea Islands, to their old homes.

THE STREETS.—The Boston Commercial Bulletin is responsible for the following: "The ladies have adopted a fashion of looping up their dresses about three inches all round from the bottom of the skirt. The sidewalks of the city are therefore very imperfectly swept, and the attention of the Superintendent of streets is directed to the fact."

GOLD, Tuesday, 141.

— The workmen at the Gosport Navy Yard have been reduced to 200.

— On Sunday night, the Vigilance Committee of West Norfolk, Vt., arrested five garroters.

— The jail and guard-house at Marietta, Ga., was recently destroyed by fire, and 13 prisoners burnt to death.

— Gens. Grant and Butler are reported to have met and chatted most amicably together in Washington last week.

— On Friday evening, in Philadelphia, John Mahoney was shot dead at a ball by Francis Paul. The latter was arrested.

— The grand jury of Mercer county, New Jersey, has "presented" the students of Princeton College for their lawless conduct.

— A married monster said he lately dreamed that he had an angel by his side, and upon waking found it was nobody but his wife.

— There are at present nearly twelve hundred applications for pardon on the President's table, most of which have been there for several months.

— The Portland Argus says there is in possession of a family in that city a hen which they have had twenty-four years. This ancient biddy lays quite regularly and gives promises of good duty for years to come.

— The Scientific American informs the ladies that if they would have corn beef juicy after it is cold, and not dry as a chip, they should put it on to cook, and they should not take it out of the pot when done until it has become cold.

—Since the passage of the Internal Revenue Tax Law, in September, 1862, the sum of six hundred and thirty millions of dollars had been collected, up to Jan. 1st, 1866.

— Recent advices from Italy say that several engagements had taken place in the Papal territory between bands of brigands and soldiers of the Pontifical and Italian armies. The brigands were defeated, and some of their more notorious leaders were arrested. They allege that they cannot be punished, as they will publish their brevets of commission from the ex-King of Naples, dated in Rome, with a correspondence which they maintain with the leading Cardinals of the Pope's Cabinet.

— The American public is gradually absorbing the three hundred and eleventh thousand of "Uncle Tom's Cabin."

—In Illinois, the farmers forty miles from Chicago find it economy to cart their grain with oxen to that city, instead of sending it by rail. A comment on railroad charges.

— The New Orleans Picayune is exultant over the success of the establishment of a direct line of steamships between that port and Liverpool.

— M. Guizot is said to have sketched the proper policy of France to a friend in the ministry in these words: "Stop at Rome, get away from Mexico as quickly as you can, and don't go near Belgium."

— A negro indicted in Covington, Ky., for committing burglary as a slave, has been discharged by the Court, because, being indicted as a slave, he cannot now be tried, a free man, under the indictment.

— The young men of Rushville, Indiana, have signed a pledge to abstain from the use of all intoxicating liquors for one year, on condition that whenever one of their number violates the pledge, his name is to be published in both the county papers.

— According to the Tyler Reporter, some lucky individual has "struck ile" in Nacogdoches county, Texas, and companies from the North and from Canada are purchasing large tracts of land in that neighborhood.

— Official advices from El Paso of Dec. 29 state that after the occupation of Chihuahua by the French, they sent an expedition against El Paso, but, on hearing of preparations for their reception, they marched back to Chihuahua.

— On Christmas day a bloody row occurred in Rocktown, Miller county, Mo., between some militia men and and a number of returned Federal soldiers, in which two brothers named Smith were killed, and F. M. Elsy and wife severely wounded. Rum was the cause.

— A man at Rouse's Point, Vt., recently went to get an individual arrested, for an assault upon himself, obtained a writ from a justice, likewise some gin from a grocery, committed an assault upon Mr. Ayer, and got thirty days in Plattsburg jail from the same justice. This was going for wool and coming back shorn.

— Mr. Sothern has been sued by a Birmingham manager fo breach of contract, he having failed to fulfil an engagement on account of sickness. The actor urged that he was a greater loser than the manager, as he was to have half the gross receipts, and brought proof of his actual illness, which the judge pronounced indisputable; but the jury found a verdict for £50 damages. [The wisdom of this verdict is past finding out.]

— A certain President of a Theological Institution convened the students at his room one evening, and said to them that he had observed that they were all growing thin and dyspeptical from the neglect of the matron's not providing herself with Herrick Allen's Gold Medal Saleratus; the announcement of which caused great confusion. The lady of the house has now provided herself with the Gold Medal Saleratus, and the students are each growing quite portly, and are more healthy than ever. Ladies, go and get a paper, and you will never use any other. Depot 112 Liberty Street, New York. All the Merchants have it. 42

Light! Light! Light!

PHOTOLEUM.

This is a new discovery, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *excellent, safe* and *valuable* illuminating oil ever before the public, giving a *soft, steady* and *brilliant* flame, surpassing even gas-light for reading and leaving all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* emits no sickening odor when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it char the wick or smoke the chimney, so that once trimming will suffice for a week or more. Photoleum produces a flame that does *not diminish*, but continues the same until every drop of oil is consumed. It is, therefore, very desirable for lighting churches, railroad and horse cars, manufactories and public buildings. The public are invited to call and examine.

Manufactured and for sale by the AMERICAN PHOTOLEUM COMPANY. Office at C. F. WYMAN & Co.'s, 87 Water Street, Boston.

BRANDRETH'S PILLS. INFLUENZA. DIPTHERIA. In inflammatory affections, when no bleeding is permitted, a free use of these Pills soon modifies the alarming symptoms, and perseverance, according to the directions, usually quickly cures, and certainly nothing is risked in using Brandreth's Pills. For cold, influenza, diptheria, pains of the head, dizziness and apoplexy, no medicine can be compared to them. In erysipelas, fever and ague, small pox, and in all the diseases of childhood, their use insures a speedy recovery of health.—They produce these results simply by taking from the blood its impurities, leaving

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the relief of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50 per bottle.**

Prepared by Dr. JOHN L. LYON, 105 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp) concerning any of the private diseases and female weaknesses. **Price $1.50 per bottle.**

"*Great oaks from little acorns grow.*" The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of Medical Libraries, literally only go to prove and elaborate these facts. Then guard yourselves while you may. Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for those discolorations, which is at once prompt, infallible and harmless.

FIRE.—About 11 o'clock on Wednesday forenoon the sawyer in Mr. John M. Davis's steam saw mill, at his woodyard, foot of Cornwall street, discovered the building to be on fire. The fire when discovered was near the large chimney, outside, and had either burned in or out through the side of the building. But one other person was present, and the flames had made so great headway as to set at defiance the efforts to quench them. The building with all its contents was consumed. Mr. Davis was insured for $1200, which will hardly cover the building, making a dead loss of engine, fixtures and stock in the mill. The insurance was effected in the Piscataqua Mutual Co., F. W. De Rochemont, agent. Mr. Davis' total loss is in the neighborhood of $2500. Especial credit is due the hand engines in this instance, the depth of snow so much retarding the progress of the heavy steamers as to preclude the necessity of working them after their arrival on the ground.

ANOTHER FIRE occurred on Cornwall street, at about 8 o'clock on Tuesday evening, in the stable attached to the premises of Mr. Jos. Holmes. The heavy body of snow upon the roof prevented the flames from breaking out to any great extent, but the interior of the building was pretty well consumed. The fire department worked well, but the lack of water for such emergencies was again plainly visible. The fire to us appeared to be in the loft of the stable, among the hay, but we were unable to gain any satisfactory clue to its cause, and cannot state whether the premises were insured.

IN BOARD OF ALDERMEN, on Monday evening,—A communication from the City Marshal relative to compensation of Night Police was referred to Joint Standing Committee on Finance.

Bonds of Collector and Treasurer, City Marshal and Assistant Marshals, were accepted.

The following resolutions were passed:

Resolved, That the finance committee be and are hereby requested to report in the annual appropriation bill, an appropriation for the erection of a building, to be used as a Ward and School room, on the site of the old South church, located in Ward Three,—the same to be finished the present year.

Resolved, That a committee of three,—one from each Ward, be appointed to organize a Fire Police of 50 men as required by Ordinance 61 relating to Fire Police—and report the same to this Board for their approval.

The Mayor appointed as said Committee, Aldermen Ham, Martin and Wilson.

Ordered, That the Chairman of the Board of Health be requested to furnish this Board with a list of places where swine are kept within 40 feet of any dwelling house in the compact part of the city, and report the same during the month of March.

William H. Deverson was chosen Assistant Engineer, in place of Solomon Seymour, declined. (We, last week omitted the name of Daniel Neal, chosen Assistant Engineer.)

☞ At a special meeting of the Board of Aldermen, on Monday evening, a statement which we condense, relative to the amount of hay raised and sold at the City Farm the past eight years, was presented by the Mayor for the consideration of the Board:

☞ Old clothes, especially for women and children, are very much needed among the Freedmen. Donations of any such articles will be gratefully received at the Unitarian Chapel on Court street, Wednesday and Thursday afternoons of this week, and forwarded at once to the sufferers.

☞ The Sultana affair is not yet at an end. A court martial is now in session at Vicksburg, trying Capt. Speed for putting 1886 paroled prisoners on her (Federals), when her proper capacity was only for 376 men. The loss of life by her explosion was 1100. Fears have been entertained that Mr. Geo. W. Carr of this city, was among the victims of this disaster. He was a member of the 2d Wisconsin Cavalry, and at the time of the surrender was a prisoner at Camp Ford in Texas, since which time no tidings of him have reached his friends here.

☞ Mine host Lougee, of the Atlantic House, Rye Beach, is doing a lively business in catering for pleasure parties in these times of good sleighing. To the public the keeping of his house open has proved a great convenience this winter, as there seems to be no other hotel within a reasonable distance where a supper and dance can be enjoyed. The parties that have visited the Atlantic, from this city and neighboring towns, have been quite numerous, and all seem well pleased, by George.

PARTICULAR NOTICE.

Ladies will please to remember to attend the large Auction Sale at I HAHN'S, 13 Market Street at 10 o'clock this A. M.

Look out for Big Bargains, as he has decided to close out his Whole Stock before he leaves this city for St. Louis, where he intends to make his future home.

☞ We call the attention of all desiring a pleasant and profitable employment to the advertisement in this paper headed "$1500 per year."

THE PEOPLE will have their own way, and indeed we do not wonder that every one is bound to use Coe's Cough Balsam, and nothing else, for it is certainly the best thing in the world, for Coughs, Colds, Croup, and Influenza. It is right that all should use it.

Coe's Dyspepsia Cure, an article prepared by the same parties, is equally good for Dyspepsia, Indigestion and Costiveness, Sick Headache, Sour Stomach, Rising of Food, Cramps, Pains, and in fact any disorders of the stomach and bowels. ja28eodlw

THE WORLD AND HIS WIFE, and grown-up daughters, are unanimous on one point. They declare unreservedly that Sozodont is a blessing to their mouths, that it improves and preserves their teeth, invigorates their gums and sweetens every breath they draw. Hence they buy it. As Dominie Sampson says, the sales are pro-di-gious. ja29eodlw

Holloway's Pills.—Pregnancy.—During this delicate situation, ladies will experience great relief by using this mild cathartic medicine for correcting those indispositions and nauseating sickness to which they are subject at this period. They give a gentle stimulus to the circulation, and purify and expel all those humors which irritate the stomach. As these Pills are so mild that the most delicate constitutions may take them with perfect safety. For assisting the infant in the dawn of womanhood, or at the turn of life, they are equally adapted. Sold by all Druggists. ja26dawlw

COTTON PLANTATIONS
FOR SALE.

We have for sale and ready for immediate occupancy some of the best cotton plantations in the very best cotton growing region of the South, with beautiful dwellings and all the buildings and machinery for cotton cultivation complete, and many with the laborers ready for work. They will be sold with perfect titles for less than it cost to clear the land or erect the buildings.

Any of these plantations will pay for themselves and all expenses by a single crop, and must double in value within a year. To raise a crop on these lands, operations must be begun in January. To facilitate investment's at once the company are prepared to purchase, manage and cultivate plantations for absent owners without any charge to the purchaser, the expenses being paid from the net profits.

We also are prepared to negotiate for advances for growing cotton, giving a bottom mortgage with perfect title upon the entire plantation to secure the principal, and giving one-third net crop for the use of the money—the plantations being run under the supervision of our own agents, and cotton shipped to our order. These advances can be deposited with our agency in New York or Boston, and will be paid at maturity at the same place without expense.

Cotton at present prices will pay from 2 to 300 per cent. on these investments, amply secured and perfectly safe.

We assure Northern men of perfect security in their persons and property in any locality where such purchases and investments may be made by us.

We believe no more favorable opportunity for investment for Northern men ever presented itself, and at the same time it will help the necessities of the freedmen by furnishing them with remunerative employment, and will help inaugurate the experiment of free labor in the cotton crop of the South under Northern auspices.

Mortgages negotiated upon plantations for which 20 per cent. interest per annum will be paid absolutely, or one-third the net crop of cotton raised.

An agent of the Company will leave for the South on the 15th of January to make investments and attend to the selection and purchase of plantations; until which time he can be seen at the office of the New England Agency, No. 46 Washington St., Boston, Mass.

Send for lists of plantations and prices, in any desired locality. Send for circulars. Call for letters of introduction to our agents in all parts of the South.

—DEALERS IN—

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supercede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction and the best that is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump exceeds anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

ISRAEL MARDEN & CO.,
39 Congress Street.

☞ We are permitted to refer to Mr. MONROE HOBBS and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony to their excellence.

A STRANGE STORY.—Ten years ago Mr. ——— was married to Miss ———. For a time all went well with the happy pair, but whether prompted by incompatibility of temper or through the meddlesome interference of relatives or friends, "ye chronicler knoweth not," only that the demon of discord breathed upon their young love, and it withered as a flower 'neath winter's chilling breath. And, to make a long story short, they separated. Shortly after the separation a little daughter was born, and then a divorce was obtained—by which party obtained it matters not. For nine years—long, weary years—they lived apart, never seeing, hearing from or speaking of each other; and yet both remaining true to love's first bright dream. The little girl grew up and was taught to believe that her father was dead. She had never seen him or been seen by him. Ah, who shall say how often during those long, dreary years the father's heart yearned for the sight of his child, and pined to hear the music of her voice. And the mother—the wife that was—was she happy? Who shall tell? Well, on the day before yesterday the lady, accompanied by her little daughter, walked into a business house in this city, and met him who was at once her husband and the father of her child coming out. They stood face to face for the first time since their separation—nine years ago. Both stopped and gazed fixedly into each other's face. The father then turned his eyes to the child, and, stooping down suddenly, caught her in his arms—pressed her passionately to his bosom—rained a shower of kisses upon her face; then placing her on the floor he gave one glance at the mother and turned to go. Hearing his name called in a low tone, he turned! One look, and they were in each other's arms. They were locked for a few moments by the considerate kindness of the parties present. Then a hack was called, and in thirty minutes from their first meeting they were married.—*Memphis Avalanche.*

CHINESE TESTIMONY.—It is said that the Chinese, when brought into court as witnesses in California, are sworn in the manner peculiar to their country. An oath, written in Chinese characters upon tissue paper, is subscribed with their names, and burnt to ashes. The purport of the oath is, that if the witness does not tell the truth he hopes that his soul may be burned and destroyed as is the paper which he holds in his hands. Notwithstanding the severity of this oath the evidence of the Chinese taken in court is not generally of a very reliable character, and the recorder is often obliged to discharge prisoners against whom there is nothing but Chinese evidence, on account of the contradictions and discrepancies which are always discovered in their testimony.

THE WORD "DEMOCRAT."—The edition of Webster's great dictionary, which was our table companion for many years, thus defines the word Democrat:

"DEMOCRAT—One who adheres to a government by the People, *or favors the extension of the Right of Suffrage to all classes of men.*"

The editors of the recent revised edition seem to have felt that a part of this definition was now inapplicable; and that there might be democrats, so called, who did not even adhere to a government by the people, but took the name simply from their connection with a party. Hence they thus extend the application of the term, while they strike out the noblest part of the definition:

"DEMOCRAT—1. One who is an adherent or promoter of democracy, or government by the people.

2. A member of the democratic party. [U. S.]"

Cannot the degradation of this fine old word be arrested? Can it not be restored to its former nobleness of meaning?—*The Right Way.*

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to offer cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the old World,) of obtaining the safest as well as the latest remedies for these diseases, enable him to offer to the unfortunate of a quick and radical cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of Dr. Teller's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsele and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in that manly vigor of mind and make happy. The reader is of course aware that the delicacy of this subject will prevent a more elaborate description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. Teller still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions to health.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.
N.B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles south of Philadelphia. Accessible by experienced fruit-growers. Grapes, Peaches, Pears, &c, produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly setting. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Transportation cheap.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like, and Steam Power, with room, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* m1—dawtm

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.
These Famous Remedies
Cannot stay the flight of years, but they can force back, and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the *most searching* effects to the very root of the *evil.*

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, FEBRUARY 1, 1866.

IN CONGRESS, Jan. 30, the debates, it is said, were not of especial interest, but it was noticeable that the Republicans who spoke took advance ground, and did not seem disposed to abandon their cherished principles or projects.

The Senate, without debate, voted to appropriate $10,000 to defray the expenses of the Reconstruction Committee. This is following the precedent established when the Joint Committee on the Conduct of the War commenced its operations. President Johnson, it will be remembered, was a leading member of that committee.

Gens. Thomas and Fisher were before one of the sub-committees of the Joint Reconstruction Committee, examined as to the states of Tennessee. While they think the loyal Congressmen should be admitted, they concur in the positive opinion that it would be *unsafe* to restore the habeas corpus there, or to *withdraw* the troops. Gen. Thomas does not think the Congressmen from Georgia, Alabama and Mississippi, in his department, should be admitted.

Gov. Aiken of South Carolina was examined, before the House Committee on Freedmen's Affairs, on occupation of the Sea Islands by the negroes guarantied homesteads by Gen. Sherman. The Governor concluded his appealing harangue by asking that the whites of S. C. be treated equally well with the blacks. Gen. Howard immediately called in another South Carolinian, as black as the ace of spades, whose arguments demolished those of the gentleman who was once owner of twelve hundred negroes. Those present declare the black South Carolinian is far better informed and more eloquent that the white South Carolinian. Who can say that the world does not move?

The bill for the protection of civil rights was taken up. The question was upon the amendment declaring persons of African descent, born in this country, citizens of the United States.

Mr. Trumbull withdrew his former amendment and offered instead "that all persons born in the United States not subjects of a foreign power, are hereby declared citizens of the United States without distinction of color."

THE HOUSE refused, 137 to 37, to refer to the Committee of the Whole, the Amendment of Constitution, providing for a new basis of Representation :—and then, without a division, referred the whole subject, with all the proposed amendments, and without instructions, to the Committee on Reconstruction.

The House by a majority of 20 refused to pass the resolution admitting Messrs. Byers, Kyle and Johnson from Arkansas, to the privileges of the floor, until otherwise ordered.

The House passed a resolution instructing the Committee on Claims, until otherwise ordered, to reject all claims referred to them for examination by citizens of any State lately in rebellion, growing out of the destruction or appropriation of property by the army or navy while engaged in suppressing the rebellion.

The House then proceeded to the consideration of the Senate bill to enlarge the powers of the Freedmen's Bureau.

Mr. Donnelly suggested an amendment to provide common school education for all who may apply therefor.

WASHINGTON ITEMS.—A special Washington dispatch says the House Committee on Public Lands have agreed to a bill bringing all the public lands of the South under the homestead act.

There is to be no conflict between the Secretary of the Treasury and the Committee of Ways and Means, and the prospect is that a new bill will be prepared to meet the approval of both. No loans will be necessary.

The House Committee on Freedmen's Affairs are ready to report back the Senate bill concerning the Freedmen's Bureau, with an amendment providing if lands are restored to their former owners upon the agreement of the occupants, the latter shall receive from the Government forty acres out of the public lands.

Gen. Butler had a long interview with President Johnson. Among other matters which it is said the General will "unbottle" in his forthcoming report, will be some facts showing who prevented the exchange of prisoners.

☞ Senator Wilson's bill to prevent the swindling of soldiers by claim agents, and limiting the fees for collection of soldiers' claims to $10, passed the Senate on Monday by the vote of 33 yeas to 7 nays. This restriction is analogous to that which limits the fees of pension agents, and is not less necessary.

— Our Consul at Liverpool has been instructed to detain the privateer Shenandoah there until otherwise ordered. These instructions were sent out on the 8th inst., and were given owing to the difficulty of procuring a suitable crew.

Correspondence of the Chronicle.

NEW YORK, Jan. 27.

It is pleasant to share the imprint of your yesterday's application, *F.*, with our rolls and coffee, every morning; and we hope you'll continue to publish long after you move to your Castle on the Hill. If the days were only forty-eight, instead of twenty-four hours long, (sometimes we wish they *were,*) we would write you rather more *semi* occasionally.

Commercially, New York is thoroughly dead—more so than for years. A universal absence of out-of-town traders, a positive inactivity of local buyers, a well-stocked market and a want of confidence in its present basis—all contribute to this result. In every other way, the public is rushing over that high road of extravagance and excess which, if all the guide-boards we have passed tell aright, leads quite surely to panic and revulsion. Rents trebling, expenditures enormous, fetes innumerable, prodigality everywhere! Boring again with too large an augur.

One store on Broadway, 50 feet front, which last year rented for $15,000, now rents at $55,000. Another, 25 by 75, off Broadway, $18,500; another, 75 by 75, at $47,000 per year. These are but three in hundreds. Any number of leases have been transferred for a *bonus* of $10,000 to $15,000 per year. How long before this eggshell cracks?

Peculiar as the temperature has been, few winters have afforded longer continued skating. It has become a science here, and we have perfect Cubases on skates. The beautiful resort to the Park (three-fourths probably skaters,) from Jan. 1st to 25th, numbered 411,248. The largest attendance was on the 10th, 65,000; 11th, 43,000, 21st, 46,000. Quite a crowd! The largest number of sleighs in the park on any one day, was on the 17th—8,556.

Outside the Park limits is the "5th Avenue Pond," a season ticket sheet of ice, where the company is more quiet and select, and which has a fine band of music, day and evening, playing waltzes, galops and redowas, the time of which the skaters involuntarily adopt, as in dancing, giving a regularity of movement over the pond quite pleasing. Here also are fancy dress carnivals.

A new line on the Sound, between Boston and New York, is nearing completion. The boats are to run from Bristol, R. I., a little over an hour's ride from Boston. We understand the owners are nearly identical with those of the Stonington boats and the Neptune line. It will be *the* popular route.

No actor ever had an ovation equalling that to Mr. Edwin Booth this season, notwithstanding the Herald.

Miss Kate Bateman is playing to the largest kind of houses at Niblo's. We happen to be among those who believe that Miss Bateman is one of several summits of excellence existing in this part of the world.

Tickets to the coming 7th Regiment Ball sold yesterday as high as $75 apiece.

It isn't safe to carry over one dollar and a half in one's pocket now-a-days. Robberies of bank messengers and boys with deposits are as thick as toads after a shower.

New York has had four days' good sleighing.

Dr. Bellows' Unitarian Society propose a new church.

Dr. Chapin's church is to be converted into a theatre when vacated.

New York has now ten regular theatres.

The Washington Territory Female Emigration scheme has come to grief,—and certain parties complain that Mr. Mercer isn't as honest as he might be; that hundreds of bogus tickets were sold, and pray the courts that the ship may be attached on arrival out. One of the illustrated papers has a good caricature on this emigration.

Scene—the steamer's deck—at sea—Mercer surrounded by a group of lovely lady voyagers:

Mercer—"My dears! I think I see something!" (Exclamations on all sides). "Oh, where! Is it a man? Is it a man?"

Mercer—"Bless you, No! Not a man—only a sea-gull! (Sighing on all sides)—"Oh dear! I wonder when we shall see a man!"

Which is as good as the last good conundrum—"Why President Johnson is like Chimborazo? Because he's the greatest of all the Andies.

And to close, we'll give you one better still:

To make half of two thousand and half of one hundred, represent a characteristic of a monkey. Who can do it? N.

SEVERE WEATHER ON THE PACIFIC COAST.—A dispatch from San Francisco, Jan. 27, says, Advices from "Treoka" says the weather up the coast for the past fortnight was the most severe ever known. The snow on Scott Mountain was 12 to 15 feet deep. No mail had been received for 12 days. The telegraph line was broken in 100 places. Communication with Washington Territory over the mountains was almost broken off. The telegraph line in the Territory was almost totally destroyed. Much other property was badly damaged. In Willamotte Valley the snow fell to the depth of two feet.

— Four companies of colored troops have been ordered to Columbus.

REV. ELIPHALET NOTT, DD., aged 92 years, 6 mo., died at Schenectady, N. Y., Jan. 29. He has been one of the most remarkable men of the country. In 1804, at Albany he pronounced a eulogy on Alexander Hamilton. That led to his appointment as President of Union College. The college was then unfinished, without library, apparatus or funds. It had fourteen students. Dr. Nott obtained from the State, to constitute a President's Fund, the charter of Yates and McIntire's lottery. It was considered worthless, yet he breathed into it financial life and vigor, and out of it secured a property to the college of over $100,000. He kept the fund in his hand to the day of his death. He made such investments as he pleased and appropriated the proceeds. Repeated efforts have been made to get the property out of his hands, but without avail. In 1832 he went to New York and astonished his friends by the statement that he was going to invest in city lots at the foot of Tenth street, the larger part of which were under water. He paid $17,000 for that property. He crossed over to what is now Hunter's Point and Green Point, and bought that now valuable property, which was then a waste off more said banks, giving $200 an acre for three hundred and fifty acres, all of which he held to the day of his death. He built the Novelty Works, dammed out the tide, filled up the flats and began the improvements which have made that part of New York so valuable. As a preacher he stood in the front rank. He was an early and a life-long advocate of the cause of temperance. He was one of the most adroit tacticians in the State, and taught Van Buren, Seward, and other politicians, how to manage men. He was one of the best of presiding officers in the State. His executive ability was unequaled. At the age of eighty-six years he was sole President of the College, guiding its financial and literary affairs as he guided them thirty years ago, and, by the aid of his wife, signed with his own hand the diplomas of the last graduates. Perhaps no other instance can be adduced of any college president, or indeed any official, holding office for the long period of sixty-two years.

It is a very curious fact that this man, who made a College and a great Manufactory, never received a collegiate training, but when quite young studied divinity, and when twenty-one years old was acting as a missionary in the central part of New York. He was also a highly gifted natural mechanice. He was inventor of a new stove, which was called the "Novelty," for the manufacture of which a shop was built. This establishment, gradually expanding its scope, was the nucleus of the Novelty Works. Dr. Nott has obtained no less than thirty patents for various mechanical improvements and inventions.

NEW HAMPSHIRE CLAIMS AT WASHINGTON.—Perley writes to the Boston Journal, on the condition of our State Claims on the U. S., that "Gov. Smyth has reduced the account between the United States and New Hampshire to a practical form. There are two classes of N. H. claims. Of the first the amount charged against the United States is $1,373,000. Of this amount $754,000 had been allowed to June, 1865, leaving $619,000 disallowed. Up to that date the United States had charged against the State $866,819 including a war claim of 1812, the direct tax of 1861 and cash payments. This left a balance against the State of $112.819 in excess of all claims allowed.

When Gov. Smyth was last at Washington he discovered that a charge of over $47,000 in February, 1864, had never been received, and he obtained a check for it. Of the disallowed claims, $373,000 is for bounties paid by the State without authority from the general government, which is, of course, inadmissable. Deducting this amount from the $619,000 of disallowed claims, there remains $246,000, which Gov. Smyth hopes to obtain. He has already met several objections, and returns to New Hampshire for additional vouchers. Meanwhile the New Hampshire delegation in Congress are lending to the Governor all their influence in securing a proper adjustment of these claims.

Mr. Rollins has introduced a bill in the House to allow a claim of N. H., recently disinterred, for an expenditure of about $15,000 in the war of 1812, and this may balance the claim against the State, dating from that time.

The second class of New Hampshire claims is based on the permission granted by the War Department under one of the calls to cities and towns, to advance national bounties to volunteers enlisted to fill the draft, which were to be repaid in instalments. The amount thus advanced was about $1,000,000. The first instalment of $197,000 was paid, and $27,000 on account of the second instalment. The payments then ceased. This was about a year ago; and when Gov. Smyth, on a recent visit, inquired into the cause of the delay, he was told at the Paymaster General's office that the rolls were lost from his office. The Governor had new rolls made out, and is pressing the payment of the balance due, which will be made, but with large deductions on account of desertions. In some of the regiments over one-half of the men deserted."

— The tailors in Savannah are on a strike.

— The Savannah Herald states that a resolution has passed the Georgia Legislature requesting the President to restore to the owners their lands on the islands off the seacoast of Georgia, and other lands.

— A special Washington dispatch, referring to Secretary Seward's interview with with Santa Anna at St. Thomas on Mexican affairs, says: The hostility of the Mexican leader to the empire imparts a degree of significance to the meeting.

— The J. Monroe Taylor Gold Medal Soap the ladies cannot do without; as a matter of economy it is worth more than twice the cost of it; one pound will go further and do much better work than two pounds of any other; for washing paint and all kinds of wood-work, it has no rival; it will not injure the finest fabrics, while it will make your washing so much easier, besides looking so much better than any other in the market; it is acknowledged by all the ladies to be the best, the cheapest, and the only soap fit for a washing day. 43

PHOTOLEUM.

This is a new discovery, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *excellent, safe* and *valuable* illuminating oil ever before the pub ic, giving a *soft, steady* and *brilliant* flame, surpassing even gas-light for beauty and brilliancy of all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* emits no sickening odor when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it char the wick or smoke the chimney, so that once trimming will suffice for a week or more. Photoleum produces a flame that does *not diminish*, but continues the same until every drop of oil is consumed. It is, therefore, very desirable for lighting churches, railroad and horse cars, manufactories and public buildings. The public are invited to call and examine.

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of NERVOUS Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge.*

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world. for the cure of all those painful complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions accompany each bottle, by which they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen law. Will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.00.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn.; who can be consulted either personally, or by mail, (enclosing stamp) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Sold by Druggists everywhere.

Special Notice.

"*Great oaks from little acorns grow.*" The worst diseases known to the human race spring from causes so small as to almost defy detection. The volumes of scientific lore that fill the tables and shelves of the medical profession, serve only to prove and elaborate these facts. Then guard yourselves while you may. The smallest pimple on the skin is a tell tale and indicator of disease. It may fade and die away from the surface of the body, but it will reach the vitals, perhaps, at last, and death is the result. Then, ere that close, BAGGULEY'S BILIOUS, DYSPEPTIC and DIARRHEA PILLS cure where all others fail. While for Burns, Scalds, Chilblains, Chafes and all abrasions of the skin, MAGGIEL'S SALVE is infallible. Sold by J. MAGGIEL, 43 Fulton street, New York, and all Druggists, at 25 cents per box. decdod&wly

Perry's Moth and Freckle Lotion.
☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for those discolorations, which is at once prompt, infallible and harmless.
Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

Local.

SHOCKING ACCIDENT.—Patrick McGrath, gas maker, who has been for some time in employ of the Gas Company in this city, met with a horrible death on Tuesday night, in the lime kiln at the Gas Works on Bow street. It has been his duty to spread oyster shells evenly about in the kiln, after shovelling them in, for the purpose of making lime, and in doing this he has generally used a ladder seven or eight feet long to facilitate his decent into the kiln and his exit therefrom. This precaution was evidently neglected on the night of the casualty, as the ladder was found on the outside of the kiln. His remains were found in the kiln between 7 and 8 o'clock on Wednesday morning. The coroner was called, but deemed it unnecessary to hold an inquest. The body was literally burned to a crisp, with the exception of the head and upper portion of the chest. Mr. McGrath was 37 years of age, and leaves a wife and three children.

Since the above was in type we learn that Mr. McGrath had been in the employ of the company for twelve years. He was last seen about 5 P. M. on Tuesday, and was then filling the kiln. His family missed him, but supposed him to be at the fire on Cornwall street. As there were no footprints in the new fallen snow about the building, the presumption is that this great calamity overtook him at an early hour in the evening. Those best acquainted with the premises surmise that he slipped or made a misstep and fell, striking his head against the opposite wall of the kiln, thus stunning himself, and that he suffocated before he regained consciousness.

☞ Our third alarm of fire in twenty-four hours was caused by a slight fire in a barn on Warren street, belonging to Edmund M. Brown, at a little before 9 o'clock on Wednesday morning. The fire was in a large bin, containing about seventy bushels of shavings, in the second story, and was extinguished by the use of one of Johnson's Patent hand pumps, without aid of engines. The fire is supposed to have been incendiary, as there was no fire there, or legitimate need for one, and a number of boys were about the building.

☞ One thing we lack yet, in our apparatus for extinguishing fires, viz: Runners, or Sled Sides, into which the wheels of an engine can be fastened in a moment. In the snow, like what we have now, neither men, nor horses, nor oxen can make good time with an engine on wheels which cannot roll. But with the runners under the wheels, a pair of horses or a company of men would bring the engine to the fire with good speed: and every one knows how important it is to be on hand in season. The runners need not be very costly;—but they would be very useful. This apparently small matter is worthy the immediate attention of the proper City Officers.

☞ We clip the following item of interest from the Portsmouth correspondence of the Daily Evening Voice:

Mr. F. W. Rhoades, formerly of Boston, but more recently of Philadelphia, has been appointed Chief Accountant at this Yard, and all the accounts in every department connected therewith will undergo his examination and certification. Mr. R. is a young man and a gentleman in the fullest sense, and his appointment to so responsible a position indicates a judicious care on the part of the authorities in thus selecting one eminently fitted for such duty.

☞ The new steamer Sagamore, at the fire on Tuesday evening, played through 1600 feet of leading hose, drawing her water from the reservoir of the Aqueduct Company on Dover street.

NEW CITY HALL.—A lady remarked in our hearing a few evenings since, that she thought that the ladies of all the different religious societies in town had better join in a grand Fair to procure a City Hall. In fact we begin to believe the ladies will have to build it after all,—for the men don't seem to be inclined to do so. Start the ball in motion, ladies, and put us down for two or three Vs.

☞ All those who have suffered from catarrh will gladly receive the new article advertised in our columns to-day by Mr. Thacher—the Nasal Irrigator. The difficulty experienced heretofore in making local applications to the parts affected is all obviated by this little instrument, which is made upon the simplest of all the laws of hydraulics. The inventor has made application for a patent, and besides a pecuniary reward, deserves the thanks of a legion of sufferers for his contribution to the methods of relieving personal suffering.

POLICE COURT, Jan. 31.—Chas. N. Clifford was brought before the Court for brawl and tumult in the Washington Eating House, and discharged. The saloon in question is situated in the rear of the police station, and has become too rank to be much longer tolerated under the very noses of our guardians of good order. Indeed, we understand that the Marshal has notified the proprietor that he must keep a more orderly place, or it will be broken up as a nuisance.

☞ Union Hall was well filled Tuesday evening, to listen to Mr. Michael Hartnett, of Exeter, upon "Fenianism—its hopes and prospects." A Circle of the Brotherhood was formed, numbering 49 members; and also a Circle of 20 Sisters.

☞ Marshal Kent received a dispatch from Portland on Wednesday, announcing the theft from that place, of a horse, sleigh and robes. Look out for such.

☞ A dispatch received in this city on Wednesday, from Galveston, Texas, states that Capt. Charles E. Weare, of York, master of the barque Mary Bell Roberts, at that port, is dead.

☞ Old clothes, especially for women and children, are very much needed among the Freedmen. Donations of any such articles will be gratefully received at the Unitarian Chapel on Court street, Wednesday and Thursday afternoons of this week, and forwarded at once to the sufferers.

GOLD, Wednesday, 140 1-2.

— Ex-Governor Allison of Florida has been released from Fort Pulaski and has arrived at Savannah.

☞ Steamer Miami exploded on the Arkansas river two or three days ago, and about 100 lives were lost, 30 of them soldiers. And the steamer Missouri, which exploded in the Ohio river, also lost about 100.

— The President has deferred issuing a formal proclamation declaring the restoration of the Union until the opinions of Generals Grant, Sherman, Meade, Thomas, Sheridan, Sickles and others could be obtained relative to the submission of the Southern States to the constitutional authorities.

COTTON PLANTATIONS FOR SALE.
We have for sale and ready for immediate occupancy some of the best cotton plantations in the very best cotton growing region of the South, with beautiful dwellings and all the buildings and machinery for cotton cultivation complete, and many with the laborers ready for work.—They will be sold with perfect titles for less than it cost to clear the land or erect the buildings.
Any of these plantations will pay for themselves and all expenses in a single crop, and must double in value within a year. To raise a crop the coming year, operations must be begun in January. To facilitate investments at once the company are prepared to purchase, manage and cultivate plantations for Northern owners without any charge to the purchaser, the expenses being paid from the net profits.
We also are prepared to negotiate for advances for growing cotton, giving a bottom mortgage with perfect title upon the entire plantation to secure the principal, and giving one-third net crop for the use of the money—the plantations being run under the supervision of our own agents, and cotton shipped to our order. These advances can be deposited with our agency in New York or Boston, and will be paid at maturity at the same place without expense.
Cotton at present prices will pay from 2 to 300 per cent on these investments, amply secured and perfectly safe.
We assure Northern men of perfect security in their persons and property in any locality where such purchases and investments may be made by us.
We believe no more favorable opportunity for investment for Northern men ever presented itself, and at the same time it will supply the necessities of the freedmen by furnishing them with remunerative employment, and will help inaugurate the experiment of free labor in the cotton fields of the South under Northern auspices.
Mortgages negotiated upon plantations for which 20 per cent. interest per annum will be paid absolutely, or one-third the net crop of cotton raised.
An agent of the Company will leave for the South on the 15th of January to make investments and attend to the selection and purchase of plantations; until which time he can be seen at the office of the New England Agency, No. 46 Washington St., Boston, Mass.
Send for lists of plantations and prices, in any desired locality. Send for circulars. Call for letters of introduction to our agents in all parts of the South

—DEALERS IN—
S. Vance's Submerged Well PUMP.
This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.
ITS ADVANTAGES.
FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.
SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.
THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.
FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.
FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and those galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.
SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.
☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,
ISRAEL MARDEN & CO.,
39 Congress Street.
☞ We are permitted to refer to *Mr.* MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony to their excellence.

HOW TO MAKE MUTTON.—A lot of Cotswold sheep, having been seen in New York that would weigh from 300 to 400 pounds, the proprietor (a Canadian) was asked his method of fattening sheep, and replied:

"In the first place I secure a good breed. That is the most important point. The next thing is to keep them growing from the time they are born till the time at which they are taken to the slaughter-house, never allowing them to grow poor at any season of the year. I have fed them all the hay, peas and oats they will eat. Peas are better than Indian corn for making mutton. Oats furnish a nitrogenous matter for the formation of necessary muscle. Peas produce more fat than the same number of pounds of cereal grain."

"Do you feed any roots and straw?"

"Yes, each sheep gets not less than one or two pounds of turnips daily, with all the straw to eat and lie on that he wants; and a good shed is provided, with a supply of pure water, and salt to lick at pleasure."

"How much do you expect to get for the largest of your flock?"

"Two hundred dollars per head, or I ship them from this market."

The next day we learned they were taken at that price for Christmas mutton.

Marriage Certificates.
For the use of Clergymen Justices, and others who perform the ceremony—for sale at the Chronicle Office, single, by the dozen, or hundred.

HIGHLY IMPORTANT
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 22 Endicott street.
Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address DR. BRISCOE, at No. 22 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1865. TThSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
TARRANT & CO.
Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabinlis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HENRIQUER,
Merchant, Curacoa, S. A.
New York, June 28th, 1865.
WE ASK
The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of
Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Diarrhœa, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.
Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street,
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove at any other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, has successfully prosecuted SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE AND DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for pleasure or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

CHEROKEE PILLS,
Or Female Regulator,
Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Side, Headache, Giddiness*, and all diseases that spring from irregularity, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases, *except those prohibited by directions*, and are easy to administer, as they are nicely *sugar coated*. Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare our pills suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, free.
The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.
N. B.—Cherokee Pills No. 2 are prepared for *special cases*, when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S
REJUVENATING ELIXIR,
Or, Essence of Life,
Cures *General Debility, Weakness, Hysterics in Females, Dyspepsia of the Heart and all Nervous Diseases.* It restores to male life and vigor to the aged, causing the hot blood of youth to course the veins, restoring the *Organs of Generation, enemas tion, removing impotence and new life"—so does this, restoring Debility, restoring Manliness into the system and full vigor*, thus proving a *overcome Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, renders the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.
Price, one bottle $2; three bottles $5; sent by express to any address.
Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any ailments, with which females or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

— A Chicago paper says that among those for whom prayers were asked in the daily prayer meeting was, "For a young man in Boston, so far from God."

— Diamonds have been found in Idaho; but the discoverer was lost on a steamer with the secret of their location. He had previously sold one in New York for $1000.

— John Sterling, a lad of 17 years, residing in Lincoln, Vt., fell on the ice one day last week, while skating, and so injured himself that he lived but two or three days.

— The Humboldt Register tells a story about the not very promising son of an anxious parent or two, who has been employed, at board in a store, for about six months. Parent writes to head of the concern, asking how the boy gets along; if he is good, and if he sleeps in the store. Head of concern writes briefly: "Boy good as ever. Sleeps in the store day times; don't know where in thunder he sleeps at night."

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, after inducements to the unfortunate of a quick and a perfect cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's medicines, and have been tested in more than 20,000 cases annually, with Unfailing Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now active in all that makes life desirable and happy. The reader is of course aware that the delicacy of this subject will prevent a more definite description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Disappointed.
A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of all other medicines for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons and directions, which accompany each package, for the guidance of patients. On the receipt of the usual price per box, (these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. Cures always warranted. No charge for advice.—N. B.—No consultations or boys employed. Notice, address all letters to

VINELAND
FARM AND FRUIT LANDS,
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, and Twelve, on the same line of latitude as Baltimore, Md.
The soil is rich and *productive*, varying from a clay to a sandy loam. Adapted to Wheat, Grass, Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yard, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters, a health ful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* al—dawlm

FRIDAY, FEBRUARY 2, 1866.

NATIONAL MILITIA.—In the U. S. Senate, Jan. 30, Mr. Wilson introduced a bill providing for the National defence by establishing an active volunteer militia through out the United States. All able-bodied citizens between the ages of 20 and 45 are to be enrolled, with exceptions similar to those relative to the draft during the rebellion, with a bureau of militia authorities as well as Adjutant Generals in each State. There shall be one active regiment of infantry in each Congressional district, Territory, and District of Columbia, of citizens between 21 and 35 years, to be enrolled for six years, or during the war, if any is declared within that period. Officers in the States are to be appointed by the Governors and in the District of Columbia by the President.

WASHINGTON ITEMS.—The Methodists propose to complete the Metropolitan Church, on Four-and-a-Half street, commenced some years ago, as a memorial edifice. Bishops Ames and Simpson have already collected $25,000 to liquidate outstanding claims, and the building will be at once recommenced. Lieut. Gen. Grant, who is of Methodist parentage, has contributed $5000.

The Judiciary Committee of the United States Senate, in their report, sustain the legality of the election of Hon. John P. Stockton as Senator from New Jersey. They find that the laws of that State authorize joint meetings for election of Senators, and that such meetings have a right to prescribe the rule under which an election should be declared.

Senator Wilson had a long interview with Gens. Sherman, Meade and Thomas, to examine his army bill now before the Senate. The Generals approved the bill, suggesting a few trifling changes.

Mr. Downing and the delegates representing the colored people have called on Chief Justice Chase and had a most satisfactory interview, during which he expressed his confidence that universal suffrage will sooner or later be established.

MEXICO.—A letter from Havana says Generl Prieto writes from Tehauntepec that he has defeated the Republicans under Figuero, numbering 2000 men, cavalry and infantry, with loss of about 100 killed. The Imperialists lost 7 killed and 30 wounded. The state of siege of Tampico has been removed by order of Marshal Bazine, the causes of which produced it having disappeared. There was rumor of changes in the Cabinet. Porfirio Diaz was still at Oajaca.

GOLD, Thursday, 140.

— Cotton is declining in price, but the price of paper advances.

☞ The stockholders of the great Columbian Marine Insurance Co. of New York, begin to fear that it is not healthy enough to go on.

— The jury in the Starkweather murder case have returned a verdict of guilty, but sentence has been delayed.

— Judge Sharkey and other members elect from the Southwest, seeing no show of obtaining seats in Congress, will leave for their homes.

— Gen. Grant being called upon for a speech at Mrs. Douglas' wedding party the other night, responded in the following laconic style: "I am right glad to see you all.'

— At New York, Jan. 31, the U. S. Commissioner rendered a decision holding Martin, the alleged rebel hotel burner, for trial.

— A woman in Albany has gone to the Penitentiary for three months for opening a letter directed to another woman. Served her right.

— A waiter girl at a hotel in Syracuse, N. Y., broke a plate over the head of one of the boarders on Sunday last, for insulting her while she was waiting on the table. Served him right.

— The statement which has appeared in various papers as to the flogging of the Irish political prisoners at Dartmoor is contradicted. They are not at Dartmoor, but at Pentonville. "They have not been flogged, and have been quiet and well behaved since their arrival."

— On the 5th ult., John Claufis, aged eighty, was found, near Ballater, Scotland, lying dead in a pool of blood. It appears that he had fallen, and in the fall had broken the pair of spectacles he had on, the glass of which inflicted a deep wound in the left eye, and caused death by hemorrhage.

— During the entertainment given by Tom Thumb and party at Castle Hall, in Taunton, the graceful little Minnie Warren had a narrow escape from death by her clothes taking fire from the footlights. A spectator jumped upon the platform, caught the little lady in his arms, and succeeded in extinguishing the fire before she received any injury.

NEW HAMPSHIRE ITEMS.

—— Moody Kent, Esq., a retired wealthy lawyer, formerly of Concord, died at Pittsfield Thursday morning aged, 87.

—— Five children of Moses Jackman of Northumberland died of diptheria in the week ending Jan. 21. The first four were all lying dead in the house at the same time.

—— A bull raised and owned by W. R. Dean of Factory Point, weighs 4,240 pounds. Probably his equal does not exist in the United States.

—— Miss Betsey Dearborn of Stratham, now in her eightieth year, is hale and hearty, and can spin, weave, sew, wash, walk, sing, and is as merry as a lark, and attends to the household duties with her own hands, with an activity and cheerfulness pleasant to witness.

—— The extensive addition which the Messrs. Thompson are this winter connecting with the well known Glen House, at the White Mountains, was blown over and destroyed by a severe tornado on the 20th ult. The building was 150 feet in length and duly proportioned. It was not boarded, but the studding was in.

—— On the 22d ult., a daughter of Mr. Charles Rines of New Durham, aged nine years, while attempting to take something from the mantel-piece, went so near an open fire-place that her clothes took fire. She became alarmed and ran out of the house; the wind fanning the fire to a blaze, soon burned the clothes entirely from her person, and her body to crisp. After 26 hours of intense agony, death came to her relief.

FROZEN TO DEATH.—The Claremont Advocate, of Jan. 9, says; We learn that on Thursday night last Mr. Albert Sprague, of Newport, was frozen to death within a few rods of his dwelling. He had been at Newport village, and returned late in the evening with Mr. Brown, stage driver, who left him at the school-house near Mr. Endicott's. In endeavoring to reach his home, but a short distance up the hill, he probably became chilled to insensibility, and sat down by the side of the road, where he was found dead the next morning. His family, supposing that he had remained over night in Newport village, which he occasionally did, were not alarmed at his absence. He was a good farmer in comfortable circumstances.

COLD WEATHER IN ENGLAND.—In Washington within a few days, the thermometer was 3 below°; and in New England the sharp mornings of January 9 and 10 are not forgotten. The severe cold seems not to have been confined to this side of the water alone. On the 11th the first snow of the season fell in London, and from the temperature of early autumn the thermometer indicated three degrees below zero. Snow fell in great quantities, blocking up the streets and accumulating in drifts to the depth of several feet. Railway trains were delayed, and the telegraphic wires broken down in all directions. In some of the leading thoroughfares of London the wires fell across the streets, and in many cases the lamps were carried away, leaving the passengers in darkness. The storm was accompanied by a very high wind, and in the roads leading to the city the snow was from seven to twelve inches deep. Many large trees, having an unwonted burden of snow to carry, broke down. The feathered creation were taken by surprise, and large flocks of wild ducks, teal and widgeon hovered about on the sunny side of the Thames, as if debating what shelter to seek, and at last flew off toward the south coast. Myriads of larks, redwings and fieldfares were driven from the hedges and fields. Along the Great Western Railway and also on the London and Southwestern Railway many miles of telegraph wire were twisted off and broken down, and in some cases the poles lay prostrate by the way. During the day a thaw set in, and the Londoners had only a short taste of our American winters.

IN THE U. S. SENATE, Senator Anthony has offered a bill to regulate suffrage and elections in the District of Columbia. The right to vote is conferred on all persons twenty years of age who shall have been residents there one year preceding an election, who shall have been registered, who shall have paid a poll tax of one dollar, who can read and who can write their names. Fines and penalties are provided for the punishment of those officials or other persons who may prevent the registration of any citizen, or the assessment or the payment of poll taxes, or otherwise obstruct the free exercise of suffrage.

Persons under conviction for infamous crimes are to be excluded from the ballot boxes. The Assessors may exempt from the payment of poll taxes any persons who, in their judgment, by reason of age, infirmity and poverty, are unable to contribute to the public charge; nor shall any compulsory process be issued for the collection of poll taxes except against persons who shall also be assessed upon real or personal estate. The poll taxes collected as a qualification for suffrage, and all fines and penalties collected under the act, are to be applied in the District for the purpose of free education in the public schools, for the benefit of all children.

CONSTITUTIONAL AMENDMENT.—On the 30th of January, the U. S. House of Representatives recommitted to the Reconstruction Committee, a proposed Amendment of the Constitution. On the 31st, immediately after the expiration of the morning hour, Mr. Thad. Stevens electrified the Representatives, reporters and audience by rising to report it back—"reconstructed" by striking out the words "and direct taxes." The amendment as reported read as follows:

"*Resolved, by the Senate and House of Representatives of the United States of America in Congress assembled, two thirds of both Houses occurring,* That the following article be proposed to the Legislatures of the Several States as an amendment to the Constitution of the United States, which, when ratified by three-fourths of said Legislatures, shall be valid as a part of the Constitution: 'Representation shall be apportioned among the several States which may be included within this Union, according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed, provided that whenever the elective franchise shall be denied or abridged in any State on account of race or color all persons of such race or color all persons of such race or color shall be excluded from the basis of representation."

Before demanding the previous question, Mr. Stevens yielded the floor to General Schenck, who offered his amedment, based on suffrage, and occupied five minutes in advocating it.

The floor was then yielded by Mr. Stevens to Mr. Benjamin of Missouri, who opposed General Schenck's suffrage basis, and then Mr. Stevens took the floor. Although seventy-three years of age, he spoke with great vigor and without notes of any kind, and soon attracted around him the entire House, who listened in silence.

After his speech closed,—the House rejected Mr. Schenck's amendment, providing that apportionment shall be according to the number of male citizens over 21 years of age having qualifications requisite for electors of the most numerous branch of the State Legislature, by a vote of 39 to 130.

The House then voted on the resolution reported from the Reconstruction Committee with the following result: Yeas 120; nays 46.

The Speaker then said two-thirds having voted therefor, he declared the resolution passed.

This Resolution will now go before the Senate. Perley says of it:

Mr. Sumner and other Republicans may oppose the amendment in the Senate, on the ground that it directly sanctions, by the Constitution, the right of States to exclude negroes from the ballot box. But it will probably be adopted by the Senate. The approval of the President is not necessary.

A FITTING REBUKE.—Last week as a railroad train was stopping at Gordonsville to put off a mail, quite a crowd who had assembled there made an assault upon the mail agent, who was a Northern man, as the Post Office Department appoint none who cannot take the oath. They informed him that they would not allow any Yankees to run on their roads. Words led to blows, and the train moving off the mail agent escaped with his life. On reporting this to the Post Office Department, Governor Randall immediately struck Gordonsville from the list of post offices, and trains now run by that point.

— Nine hundred thousand barrels of salt were made in Saginaw (Michigan) Valley in 1865.

— The National Intelligencer contradicts, apparently by authority, the statement that Jeff. Davis is about to be tried by a military commission.

— The Alabama House of Representatives has passed a bill assuming payment of the United States tax on real estate in that State, and authorizing the Governor to issue coupon bonds for the payment of the same.

— A Washington dispatch says the Committee on Ways and Means will modify some of the measures proposed by the Revenue Commission, and among others the reduction on the whiskey tax, which will be maintained at the present rate.

— Jamaica advices state that the new Governor, Gen. Storcks, had arrived. He took the oath of office on the 9th inst. One hundred and fifty political prisoners were to be tried, and the court would open on the 23d. Counsel for Mrs. George W. Gordon had arrived from London.

— The Secretary of the Treasury has instructed Assistant Treasurers to discontinue after Feb. 1st, receiving deposits for temporary loans at 6 per cent. interest. They will hereafter receive such deposits at 5 per cent., payable on ten day notice after thirty days from date of deposit.

— Military officers generally who are stationed in Florida do not believe in the fitness of that State to be reinstated. The inhabitants are bitter, and care about getting back only for the advantages accruing from it for the present. They do not care to conceal their real feelings, as many of our officers have felt to their disgust. They are bitter against Union men from their State who took sides against them, and there is reason to fear for the *status* in the future of such, unless the United States takes care of its own.

☞ The great hammer for the Charlestown Navy Yard has at last reached its destination, has been set up, and found to be in good working condition. An idea of its immensity as a pounding medium may be derived from the appended description. There are four pieces of hammer sides weighing 101,623 pounds; one cylinder of 22,500 pounds; one cylinder bottom of 7450 pounds; one bottom piece of anvil block of 31,500 pounds; top entablature of do. do. of 26,800 pounds; bit for anvil block of 5660 pounds; do. for cylinder of 4500 pounds; six cast iron braces, all weighing 4500 pounds; fourteen do. do. washers of 6674 pounds; two base plates of 21,000 pounds; holding down bolts weighing 7949 pounds, and wrought iron brace bolts, ladders, railing and boxes of bolts, whose combined weight is 8994 pounds, making a grand total of 248,850 pounds, or about 123 3-4 tons, which has been used in the construction of this hammer, which is said to be the largest of the kind in use in the United States. Its cost was about $35,000.

TITUSVILLE, PA.—The Committee of Safety appointed at Titusville, Pa., in consequence of the late attempts to burn the town, on Friday last escorted fifteen gamblers, vagrants, keepers of houses of ill-fame, &c., to the cars, with the warning not to appear in the town again. They will continue their functions. A large number of disreputable females have been notified to leave this week. The Common Council has passed an ordinance expelling all bad characters from the city.

GEN. TERRY SUSTAINED.—The Philadelphia Ledger's correspondent at Washington says the President refuses to interfere with Gen. Terry's recent orders annulling the Vagrant Act passed by the Virginia Legislature.

OIL ON FIRE.—A dispatch from Petroleum Centre states that a fire on Tuesday destroyed seven wells on Benchoff Run, and it was reported that about 20,000 barrels of oil were burnt, together with machinery. The town was saved, with difficulty.

— We have heard of people asking for bread and receiving a stone. We should consider ourselves much worse treated, after asking for Herrick Allen's Gold Medal Saleratus, to have some other kind palmed off on to us. We state this that our readers may enjoy the same pleasure we have—viz: to eat a better Biscuit than was ever made with any other Saleratus or soda. Most of the Merchants have it for sale. See that the name of Herrick Allen is on the wrapper, and no mistake can occur. 43

PHOTOLEUM.

This is a new discovery, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *excellent, safe* and *saluable* illuminating oil ever before the public, giving a *soft, steady* and *brilliant* flame, surpassing even gas-light for reading and having all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* contains no sickening odor when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it char the wick or smoke the chimney, so that once trimming will suffice for a week or more. Photoleum produces a flame that does *not diminish*, but continues the same until every drop of oil is consumed. It is, therefore, very desirable for lighting churches, railroad and horse cars, manufactories and public buildings. The public are invited to call and examine.

Manufactured and for sale by the AMERICAN PHOTOLEUM COMPANY. Office at C. F. WYMAN & Co.'s, 57 Water Street, Boston.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world. Full and explicit directions, complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all Druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

GIPSIES.—It is well known that within the past year a large number of these wanderers have landed on American shores, having been driven from Europe by the enforcement of severe laws against their nomadic and predatory kind of life. The walls of our lockup gave shelter to a couple of them a night or two since—a mother and boy. The elder Zingara stoutly denied her race at first, but the boy upon being questioned admitted that "gipsy was what they were called in England." The Marshal shipped them from our territory by the next morning's train.

DESERTER ARRESTED.—Some time last August a man named Joseph Wallace deserted from the receiving ship Vandalia. With charming effrontery he has made this city his headquarters ever since, but on Thursday he was arrested by our police authorities and returned on board the ship.

WHAT TO DO WITH OLD CLOTHES.—The Mayor of Boston recently made a call for garments to clothe the shipwrecked passengers of the "Gratitude," and, says the Boston Journal, "there was a response from our citizens which was not without a certain significance. Clothing of all kinds was sent. Articles of apparel for men, women and children, bonnets of all dates, hats of all styles, boots of all shapes, were found and brought to light and made serviceable. There was a profusion, more than enough to meet the necessities of the poor exiles, but probably not one family in one hundred, we might say not one person in five thousand of the well-to-do class of citizens, gave a single article; for before the want of such articles was fairly before the public, the cry of "enough" was officially promulgated.

As we looked at the bundles of articles which were sent in on that occasion, we could not but speculate upon the quantity of similar materials which is locked up in old trunks or stored away in closets in the houses of our citizens. The demands of the soldier drew heavily upon these dark closets, but they are far from empty, and and it is only when some stirring appeal is made, that the cast-off garments are brought to light, and the dust and moths which are consuming them are disturbed."

The same thing, we dare say, is substantially as true of Portsmouth as of Boston; and the moral of it may be as well applied to the gifts for the freedmen, and to the poor of our own city, as to the suffering shipwrecked emigrants. We are not glad of the shipwreck; but we are glad that, as the wreck occurred, the rescued people got into Boston, and there unlocked the hearts of some citizens who never aided the sick soldier or the freedmen. It is better far, for those who are able, to give away or sell very cheaply to the poor, the seedy or unfashionable clothing, than to keep it to be consumed by moths or worms or slow decay.

HALL'S JOURNAL OF HEALTH, for February 1864, is filled with observations on the Cholera, Homepathic Directions on the Cholera, and a short editorial on the same topic.

— Jurymen in the Lord Mayor's Court, London, receive two-pence a day for their services. Some of them are dissatisfied and are agitating for an increase of salary.

— About one thousand tons of shot and shell thrown into the forts at the mouth of Cape Fear river (below Wilmington) by the navy during the bombardment under Admiral Porter, have been collected and will be sold at auction Feb. 15 for the benefit of the government.

— It is not generally known that soldiers who have lost limbs in the service of the United States are entitled to artificial substitutes, that can be procured upon the presentation of evidence of honorable discharge, and that the wound causing the loss of the limb was received in the service. They are furnished free of charge, and do not affect any pension or bounty claim the soldier may have against the Government.

— In May last the corner stone of a new Roman Catholic cathedral was laid in Pekin. It is to be of magnificent dimensions—three hundred feet long, and one hundred and fifty feet in breadth, to the extremes of the transept. Its spire will overtop the loftiest of the palaces of the imperial city.

ONE CENT FINE FOR ASSAULTING A TRAITOR.—From a Court Report in the Boston Journal, we get this interesting story:

In the Superior Court, Judge Russell on the bench, the case of Thomas J. Burns, indicted for assaulting one Hobart, in Bowdoin Square, on the 22d ult., "Forefather's Day," with a sabre, and inflicting a slight wound on Hobart's head, was called up, and by advice of Mr. Sinnott, his counsel, Burns pleaded guilty of simple assault, which was accepted by the Government. At the time the affair occurred, it will be recollected by many that Burns admitted that he struck some one a blow, and that he did it because "the man said he wished Jeff. Davis was President now," or something of that tenor. Immediately on his pleading guilty, evidence was produced, satisfactorily showing that Burns, although but a private in the ranks, had rendered most gallant and efficient service to his country, by acting as a spy and scout, and braving the most imminent dangers. During his period of sixteen or eighteen months' service, he was five times an inmate of rebel prisons, and on one occasion was hung up by the neck to a tree on suspicion of being a spy, but his captors finding it impossible to force any disclosures from him, cut him down by order of the rebel Gen. Hoke, barely in time to save his life. He managed to get on board the rebel ram Albemarle as a deck hand, and after doing her what mischief he could without detection, made his escape just in season to join Lieut. Cushing in his attack upon her when that gallant officer sent her to destruction. Burns also received the highest compliments for his daring acts from both the Secretary of the Navy and Secretary of War. Most of these facts were corroborated by Mr. Mudge, the Superintendent of the Sanitary Commission, who added that Burns came home with one of the best indorsed furloughs he had ever seen among some fifty thousand which he had occasion to examine. His counsel stated that these facts were put in in mitigation, and he could not add a word to such a record as the defendant very fortunately was enabled to produce, and from which he could not believe the District Attorney would wish to detract, and therefore he should feel content to leave the matter of sentence to the discretion of the Court. Without any comment, Judge Russell imposed a fine of *one cent without costs*, which was received with evident satisfaction by Burns, and demonstratively approved by all in the court room. Burns was accordingly discharged from custody, and, as he was passing out of the court room, expressed his thanks to the Judge.

— The New Orleans Picayune of the 20th ult. states that several gentlemen who have lately travelled through Texas, concur in the opinion that there will be a very large crop of cotton raised in that broad State this year; some, in fact, think the crop will be larger than in any previous season. Their statement is that the freedmen are generally hiring for the year, while the high prices of cotton have stimulated the large number of small farmers throughout the State—the thousands of Germans, especially, who have done without negro labor for some years—to devote their energy and skill to the cultivation of the fleecy staple.

— A man living in Jersey county, Ill., attempted to cross the Mississippi in a skiff one day last week when he came into collision with a piece of floating ice, which broke his oars, and in which his boat became wedged. He floated down the stream on the ice to St. Louis, where he was rescued, badly frost-bitten, after having been twenty-four hours an the water.

Holloway's Pills.—Pregnancy.—During this delicate situation, ladies will experience great relief by using this mild cathartic medicine for correcting those indispositions and nauseating sickness to which they are subject at this period. They give a gentle stimulus to the circulation, and purify and expel all those humors which irritate the stomach and bowels. They are mild that the most delicate constitutions may take them with perfect safety at any period during females at the dawn of womanhood, or at the turn of life, they are equally adapted. Sold by all Druggists. ja26dawlw

—DEALERS IN—

S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump exceeds anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and these galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

ISRAEL MARDEN & CO.,
39 Congress Street.

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony to their excellence.

Morning Chronicle.

— A few years ago a druggist of Portland purchased a lot of rhubarb at 50 cents per lb. Last week he sold a large quantity of the same to a Boston firm for $5 60 the pound. A snug little margin for profit, that.

— Miss Ann H. Blanchard of Portland, while preparing to go to church last Sunday, suddenly fell to the floor and expired. She was 58 years of age, and disease of the heart is said to be the cause of her death.

— The Grand Jury of Lafayette county, Miss., have found a "true bill" against Gen. A. J. Smith, U. S. A., for burning the court house and town of Oxford in the summer of 1864—and that is probably all they will find.

— A letter from the Rio Grande says the raid on Bagdad was made by "a few ex-Confederates, a few sutlers and filibusters and about forty negroes"—numbering altogether not more than seventy persons.

— "If I am not at home from the party to-night at 10 o'clock," said a husband to his better and bigger half, "don't wait for me." "That I won't," replied the lady, significantly; "if I won't wait, but I'll come for you." The gentleman returned at 10 o'clock precisely.

— A shoemaker in New Orleans was so overcome by the birth of a daughter that he cut out sixteen pairs of Congress boots all for one foot, broke a temperance pledge, got into a street fight with a sailor, and fell overboard.

— The Gardiner Journal, tells a good story of a clergyman in a neighboring town, who having a lot of hay to press, and there happening to come a very damp and misty day just before he was to press it, opened all his barn windows so as to give his hay the benefit of the atmosphere. In a man of the world, this would be considered pretty sharp practice.

— The Second Comptroller of the Treasury has decided that a soldier convicted of crime by the civil authorities, though unconditionally pardoned by a Governor of a State, can claim nothing under his contract of enlistment; he having been withdrawn from the military service by his own misconduct, consequently he is liable to make good the term of his enlistment.

Marriage Certificates.

For the use of Clergymen Justices, and others who perform the ceremony—for sale at the Chronicle Office, single, by the dozen, or hundred.

SUFFERERS

From Dyspepsia

READ! REFLECT!! ACT!!!

TARRANT & CO

Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.

For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, she was finally induced to seek the advice of a learned Physician, Doctor Cabiala, of Venezuela, who immediately prescribed with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.

I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.

Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,

I am very respectfully yours,
S. D. C. HENRIQUEZ,
Merchant, Curacoa, S. A,

New York, June 28th, 1863.

WE ASK

The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of

Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.

Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1837,
78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Canada, England, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largestin New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE THAN THE subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made no cases rejected; appli cations SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, for the treatment of PRIVATE DISEASES OF ALL DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. Dow has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONOERHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, and No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

SHAKING UP THE REBELS.—It seems that the Southern emigrants to Mexico have not all found that peaceful retreat which they were in search of. Messrs. Talcott, Rhett and others, at Maltrata, were alarmed on the 7th of January by a tremendous earthquake. They rushed out of the house, and the latter proceeds to say:

We had no sooner got clear of the building than the most terrible scenes occurred. All around the yard were sheds erected for the accommodation of horses. The ground began to shake immediately, and in such a violent manner that it was almost impossible to stand up, and it was with difficulty that I could keep on my feet, even while grasping a tree that happened to be near me. In the meantime the sheds and adjacent houses were falling down on every hand. The horses were neighing and rearing, the women were shrieking, and, altogether, it was the most fearful scene I ever beheld. Mr. Talcott's house was a perfect wreck, while fortunately the one I occupy is still upright. The dome of the cathedral fell in with a crash, and the south tower, in which the bells were located, is in ruins. The scene about us is desolate enough, and I can sincerely say that I hope never again to experience the fearful sensations of an earthquake.

It is possible that there are some things less agreeable than asking pardon of the Yankees.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blies, Ulcers, Abscesses, and all other impurities of the system are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that make life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons too obnoxious to publish, company call package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 2 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. Are you Lame, Crippled, or Deformed?
Or have you, or your neighbors, a boy or child lame with contracted limbs, or curved spine, or crooked feet, or weak or paralyzed limbs, or ankles, easily sprained, or joints stiff, or who are obliged to creep, or to walk with crutches, or whose limbs are shortened, or crooked, or drawn up, or who walk on the toes, or whose ankles roll over or turn inward, or who have crooked knees from white swelling, or scrofula, or who limp from hip dislocation? To save such from a life of misery, will you not write a letter, giving the prominent points of the case, and receive in return, free of charge, a circular, which may be the means of saving them? If so, address, Dr. J. P. MANN, 23 West 31st Street, New York.

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, in New Jersey, on the same line of latitude as Baltimore, Md.
The soil is rich and productive, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a *great fruit country.* Fifty hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild, winters, a healthful climate, and a good soil, in a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worth their visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Report of Solomon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fertile tracts, in an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* n1—dawôm

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient *is suffering, and re-invigorate the failing system. To the aged and infirm* a few doses of these valuable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore to the wasting energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream, and show, in one glorious fact, the magic that made it fair.
These Famous Remedies
Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed,
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the Vegetable
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, FEBRUARY 3, 1866.

IN CONGRESS, Feb. 1, the New England ship-building interest, and in fact the protective system, was handsomely recognized by the House of Representatives, after an interesting debate. The bill was in these words:

"That no ship or vessel which has been recorded, or registered, as an American vessel, pursuant to law, and which shall have been licensed or otherwise authorized to sail under a foreign flag, and to have the protection of any foreign government, during the existence of the rebellion, shall be deemed or registered as an American vessel, or shall have the rights and privileges of American vessels, except under the provisions of an act of Congress authorizing such registry."

The bill was explained and supported by Messrs. Eliot of Massachusetts and Lynch and Pike of Maine, and it was opposed by Messrs. Brooks of New York, Kasson of Iowa, Thayer of Pennsylvania, Spaulding and Garfield of Ohio. It was defended by Blaine of Maine, and Banks of Mass.,—and after this thorough discussion, passed, 99 to 52.

In the Senate, Mr. Howard spoke in favor of his resolution recommending the trial of Jefferson Davis and C. C. Clay for complicity in the assassination of President Lincoln. It is understood that Judge Adv. Gen. Holt has been placed in possession of important evidence sustaining this charge, since the execution of the other conspirators.

Senator Fessenden announced the determination to take up the proposed constitutional amendment just passed by the House, on Monday next, and to keep it before the Senate until acted upon. Perley says "this shows that Senator F. believes it can be carried in that body. The only way in which it can be defeated will be by a union of the Copperheads and Radical Republicans."

Senator Sumner will commence the debate Monday.

☞ The Galveston Civilian, a steady Union paper, denies the truth of the report circulated North about President Johnson's brother being neglected by Texas surgeons when he died of an accidental wound. The other Galveston and Houston papers contradict these reports.

The Civilian says that all the delegates elected to the convention, as far as heard from, warmly support President Johnson's policy. The election of Judge Hancock at Austin over ex Governor Pease is considered as sustaining the President and opposing Governor Hamilton, who is thought to be more in accord with the radicals than the President.

— In the recently published correspondence of Miss Berry, herself a maiden lady of disappointed hopes, she strongly recommends marriage to her friends of both sexes. "Marriage," she says, "is the high road of life; keep the high road."

— The Newburyport Herald states that on Monday night, 29th ult., Mr. David M. Deal captured a live seal, weighing about two hundred and fifty pounds, on Salisbury Beach. It is quite lively and tractable, and will soon be placed on exhibition.

— Steamer Empire State when passing through Hell Gate Thursday morning, came in contact with an unknown schooner, carrying away the steamer's starboard wheel-house and doing some other damage. The schooner lost her bowsprit, anchor and chain. The latter is on the steamer.

— The woman Matilda Jones, of Marengo, Wayne county, N. Y., who was accused of causing the death of a little stepson, by leaving him alone in the house for three days, to perish by cold and starvation, has been exonerated by the grand jury of Wayne county, it appearing that she had been a kind protector to the boy.

— The U. S. steamer Narcissus, from Pensacola for New York, was lost during a storm on Egremont Key, at the entrance to Tampa Bay, Florida, with all on board, about thirty souls. The U. S. tug Althea left Pensacola in company with the Narcissus, and arrived safely at Key West.—One body was washed ashore from the Narcissus, but could not be recognized.

— One of the Richmond journals opposes a movement of Union men to elect John Minor Botts to the U. S. Senate, on the ground that he is a supporter of and in favor of the continuance of what it denounces as the "oppressive, galling and fatal test oath," and "the very last thing a Virginia Legislature should think of" is the election of Mr. Botts.

— At Franklin, Pa., a fire broke out early Thursday morning, which destroyed twenty-four buildings in the centre of the town, among which were the Post Office, the Hamilton House, Stanford's theatre, and the Masonic building, just completed. Loss estimated at $500,000, about half of which is covered by insurance, principally in Eastern Companies. All the mail matter was saved. The fire originated in a brothel.

NOTES OF FORMER DAYS.

Collected and Collated by UNCLE TOBY.

Rev. Noah Parker, died 1787.—Notice of his ministry, and of the Universalist Society.

NOAH PARKER, as we have learned from old men who knew him well, was a man of great benevolence, kindness and charity. He was the first minister, and one of the first members of the Universalist Society in Portsmouth. He was, moreover, a superior mechanic and a good master. We are sure of the truth of the latter clause, as two of his apprentices, Melcher and Fernald, whom we knew, were greatly attached to his person and ministry, and remained members of his society, during their whole lives.

Mr. Adams, in his Annals, under the year 1787, says of him:

Mr. Noah Parker died on the 17th of August, greatly lamented, particularly by the society to whom he preached. He was a native of this town, was bred a black and white smith, and made himself well acquainted with every branch of the business, particularly with those parts, which required most ingenuity to execute.

Rev. Thos. Whittemore has given a more extended notice of Mr. Parker, in connection with Rev. John Murray, which will doubtless interest many Portsmouth readers.

Mr. Murray made his first visit to this town on the 10th of November, 1773. He had arrived in Boston, the latter part of the preceding month; and having preached there several times, he was invited to visit Newburyport, probably by some persons who had heard him in Boston. While in Newburyport, he was invited by several gentlemen of Portsmouth to visit that place. He says:

"I was received in Portsmouth with most flattering marks of kindness. The pulpit of the Separate minister, Mr. Drown, then recently deceased, was thrown open to me; the congregations were large; my adherents were truly respectable, and I was earnestly urged to take up my residence among them. The meeting-house of Mr. Drown being too small, I was invited into the pulpit of Dr. L——, in which I preached, two clergymen occupying seats therein. In Portsmouth I received many marks of friendship; my necessities were sought out, and removed; and the names of Clarkson, Morrison, Hart, and Drown, son of the deceased minister, were, on that first visit, among my most intimate friends."

On the 9th of the following April, 1774, he received from the church and society of the Separatists in Portsmouth, a solemn and affectionate invitation to take the pastoral charge; but he was not then convinced that he ought to settle in any place: besides, he had not declared in that place, probably, his belief in the final salvation of all mankind, except in the use of scriptural language; and this society having been pleased with his peculiar style of preaching, his views of Christ, of the sovereignty of grace, and finally his antinomianism, extended the invitation referred to. He probably foresaw, that on a full definition of his opinions, he would not be regarded as a proper man for them. In January, 1775, he made his second visit to Newburyport and Portsmouth. By this time, it was known that he believed unqualifiedly in the final restitution of all things. He had then been stoned for that belief in one of the pulpits of Boston. Many of his former friends, on account of his faith in this respect, forsook him; but their places were supplied by others,—among whom he named Judge and Sheriff Parker, Atkinson, Wentworth, Austin, Warner, Sheafe, Langdon, Sewall, Brackett, Whipple, Thompson, Turner, Gardner, Massey, Jackson, &c. &c. He continued an occasional visitor to Portsmouth for many years, and when other pulpits were close against him, the doors of the Episcopal church were thrown open, as we shall see in the succeeding section.

Among the converts to the peculiar sentiments of Mr. Murray, in Portsmouth, was, Mr. Noah Parker, a man of devout life, of excellent character, an industrious mechanic, of the occupation of a black and white smith. Mr. Murray, who followed a master that was the son of a carpenter, did not disdain to hold cordial fellowship with Mr. Parker; and as long as the latter lived he was his friend and correspondent. Several of Mr. Murray's letters and sketches in the three octavo volumes, appear to have been directed to him. In the year 1777, six brethren began to hold meetings in the house of George Massey, probably the same person mentioned above. Mr. Parker became their preacher. Their numbers increased, and they hired a school house in what is now call Market street, known by the name of Dearborn's school house, which occupied the site on which the Commercial Bank now stands. Mr. Murray continued occasionally to visit Portsmouth; and when all the other churches were closed against him, the Episcopal church was opened. It was impossible for the congregations that desired to hear him to be accommodated in a school-house. At length, certain individuals in the Episcopal Society began to show discontent at his being admitted into their church. This roused the feelings of a large part of the society, when they addressed to Mr. Murray the following declaration:

"Whereas it is represented that some objections have been made by one, or more persons, belonging to the church called Queen's Chapel, against the doors thereof being opened, for the admission of Mr. John Murray to preach the gospel; wherefore, we the subscribers, proprietors, and parishioners of the church aforesaid, having taken the same into consideration—do (in order to remove any difficulties that might arise in that gentleman's breast in consequence of such objections)—hereby fully declare our free will, and consent, that the said church be opened at all times, whenever it may be convenient for him to perform divine service in town, more especially during his present stay; and, instead of deeming it an indulgence granted him, we shall, on the contrary, acknowledge it a favor conferred on us, in his acceptance of this invitation. Portsmouth, May 24, 1781."—[*Signed by twenty-four of the leading members of the church in Portsmouth.*]*

The Society increasing in numbers, the brethren were soon compelled to remove from Dearborn's School-house; and they obtained a building formerly owned by the Sandemanians, that stood on elevation nearly opposite to the present Universalist Meeting-house. In 1783, or the following year, they commenced the erection of a small meeting-house in Vaughan street, on a piece of land purchased of Mr. Samuel Hill. The builders of this house alphabetically arranged, were George Atkinson, Esq., Joseph Ayers, Abner Blaisdell, Peter Coues, George Doig, Alexander Ewen, Daniel Fowle, George Hust, Richard Jackson, Jeremiah Libbey, George Massey, Thomas Martin, Nathaniel Melcher, Nathan Nichols, Peter Pearce, Samuel Pearce, Samuel Place, Thomas Parker, William Plaisted, Noah Parker, (the preacher,) Martin Parry, Edmund Roberts, Daniel R. Rogers, Daniel Rindge, James Sheafe, Jonathan Shillaber, John Shackford, George Turner, Jacob Treadwell, John Wendell, Joshua Wentworth and Dr. Warren. Rev. Noah Parker continued to preach in this house until his death, which took place August 17, 1787.

The original Life of Murray, contains this note:

Our preacher was also made the instrument of irradiating the mind of an exemplary philanthropist, Mr. Noah Parker, now in regions of blessedness, who was so deeply penetrated, as to present himself a servant of the living God, a voluntary preacher of the Gospel. A convenient house was raised for his use, by the brethren in Portsmouth, and he continued, until his departure out of time, a zealous and able minister of the Reconciliation.

*We have seen these names in some old publication, we think. Any friend who has them, will oblige us by giving a copy, or lending the book.

NEW HAMPSHIRE ITEMS.

—— Mr. Simeon D. Pease, of Meredith, slaughtered a hog last week, 20 months old, which weighed 762 pounds.

—— There is no Bank in New Hampshire that ceases to redeem its bills in 1866. The same is also true of Vermont, Massachusetts, Connecticut, Rhode Island and New Jersey.

—— John C. Jewell, of Sanbornton, aged 21, committed suicide by drowning, a few days ago. It is said he was discouraged in trying to gain an education by his own efforts.

—— Of the newspapers published in this State, the counties of Carroll, Belknap and Coos have but one each, Rockingham county has five, Strafford four, Merrimack six—all in Concord—Hillsborough nine, Cheshire two—both in Keene—Sullivan three, Grafton two. Of the above, four are dailies, twenty-nine weeklies, and one monthly.

— The J. Monroe Taylor Gold Medal Soap has acquired pre-eminence over all other soaps, in point of utility and economy, from the wash-tub to the printer's devil. It is without doubt the best soap made; it has many inferior imitations, but no rivals, and can be safely said to be ahead of all others. 44

☞ The factories of New England, under the tariff of 1842, reduced the price of cotton cloths from 18 to 10 cents per square yard. Their competition hereafter will continually tend to similar results, and when many competing factories shall rise up all over the country, as the protectionists so ardently desire, we shall have our staple manufactures at the lowest possible prices consistent with the pressure of internal taxes. Let our copperheads rest content. New England and Pennsylvania did their best to put down the great rebellion, because it was a wicked and monstrous thing, threatening evil, and evil only, to all the dwellers in this land, including even the rebels themselves. The national cause has gloriously triumphed, and so, we doubt not, will that other great cause, that of our national industry, seeing that the enemies of both are the same, and recent defeat has weakened their ability to do mischief.

☞ In Boston, Wednesday evening, a lad 13 years of age, named Richard Cary, was runing by the side of a horse car on the Broadway Railroad, when he slipped and fell under the wheels, which passed over his legs, breaking one of them so that it had to be amputated above the knee.—The same afternoon a young man named Wm. Smith, who had climbed on a shed in East Boston for the purpose of getting upon a ferryboat without paying his fare, fell from the shed to the ground, breaking one of his legs.

— Memphis papers furnish further particulars of the explosion of the steamer Miami in the Arkansas river. The total number of lives lost will probably reach 150; only 7 of the crew are known to be saved; 50 bodies have been picked up and buried near the place of disaster; 50 of the wounded are in the hospital at Helena, most of whom are fatally injured.

PHOTOLEUM.

This is a new discovery, the product of Petroleum, and affords the cheapest light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *excellent, safe* and *valuable* illuminating oil ever before the public, giving a *soft, steady* and *brilliant* flame, surpassing even gas-light for reading and leaving all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* emits no sickening odor when burning, even with the smallest flame, rendering it invaluable in a sick room; neither does it chare the wick or smoke the chimney, so that once trimming will suffice for a week or more. Photoleum produces a flame that does *not diminish*, but continues the same until every drop of oil is consumed. It is, therefore, very desirable for lighting churches, railroad and horse cars, manufactories and public buildings. The public are invited to call and examine.

Manufactured and for sale by the AMERICAN PHOTOLEUM COMPANY. Office at C. F. WYMAN & CO.'S, 57 Water Street, Boston.

CLOCK'S
Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not only arrest the hair from falling off; it will instantly arrest the hair from falling off; cause the hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, 3 Congress Block.

FRANK B. CLOCK, Druggist and Chemist, Proprietor, Manchester, N. H. j4

DR. TEBBETTS'
Physiological Hair Regenerator.

The Most Wonderful Discovery of the Age.

WILL POSITIVELY RESTORE GRAY HAIR TO ITS ORIGINAL COLOR, whether black, brown, or auburn; and being a delightful dressing, it imparts to it a beautiful glossy and healthy appearance. It will in most cases, produce a growth of hair on bald heads, where the glands or roots of the hair are not disorganized, and effectually remove all dandruff, itching and humors from the scalp. ☞ It is warranted to produce the above results, or money refunded.

PRICE—$1 per Bottle.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot), and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

Wm. Lake and als. to Jos. H. Thacher for $3480. 3 undivided fifth parts of land and buildings corner Vaughan and Congress streets.

Wm. H. Strickland, gdn., to Jos. H. Thacher for $1160. One-fifth part land and buildings corner Congress and Vaughan streets.

Chas. W. Brewster, trustee, to Jos. H. Thacher for $1160. One-fifth part of land and buildings corner Vaughan and Congress streets.

Henry E. Holmes and als. to John S. Woodman for $340. 3 acres land north of Sagamore Creek.

Daniel Smith to Matthew T. Betton for $650. Land and buildings on Mt. Vernon street.

Isaac Dow to John A. Pickering for $1150. The Mark Dennett Farm, so called.

John Trundy to John L. Frisbee for $2300. Land and buildings bounded north by Chatham St.

IN BOARD OF ALDERMEN, on Thursday evening, the following appointments were made:

Steam Fire Engine, No. 1—Engineer, Jefferson McIntire, at $75 per year. Fireman, Chas. Manet, at $100 per year. Driver, Geo. J. Fernald, $15 per year.

Steam Fire Engine No. 2—Engineer, Oliver Maxwell, at $75 per year. Fireman, Wm. Morrison, at $100 per year.

☞ On Monday evening, the present incumbent of the Farm was re-elected by the Board of Aldermen, but was not confirmed by the Mayor.

On Thursday evening last, the Overseers of the Poor sent to the Mayor and Aldermen a communication relative to the receipts and expenditures of the City Farm, in which the figures present a favorable aspect of the present management of the Farm. The communication was referred.

Thirty days having elapsed since the organization of the present city government, the election of Superintendent of the City Farm goes to the City Council, the Board of Mayor and Aldermen having failed to appoint.

☞ There was a false alarm of fire on Friday evening at about 10 o'clock. If one-half the anathemas this reporter heard pronounced against the authors thereof were to take effect, the offending parties would never raise another, though they might revel in a conflagration whose duration and intensity would alarm *them*. Incautious haste over slippery walks brought many a man to grief, and—but, pshaw! it's too late to speak farther on this subject.

☞ Our Masonic lodges are in a most flourishing condition, notwithstanding their recent severe loss by the burning of Congress Block. Applications for admission to the mysteries and benefits of the order are numerous. St. John's Lodge now numbers 210 members, and St. Andrew's Lodge has about 175.

☞ We learn that Mr. Charles D. Perry, the popular tenor of Father Kemp's troupe, has returned to his home in this city quite unwell, occasioned by exposure and constant singing.

☞ A refugee from the State Reform School was apprehended on Friday, but upon the showing of his school teacher in this city that he is now regularly attending school and that his conduct is excellent, it was deemed unnecessary to remand him to that institution.

☞ By authority of a vote of the City Council passed March 2, 1865, there has just been issued from the press of C. W. Brewster & Son, a much needed book of reference—"The Charter with its amendments, and the Revised Ordinances, of the City of Portsmouth." The work is very neatly gotten up and makes a volume of 130 pages.

SAD SIGHT.—On Friday noon a middle-aged woman was found lying drunk in Islington street.

☞ Tony Pastor, whose name is a household word with the lovers of Ethiopian minstrelsy, visits us with his combination troupe on Tuesday evening next.

☞ Rev. Joseph E. Barry, of Boston, will preach at the Christian Chapel, to-morrow (Sunday.)

☞ Mr. Wendell offers a large variety of goods at auction this morning. Also, sales in the afternoon and evening.

☞ The following is a list of the new conductors appointed in place of the discharged officials on the Concord, Manchester and Lawrence Railroad and branches: William H. Alexander of Portsmouth, Eben French of Manchester, Isaac H. Chandler of Hopkinton, John B. Lebosquet of Concord, William R. Batchelder of Lowell, Gen. Michael T. Donohoe of Manchester, Geo. W. Maynard of Lawrence, and J. S. Doolittle of Keene.

BUTTER.—The St. Albans (Vt.) Messenger of Wednesday last says: "Our local butter market shows the dull season, and quotations are of little account. Small sales were made yesterday at prices ranging from 25 to 32 cents."

STARKWEATHER, THE MURDERER.—The Hartford Courant gives a lengthy account of a confession of his crime made by Starkweather, the Manchester murderer, now under conviction for killing his mother and sister. It was made to a friend of the criminals a few days after the tragedy took place, under seal of secresy, which Starkweather's conviction has removed. The murder was a cold-blooded, premeditated one, and under the circumstances related in the confession, peculiarly heartless.

HARNESS THIEF.—A man named Chas. Knox, a resident of Chelsea, has been recently arrested in Charlestown on suspicion of being concerned in numerous harness robberies in the suburban cities, and through his disclosures the Charlestown officers have recovered about a dozen stolen harnesses, which they are now holding until identified by the owners. Stephen Perley, lately sent from the Suffolk courts to the State Prison, is implicated by Knox in the thefts.

— A Yankee being asked by a Southerner why the Yankees always say "I guess," while the Southern people say, "I reckon," gave the explanation "that a Yankee could guess as well as a Southerner could reckon."

— A Washington dispatch says it is estimated that if the District Suffrage Bill should pass the Senate without amendment the President might feel it his duty to veto it, although he had not fully determined to do so. He expresses his approval of the Trumbull Freedman's Bureau Bill.

— The Aroostook Pioneer says that "Mr. Butler of Ashland, who is lumbering upon the Fish River waters, cut a pine the other day, which produced as follows: First cut a log which scaled 1000 feet; from that to the branches, five tons of timber; and the branches 1000 feet more."

— The billiard match, at City Hall, Biddeford, Wednesday night, between Goldthwaite, of New York, and Daniels of Boston, was won by Goldthwaite, who made the extraordinary number of nearly seven hundred at five runs. Daniels also made several large runs. Old players consider the match one of the best on record.

☞ We call the attention of all desiring a pleasant and profitable employment to the advertisement in this paper headed "$1500 per year."

THE PEOPLE will have their own way, and indeed we do not wonder that every one is bound to use Coe's Cough Balsam, and nothing else, for it is certainly the best thing in the world, for Coughs, Colds, Croup, and Influenza. It is right that all should use it.

Coe's Dyspepsia Cure, an article prepared by the same parties, is equally good for Dyspepsia, Indigestion and Constipation, Sick Headache, Sour Stomach, Rising of Food, Cramps, Pains, and in fact any disorders of the stomach and bowels. ja29eod1w

THE WORLD AND HIS WIFE, and grown-up daughters, are unanimous on one point. S. Vance's Submerged Well PUMP.

This unsurpassable invention, now being first introduced, will, it is believed, supersede all other Well Pumps now in use.

ITS ADVANTAGES.

FIRST, SIMPLICITY.—This Pump is composed of but three parts, and is so simple in its construction that any one can easily put it together.

SECOND, DURABILITY.—Its peculiar construction, and the fact that it is always submerged combine to make it the most durable of all Pumps yet invented.

THIRD, NEVER FREEZES.—The valves are so constructed that, when not in motion, they allow all the water above to pass down into the well, and thus prevent freezing.

FOURTH, POWER.—For the amount of power applied, this Pump excels anything known. It throws one-third part more water than ordinary pumps, and works so easily that even a child can pump without fatigue. It is in this way the greatest labor-saving pump now offered to the public.

FIFTH, IT IS INVALUABLE.—For a well pump it is invaluable, as all the iron which is submerged consists of but three small pieces, and those galvanized. It can in no way corrode, consequently it brings up pure water at every stroke.

SIXTH, CHEAPNESS.—This Pump is so made that it costs but a trifle, and is warranted to keep in use for years. No repairs at all are needed. It is very light, and thus the cost of transportation is very small.

☞ Manufactured by S. VANCE & CO., No. 31 Liberty Street, Newburyport, and for sale in Portsmouth by the Sole Agents for N. H.,

ISRAEL MARDEN & CO.,

☞ We are permitted to refer to Mr. MONROE HOLMES and to Mr. FRANK W. MILLER of the Daily Chronicle, who have these new Pumps in use on their premises,—for testimony to their excellence.

BISHOP COLENSO AT NATAL.—On his recent return to Natal, Bishop Colenso encountered nearly as much opposition as in England. The wardens protested against his preaching in the cathedral, and the "Dean's party" had the organ and pews locked, and the communion plate removed. The ropes were also removed from the bells. An interdict from the Supreme Court, however, forbade their keeping the cathedral doors closed during the usual hours of service, and at the last moment they yielded. There was a great crowd of people present to hear the Bishop.

FALSE PUBLICATION OF MARRIAGES. A bill has been introduced into the Pennsylvania Legislature intended to put a stop to the practice of procuring to be published false announcements of marriages. It provides that every person found guilty of procuring the publication of such a notice in the Pennsylvania papers shall be punished by imprisonment of five years or less, or by fine of $500 or less, besides being liable in damage at the suit of the damaged parties.

— It is proposed to supply London with water from North Wales, a distance of 152 miles. Expense—£8,600,000.

— Investigations recently made by the Commissioner of Customs relative to the smuggling on the Canadian borders have exhibited the fact that the hostile Indians of Minnesota and Dakota have for a long time past been supplied with rifles of the Enfield pattern, by English smugglers.

SUFFERERS
From Dyspepsia
READ! REFLECT!! ACT!!!
TARRANT & CO
Gentlemen, I am a resident of Curacoa, and have often been disposed to write to you concerning the real value of your SELTZER APERIENT as a remedy for indigestion and dyspepsia. I desire to express to you my sincere gratitude for the great benefit the SELTZER has done my wife.
For four or five years my wife has been sadly afflicted with Dyspepsia, and after being under the treatment of several Doctors for two or three years, was finally induced to seek the advice of a learned Physician, Doctor Cabialis, of Venezuela, who immediately treated her with your EFFERVESCENT SELTZER APERIENT. She began to improve at once and is now PERFECTLY WELL.
I feel it to be my duty for the good of humanity to make this statement, feeling that a medicine so valuable should be widely known.
Trusting that you will give this publicity, and repeating my earnest gratitude and thanks,
I am very respectfully yours,
S. D. C. HERNEUGUES,
Merchant, Curacoa, S. A.
New York, June 28th, 1865.
WE ASK
The suffering millions in our land to give this remedy a trial, convinced that by its timely use many may be relieved, many cured of
Dyspepsia, Heartburn, Sour Stomach, Sick Headache, Dizziness, Indigestion, Piles, Costiveness, Bilious Attacks, Liver Complaints, Rheumatic Affections, &c.
Read the Pamphlet of Testimonials with each bottle, and do not use the medicine against the advice of your Physician.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign records, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent issued by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of his Agency for nearly twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and foreign lands, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
HENRY L. ELLSWORTH,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that was pending. Such unmeasurable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

A CUTTING ARGUMENT.—In a speech recently made in Brooklyn, Frederick Douglass, in referring to a declaration made by Henry Ward Beecher some years ago, that if he could abolish slavery on the instant, or by waiting twenty-five years, could have it so abolished that its overthrow would wholly redound to the glory of the Christian Church, he would prefer the latter, said: "I presume Mr. Beecher was entirely sincere in this preference; and yet if I were a Maryland slave-holder, and Mr. Beecher were my slave, and I had a raw-hide, I could take this opinion out of him in less than half an hour."

— California gave more than one-fourth of the Sanitary Commission fund—$1,219,112 out of $4,530,000.

— It has been ascertained that individuals engaged in purchasing honorable discharges from soldiers, dispose of the same to "conscripts," who evaded the draft by fleeing to Canada. The names of the discharged soldiers, by means of a chemical process, are removed and the names of the purchasers substituted.

— Ohio is the only State that came out of the war with less debt than it went in with, the principle of taxation having been adopted even in the darkest hours. The State debt now is thirteen million five hundred thousand one hundred and seventy-five, against fourteen million two hundred and fifty thousand two hundred and thirty-three dollars in 1860. Her school system is admirably managed. Her agricultural interests are fostered. She bases her taxation on property and incomes, forbidding by fundamental law the *taxation of the person.*

VINELAND
FARM AND FRUIT LANDS.
In a mild and healthful climate. Thirty miles south of Philadelphia by Railroad, in New Jersey, in the same line of latitude as Baltimore, Md.
The soil is rich and productive, varying from a clay to a sandy loam, suitable for Wheat, Grass Corn, Tobacco, Fruits and Vegetables. This is a great fruit country. Five hundred Vineyards and Orchards have been planted out by experienced fruit-growers. Grapes, Peaches, Pears, &c., produce immense profits. Vineland is already one of the most beautiful places in the United States. The entire territory, consisting of fifty square miles of land, is laid out upon a general system of improvements. The land is only sold to actual settlers with provision for public adornment. The place, on account of its great beauty, as well as other advantages, has become *the resort of people of taste.* It has increased five thousand people within the past three years. Churches, Stores, Schools, Academies, Societies of Art and Learning, and other elements of refinement and culture have been introduced. Hundreds of people are constantly settling. Hundreds of new houses are being constructed. Price of Farm land, twenty acre lots and upward, $25 per acre. Five and ten acre and Village lots for sale.
Fruits and Vegetables ripen earlier in this district than in any other locality north of Norfolk, Va. Improved places for sale.
Opening for all kinds of business. Lumber Yards, Manufactories, Foundries, Stores and the like; and Steam Power, with room, can be rented.
For persons who desire mild winters, a healthful climate, and a good soil, all a country beautifully improved, abounding in fruits, and possessing all other social privileges, in the heart of civilization, it is worthy of a visit.
Letters answered, and the Vineland Rural, a paper giving full information, and containing Reports of Solon Robinson, sent to applicants.
Address CHAS. K. LANDIS, Vineland P. O., Landis Township, New Jersey.
From Report of Solon Robinson, Agricultural Editor of The Tribune: *It is one of the most extensive fruit tracts, on an almost level position and suitable condition for pleasant farming that we know of this side of the Western Prairies.* 1l—dawów

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE.
These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these
Life-giving Pills!
Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these invaluable PILLS will prove to be
A Very Fountain of Youth,
For in every case they add new life and vitality, and restore the wasting energies to their pristine state. To the young and middle-aged, they will prove more invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to youth and make youth ever
AN ETERNAL SPRING!
It was left for this day and hour to realize the dream; and show, in one glorious fact, the magic that made it fair.
These Famous Remedies
Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate them, but seize the favorable opportunity that offers. When taken as prescribed—
FOR BILIOUS DISORDERS
Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest
VEGETABLE COMPOUNDS.
They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.
For Cutaneous Disorders
And all eruptions of the skin, the SALVE is most invaluable. It will not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

MONDAY, FEBRUARY 5, 1866.

VEXATIOUS SUITS. — The two suits brought by James F. Hill against Rev. J. H. Moore of Warren, Mass.,—the first to recover $5000 damages for alleged assaults upon plaintiff's wife, and the second to recover $3000 damages for enticing the wife away, and harboring by defendant at his own house—have resulted rather unfavorably to the plaintiff. In the first case the jury awarded $1 damages, by which the plaintiff is not entitled to any costs, and in the second the plaintiff was non-suited, enabling the defendant to recover costs. The trial occupied three days, and excited much interest in the town of Warren.—*Herald.*

These suits were probably the result of a conspiracy to extort money from Mr. Moore, by threats of a lawsuit which might be expected to trouble and disturb him greatly, and perhaps ruin his reputation. The attempt was a failure: Mr. Moore would not pay anything—but defended the suit,—and comes out clear.

☞ The Conneaut (O.) Reporter contains the details of the case of Louisa Black, who was found in a hay-stack in Mahoning county, where she had existed for two weeks during the coldest weather, without sustenance. Owing to the terrible condition of her feet, amputation became necessary; but while being lifted from the bed to the operating table, her right foot fell off itself. It is very doubtful if she can recover from the terrible trial to which she has been subjected. She can keep no sustenance, or very little, on her stomach. The Reporter says the case seems incredible, but there is every reason to believe in its truth.

PASSENGER SHIPS.—A bill has been introduced in Congress to amend the act regulating the carriage of passengers in steamships and other vessels. It prescribes the number of passengers which may be lawfully taken on board any such ship or vessel, exclusive of the *bona fide* first-class cabin passengers; and excluding for the purpose of this act the portion of the vessel so appropriated, the space in the poop or deck houses; it proportions the number passengers to the cubic feet contained in the space in the upper and lower between decks. In the upper between decks one passenger to every 110 cubic feet, and in the lower between decks one to every 120 cubic feet. To every passenger assigned to a place or brought therein in excess of the proper number, the master or other person in command of the vessel is to be subject, on conviction, to the fines and penalties provided, viz: $50, and may also, at the discretion of the judge, be imprisoned for a period not exceeding six months.

☞ On Friday Secretary Seward was on the floor of the Senate, commending to the members of the Committee on Foreign Relations a proposition submitted by President Johnson to recognize the Dominican Republic, which the Secretary visited during his recent cruise. The President is Senor Buoneventura Baez, a mulatto, who has already made treaties with France, Great Britain and Denmark. It is proposed to appoint as United States Minister there Gen. W. L. Cazneau, who is a resident merchant, thoroughly versed in the affairs of the Republic. The Senate will doubtless agree to it.

☞ The trial of Clark, the Adams Express robber, was commenced at Bridgeport on Wednesday, after considerable effort on the part of his counsel to get a further postponement. More than one hour was occupied in reading the complaint. Tristam pleaded guilty, and the Court adjourned. The trial of Clark will occupy ten days or a fortnight.

☞ We have another rumor that the French troops are to leave Mexico, without any condition that we shall acknowledge Maximilian, or do any thing more than be neutral. Also from Mexico some strange rumors of the same sort. Some rebels that went to Mexico, are returning.

☞ The N. Y. Herald's Toronto despatch says the Canadian Fenians have issued an address to the American Brotherhood, endorsing O'Mahony and declaring that the true and only object of the movement is the freedom of Ireland, and denouncing the proposition to go to Ireland by way of Canada.

☞ The health officers of Brooklyn, N. Y., have employed 40 physicians to inspect all parts of that city for sanitary purposes.

☞ A Kansas dispatch says the Commissary and Quartermaster's Warehouse at Fort Ruby, were burnt last Wednesday. Loss $1,000,000.

— A Cairo dispatch states that General W. B. Forrest having heard, upon what he supposed reliable authority, that the Secretary of War had issued an order for his arrest and deportation to Washington for trial by a military court, has fled the country, and, it is supposed, has gone to Mexico.

IN THE U. S. SENATE, Friday, Feb. 2, Senator Sumner introduced a joint resolution for carrying out the guaranties of a republican form of government in the Constitution, and for enforcing the Constitutional amendments for the prohibition of slavery. It is understood that the Senator will speak at length in support of this joint resolution as a substitute for the constitutional amendment, which is to come before the Senate on Monday.

The bill for sale of postage stamps on credit was passed.

The bill for the protection of all persons in their civil rights was taken up.

Mr. Hendricks moved to strike out the 9th section authorizing the use of the army and navy to enforce its provisions. Negatived.

Mr. Davis moved an amendment, which was negatived.

Mr. Saulsbury moved an amendment, inserting after the words "civil rights," the words "except the right to vote." Lost—yeas 7, nays 39.

On motion of Mr. Norton, an amendment was adopted, striking out that portion of the 7th section imposing a fine of $1000, in case of the escape of any culprit, upon officers in charge. The bill then passed—yeas 33, nays 12.

[It declares all men born in the U. S. to be citizens, except Indians not taxed. Some persons ask *why* these are excepted? Probably because we have *treaties* with Indian tribes.]

THE HOUSE devoted the day to the New York City contested election case, and heard speeches from Mr. James Brooks, editor of the Express, who received the certificate of election, and Mr. Dodge, the contestant, a banker, whose income last year was over $1000 a day. Had a vote been taken, Mr. Dodge would have received the seat, but at his request Mr. Brooks was granted more time in which to print his evidence, and the decision is meanwhile postponed.

The House paid a high compliment to Gens. Meade and Thomas, who were formally introduced by Speaker Colfax, and who made neat speeches of acknowledgment, after which the Representatives, the reporters and the spectators united in giving them three rousing cheers.

Mr. Eliot, who has charge of the Freedmen's Bureau bill in the House, has postponed the time for taking the vote on it until Monday, with the understanding that the speeches to be made are to be on the question and not campaign essays. Perley says: "There are indications that an attempt will be made to strike out the section granting possessory titles for three years to the freedmen located on the Sea Islands of South Carolina, as it is believed that, if this section is retained, President Johnson will veto the bill."

[He should have the chance to do it, if he wishes. Threatened vetoes should never stop the passage of a bill. Real vetoes are worthy of consideration. And a vetoed bill may be passed by a two-thirds vote, or the bill revised and re-enacted, with the objectionable clause stricken out.]

SEMMES.—The Washington correspondent of the Philadelphia Ledger writes:

It is stated to-day that the President recently referred Hughes, the counsel for Semmes, to Secretary Welles for any information that he might desire with respect to the case of his client. The Secretary said he was preparing a report to be submitted to the Cabinet in favor of the trial of the prisoner before a court composed of an equal number of naval and military officers, and that it would be left with the President and his Cabinet to decide whether the trial should proceed. The charges against the prisoner are understood to be:

The destruction of lighthouses.

Capture and burning or sinking of unarmed vessels without submitting the cases of the vessels to the adjudication of a prize court.

Rendering assistance to the insurgents after he had surrendered his ship to the commander of the Kearsarge.

GOLD, Saturday, 140 1-4. Sent to Europe, $300,000.

☞ It is said there is a lady living in York of the age of 106 years. Her name is Mrs. John Caline.

— The four youths hung in Nashville for murder, laughed, swore, scoffed and chewed tobacco on the gallows up to the last moment.

— The Gloucester Advertiser says the Georges fleet will number two hundred vessels this season, which is twice as many as were engaged in the same fishing the last year.

— Outrages by returned rebel soldiers in West Virginia are becoming quite frequent, and the Unionists there are calling loudly for a stringent registration law. A letter from Hardy county, reciting the insolence of returned rebels there, says—"We must have law here—civil or military."

— Wilkes' Spirit of the Times says it feels warranted in stating to the public that the revelations of the last ten days will justify it in announcing now that the Government has decided that Jefferson Davis shall be tried for treason and other high crimes before a military commission.

(Communication.)

HIGH PRICKS.—From the public journals in various sections, and other sources in our Northern States, we learn that there is an abundance of agricultural products. The President of the United States, in his Proclamation of the 28th Oct., says "Our granaries are full of the fruits of an abundant season." He has the best means of hearing from all parts of the Union. The Governor of New Hampshire in his Proclamation of the 25th Oct., says that "abundant harvests have crowned the labors of the husbandmen; that industry has received its due reward; and that prosperity has blessed the marts of commerce and trade; and that the present is manifold in blessing and the future rich in hope."

We think that no person of extensive information will doubt the truth of these statements. How, then, can we account for the present high prices of the necessaries of life? Although falling too slowly, as the premium on gold is gradually reduced, they should generally be reduced at least one-half. The high prices have various causes, but are attributed chiefly to unprincipled speculators. Many of them live in New York, having sufficient wealth to purchase and hoard up the necessaries of life, making them scarce in the public markets, until they command unreasonable prices.

High prices, as a general rule, depend upon the scarcity of the articles in the market. This the speculators understand, and therefore send their agents through the country to purchase the cereal products, and beef, pork, butter, cheese, and other things. A writer for a newspaper recently declared that these speculators were more guilty than the highway robber, because the latter robbed one person at a time; whereas the former robbed thousands of the poor of their hard earnings, by compelling them, to prevent starving, to pay the enormous prices, which enrich the speculators.

Should the sudden reduction of prices involve such villains in bankruptcy, it would be a righteous judgment. "Retributive justice is sure to follow crime." The New York speculators in the silver and gold currency, for a time raised the premium above the paper currency to an extraordinary price. This was done by artfully creating a public panic that the paper currency would never be redeemed, although the public faith, and all the property in the United States are pledged for ultimate redemption. Even now, since the cessation of hostilities, some editors are either stulified, or actuated by base motives to change the National Administration, by representing the paper currency to be no better than rags, and that it will never be redeemed! The specie premium will soon be largely reduced and that will tend to reduce prices.

It is conceded that the inflation of the paper currency, without its being redeemable at any time in specie, tends to enhance prices; but the government will, as soon practicable, by a curtailing process, provide the ways and means for a return to the specie currency, and make its notes convertible into specie. There is now probably in the loyal States, more than three hundred millions of silver and gold while importers of foreign goods are paying to the government for duties in specie about one hundred millions annually, and sixty millions it is stated are now in the Treasury, it seems strange that more is not in circulation.

A redundancy of either a metallic or paper currency above what is required for exchanges, except perhaps to pay for foreign merchandize, adds nothing to our national wealth. Our large national debt, incurred by the war, about equal to the value of our annual products, should be made by a general reduction of the taxes and confiscation of the estates of the leading traitors, to bear less heavily upon the present generation; for as future generations will receive equally the beneficial results of the war, they ought to bear a proportion of its expenses.

The taxes for most of our marketable goods, are of course added to the *ante bellum* prices of the necessaries of life for consumption, and this bears too heavily upon the poorer classes, and therefore requires legislative amendment upon the return of peace. Various kinds of goods for domestic consumption are vended in distant markets at much cheaper rates than in this section. When our merchants and traders purchase there, they ought to add *only reasonable* profits. As one means to reduce prices, the people of all classes should practice a rigid economy, and so far as practicable, refuse to purchase until prices are reduced. Speculators would feel the necessity of sending their hoarded goods and merchandize to market, or suffer the ruinous consequences. CALCULATOR.

— General Sherman has written a letter to the President, detailing the circumstances under which he issued the order locating the Freedmen on these Sea Islands. He says that at that time he had no idea that the rebellion was so near its end, and that he only contemplated locating the old and the young contrabands who had followed his army on its march to the sea, until the close of hostilities. Gen Sherman advocates the restoration of the Sea Islands to their original owners.

Light! Light! Light!
PHOTOLEUM.

This is a new discovery, the product of Petroleum, and affords the very best light of this enlightened age, has been thoroughly tested, and is offered with confidence as the most *excellent, safe* and *valuable* illuminating oil ever before the public, giving a *soft, steady* and *brilliant* flame, surpassing even gas-light for reading and leaving all other oils far out of sight. It needs but a trial to convince the most skeptical of its superiority. *Photoleum* emits no sickening odor when burning, even with the smallest flame, rendering it invaluable in a sick room, neither does it clog the wick or smoke the chimney, so that once trimming will suffice for a week or more. Photoleum produces a flame that does not *diminish*, but continues the same until every drop of oil is consumed. It is, therefore, very desirable for lighting churches, railroad and horse cars, manufactories and public buildings. The public are invited to call and examine.

Manufactured and for sale by the AMERICAN PHOTOLEUM COMPANY. Office at C. F. WYMAN & Co.'s, 57 Water Street, Boston.

CLOCK'S
Excelsior Hair Restorer

Is warranted to restore GRAY HAIR in all cases to its original color, whether black or brown.

It will not stain the skin or the finest linen.

It will instantly arrest the hair from falling off, cause a new hair to grow on BALD HEADS when fallen off by disease; and is a complete dressing for the hair, keeping it moist and glossy and perfumed longer than any other preparation in the market.

This article is warranted to do as represented, or the money will be refunded. It is positively the greatest discovery in hair preparations of the age.

For sale in Portsmouth by J. H. THACHER, Apothecary, opposite the Post Office, and at No. 12 Market Square.

Also by WILLIAM R. PRESTON, Apothecary, 2 Congress Block.

BRANDRETH'S PILLS. INFLUENZA. DIPTHERIA. In inflammatory affections, when no bleeding is permitted, a free use of these Pills soon modifies the alarming symptoms, and perseverance, according to the directions, usually quickly cures, and certainly nothing is risked in using Brandreth's Pills. For cold, influenza, diptheria, pains of the head, dizziness and apoplexy, no medicine can be compared to them. In erysipelas, fever and ague, small pox, and in all the diseases of childhood, their use insures a speedy recovery of health.—They produce these results simply by taking from the blood its impurities, leaving
THIS VITAL FLUID FREE,
to aid a weak "locality" to recover its proper and necessary "status" or health.

BRANDRETH'S PILLS have affinity for the
SUBJECT MATTER OF DISEASE,

☞ The second Annual Sailmakers' Ball was held in Irving Hall on Friday evening last, under the auspices of T. H. Saunders and John Trador. The hall was tastefully decorated with flags and streamers, and the merry party commenced to trip the light fantastic toe about 9 P. M., to the excellent music of Turner's Quadrille Band. The managers spared no pains to make it one of the pleasantest gatherings of the season, and they deserve the thanks of the entire company for the kind and gentlemanly manner in which everything was managed and conducted. The happy party, after dancing until nearly four in the morning, dispersed to their several homes, all highly pleased with their evening's amusement. a.

☞ We learn from the Boston Journal that a man named Emery Ayers, belonging in Portsmouth, N. H., was found dead in bed at No. 282 Main street, Cambridgeport, on Thursday. An inquest was held by Coroner Marston, and it is supposed that Ayer died from the effect of wounds on his head and body. The origin of these wounds was not ascertained, but it was supposed that he was knocked down and robbed while in an intoxicated condition on Monday night last, as it is known he visited Boston at that time. His remains were sent to Portsmouth Friday.

The above from the Boston papers, we are requested by the friends of the deceased in this city, to say is incorrect in several particulars. It was on Tuesday evening the assault was made, in the street, by two unknown men, who after knocking Mr. Ayers down, ran, on being accosted by another man who was passing, and who took Mr. A. to his boarding house in Cambridgeport, where he died on Thursday night. The unfortunate man was a moulder by trade, and a prominent member of the Association, much esteemed by his companions; and although of intemperate habits at times, is said not to have tasted liquor for several days previous.

The physician who attended the murdered man, was of opinion that his only wound, which was on his head, was caused by a blow from a sand-bag; and the statement that there were other wounds or bruises on his body, are incorrect. Mr. Ayers was 35 years of age; and his funeral was attended in this city on Sunday.

TOWN FARM ACCOUNTS.—*Messrs. Editors:*—We have seen the Mayor's *expose* of these accounts, with much surprise:—and on enquiry we are told that the Overseers of the Poor have prepared another account, which gives a very different view from the Mayor's. We are told further that this was handed to the Mayor and Aldermen and referred several days ago: since when no one has been able to get hold of it, for perusal or copying. But, Messrs. Editors, the public have a right to *demand* its publication, that it may be compared with the other. Every tax-payer should have a chance to see what can be said on both sides of this money question, before the present superintendent shall be re-appointed, or any other appointment made. What we want is light, and open dealing. Somebody is wrong: we wish to know who it is. TAX PAYER.

POLICE COURT, Feb. 3.—Murrah Doyle, a marine on board the Vandalia, who has not been on shore for some length of time before, got most gloriously drunk. He was brought before Judge Bufford, in the absence of Judge Odell, and was sentenced to pay a fine of $3 and $3.86 costs.

☞ A tin pedlar from one of our neighboring shire towns came to this city recently and was so unwary as to be led from the path of duty by a woman already possessed of a husband. In consequence of this misstep we are informed he was obliged to pay the injured husband (?) $200, a day or two since.

☞ Our city clock is getting rather venerable, and halts occasionally when it should not. Built in 1803, it may live out its three score years and ten, but we hope to see a new timepiece on the new City Hall the ladies are about to build.

☞ We understand that Mr. Shores, No. 38 Market street, has purchased the Circulating Library of the late Francis Grant of Exeter, consisting of over 2000 volumes. This, incorporated with his present library, will make one as large as that lost at the fire at Congress Block.

NAVAL.—Actg. Ensign George M. Prindle has been detached from the Mackinaw, and granted sick leave.

The honorable discharge granted Actg. 2d Asst. Engineer Geo. W. Kidder is revoked, and he will remain on board the Mackinaw.

☞ Rev. A. L. Stone, that ever popular lecturer, appears before our lyceum this evening. Miss Susie Foster will precede the lecture with vocal music, accompanied by Mr. Towle of Exeter, organist at the Unitarian Church in this city.

☞ Gov. Cass, at his home in Detroit, is said to be failing fast.

RECITATIONS.—A good and appreciative audience, composed of our most respectable citizens, welcomed Mrs. Julia V. Whipple, of Portsmouth, on her appearance in Concord,—the place of her former abode—on Tuesday evening last, as a reader. Mrs. Whipple had never, until that evening afforded our people opportunity to judge of her performances in the line of literary labor to which she has recently been devoting attention. Her recitations were from Shakespeare and other authors, and were of sufficiently divers character to test her powes. They were executed in a highly creditable manner, and afforded proof both of her ability to apprehend aright the spirit and meaning of the productions chosen for recitation, and to execute them in a highly respectable manner. *Statesman.*

☞ Kittery owes $33,500, and has a valuation of $389,469. Eliot owes $55,000, and has a valuation of $589,104. York owes $54,996, and has a valuation of $510,665. All these debts are for war purposes.

☞ To-morrow evening we expect to see a large audience at Tony Pastor's grand concert.

Special Insurance Notice.

To my Friends and the Public:

Twelve years ago I was appointed Agent of the HOME INSURANCE COMPANY of New York, and have faithfully performed every trust and duty for the Company. Last week I received a note from Mr. N. A. CLARK, Special Agent, stating a change was to be made and the Agency to be transfered to another party. I at once thought what was in the wind, and left for New York to learn the cause, but before my return the change was made. I inquired why the change was made, as not a word had been said that all transactions were not satisfactory—and all the charges they brought against me were that the Company was making no money in Portsmouth, that the rates of insurance were too low, and I was blamed for the late three-mile burning of Congress Block and Locke's Stable.

This same Special Agent, N. A. CLARK, spent several weeks in Portsmouth, examined all my risks that he wished to see, and generally called them very good; approved the risks of Preston, Shores and Salen, in Congress Block. Mr. Clark, at my request, went with me to Woodbury Locke's Stable on State street, and examined the premises and stock, and fixed the rate at 1½ per ct., a half per cent. less than I had before insured him, and authorized me to take any reasonable amount Mr. Locke wanted insured. I acted under his instructions; and if insuring the Stable was the cause of the *fire;* the blame should be on Mr. Clark, and not on me—for I should not have taken it at that rate. Such is a true statement of the facts and all charges that have come to my knowledge.

I think the Home Insurance Co., or their Special Agent, N. A. Clark, has done me great injustice, after working for them for so many years; then, without any satisfactory reason or complaint, and without notice, give my hard earned labors to another man. I trust my friends and the public will withdraw their Insurance, and bestow it on me, where it rightfully belongs,—for I have several as good and responsible Insurance Companies as the Home, of New York.
